100% Pass 2026 Oracle Reliable Flexible 1z0-1080-25 Learning Mode

P.S. Free 2026 Oracle 1z0-1080-25 dumps are available on Google Drive shared by Dumpexams: https://drive.google.com/open?id=1nZ3v4cQ84VnIlhf40s_Fv0EfaRKX5iX3

Along with 1z0-1080-25 self-evaluation exams, Oracle Planning 2025 Implementation Professional (1z0-1080-25) dumps PDF is also available at Dumpexams. These 1z0-1080-25 questions can be used for quick 1z0-1080-25 exam preparation. Our 1z0-1080-25 dumps PDF format works on a range of Smart devices, such as laptops, tablets, and smartphones. Since Oracle Planning 2025 Implementation Professional (1z0-1080-25) questions PDF are easily accessible, you can easily prepare for the test without time and place constraints. You can also print this format of Dumpexams's Oracle Planning 2025 Implementation Professional (1z0-1080-25) exam dumps to prepare off-screen and on the go.

Oracle 1z0-1080-25 Exam Syllabus Topics:

Topic	Details
Topic 1	• Manage Metadata and Data: This section of the exam measures the skills of a Planning Administrator and covers methods for loading and maintaining metadata and data in Planning.
Topic 2	• Set up valid and invalid intersections and cell-level security: This section of the exam measures the skills of an EPM Consultant and focuses on defining valid data intersections and applying security controls to limit data access at the cell level.
Topic 3	• Import and export metadata into Planning: This section of the exam measures the skills of a Planning Administrator and involves understanding how to bring metadata in and out of Planning applications.
Topic 4	• Design forms and dashboards: This section of the exam measures the skills of an EPM Consultant and covers designing planning input forms and visual dashboards to support decision-making.
Topic 5	• Describe Planning features: This section of the exam measures the skills of an EPM Consultant and focuses on recognizing key Planning features that help organizations manage and analyze financial data efficiently.

Topic 6	• Assign access permissions to artifacts and cells in Planning: This section of the exam measures the skills of a Planning Administrator and involves granting permissions to users for accessing specific Planning objects and data.
Topic 7	• Provision users and groups. This section of the exam measures the skills of a Planning Administrator and covers how to manage user access by assigning them to appropriate roles and groups.
Topic 8	• Explain required and user-defined dimensions; how dimension hierarchies impact Planning
Topic 9	• Import and export data into Planning: This section of the exam measures the skills of a Planning Administrator and covers the process of moving planning data into and out of the system.
Topic 10	• Create and run data integrations: This section of the exam measures the skills of an EPM Consultant and involves building data integration flows between different data sources and Planning.
Topic 11	• Report on EPM data: This section of the exam measures the skills of a Planning Administrator and covers using reporting tools to analyze data stored in EPM applications.
Topic 12	• Describe Planning modules: This section of the exam measures the skills of an EPM Consultant and includes identifying different modules like Financials, Workforce, Projects, and Capital.
Topic 13	• Explain the benefits of using Groovy Rules: This section of the exam measures the skills of an EPM Consultant and explains how Groovy scripting enhances rule flexibility and performance.
Topic 14	• Manage Rules: This section of the exam measures the skills of an EPM Consultant and covers designing and managing business logic using rules and rulesets to automate calculations.
Topic 15	• This section of the exam measures the skills of a Planning Administrator and includes understanding how standard and custom dimensions are used, and how dimension hierarchies affect planning structure and outcomes.
Topic 16	• Create and manage navigation flows: This section of the exam measures the skills of an EPM Consultant and involves organizing navigation flows to simplify user interaction in Planning.
Topic 17	• Report on Planning Data: This section of the exam measures the skills of a Planning Administrator and focuses on generating reports to analyze and present Planning data effectively.
Topic 18	• Set Up Planning Security: This section of the exam measures the skills of a Planning Administrator and includes provisioning user roles and assigning appropriate access rights across Planning artifacts and data.
Topic 19	• Set up Planning and FreeForm Applications: This section of the exam measures the skills of a Planning Administrator and involves setting up Planning applications, including FreeForm apps, to support flexible planning and modeling needs.
Topic 20	• Introduction to Planning Modules: This section of the exam measures the skills of an EPM Consultant and introduces the available Planning modules, their integration, and use cases.
Topic 21	• Planning Overview: This section of the exam measures the skills of an EPM Consultant and covers the general features of Planning. It includes how Planning works, its core capabilities, and how it fits into enterprise performance management.
Topic 22	• Set up and run data maps: This section of the exam measures the skills of a Planning Administrator and focuses on configuring and executing data maps to move data across plan types or applications.
Topic 23	• Identify metadata and data load options: This section of the exam measures the skills of a Planning Administrator and introduces options available for importing and managing metadata and data within the system.

Topic 24	• Manage Dimensions: This section of the exam measures the skills of a Planning Administrator and covers how to manage essential dimensions and hierarchies that organize planning data.
Topic 25	• Map data across applications: This section of the exam measures the skills of an EPM Consultant and includes how to map and align data structures between Planning and other connected applications.
Topic 26	• Creating System Reports: This section of the exam measures the skills of a Planning Administrator and focuses on system-generated reports that provide insights into application activity.
Topic 27	• Create Reports: This section of the exam measures the skills of a Planning Administrator and involves creating reports that summarize planning activities and outcomes.
Topic 28	• Build validation rules: This section of the exam measures the skills of an EPM Consultant and includes creating rules that validate data entry in forms.
Topic 29	• Design business rules and rulesets":his section of the exam measures the skills of an EPM Consultant and focuses on creating logic structures to perform calculations and automate processes in Planning.

Types of 1z0-1080-25 Exam Practice Test Questions

Most customers reflected that our Oracle exam questions cover most of questions of actual test. So if you decided to choose 1z0-1080-25 as your study materials, you just need to spend your spare time to practice 1z0-1080-25 Dumps PDF and remember the points of pass exam guide. Our latest vce dumps are the guarantee of clear exam.

Oracle Planning 2025 Implementation Professional Sample Questions (Q64-Q69):

NEW QUESTION # 64
After loading data from external systems, you can quickly perform task that can add or update existing employee and job data using Mass Update forms. Which two actions can you take on the Mass Update forms in Workforce?

- A. Change existing properties and then override default assignments and rates.
- B. If an existing employee was not loaded from the load file, you won't be able to add their compensation before first adding them to the source system and reloading the file.
- C. Add a new record for an existing employee who was not in the load file, and apply configured defaults.
- D. Delete the loaded salary information and then run the data mal for Compensation Data to calculate the updated benefits.

Answer: A,C

NEW QUESTION # 65
Which item CANNOT be pushed between cubes using data maps?

- A. Data change history
- B. Attachments
- C. Supporting detail
- D. Comments

Answer: A

Explanation:
In Oracle Planning 2024, data maps with Smart Push or manual execution can push various types of data between cubes within the same application or across applications. However, not all items can be transferred.
The item that cannot be pushed is:
* A. Comments: Incorrect. Comments (cell-level annotations) can be pushed between cubes using data maps, provided the

mappings include the necessary dimensions.

* B. Attachments: Incorrect. Attachments linked to data cells can be transferred via data maps, as long as the target cube supports them and the mapping is configured correctly.
* C. Data change history: Correct. Data change history (audit trails tracking who changed what and when) is not transferable via data maps. It is metadata tied to the source cube's audit log, not a pushable data element.
* D. Supporting detail: Incorrect. Supporting detail (breakdowns of aggregated values) can be pushed between cubes if the target cube is configured to accept it and the mapping includes it.

The Oracle documentation specifies that data change history is excluded from data map transfers, as it's a system-maintained log, not a user-editable or movable data type, making C the correct answer.

Oracle EPM Cloud Documentation: "Smart Push Capabilities" (docs.oracle.com, Published 2023-12-15, updated for 2024).

NEW QUESTION # 66

Which three are Navigation Flow customization categories?

- A. Group
- B. Global
- C. User
- D. Role
- E. Artifact

Answer: A,B,D

Explanation:

In Oracle Planning 2024, Navigation Flows can be customized to tailor the user interface and experience based on specific categories. The three customization categories supported are Role, Group, and Global:

* A. Role: Navigation Flows can be customized for specific user roles (e.g., Planner, Administrator), allowing different layouts or access to cards based on job functions.
* C. Group: Customization can be applied to user groups, enabling administrators to assign tailored navigation flows to predefined sets of users based on their team or department.
* E. Global: Global customization applies to all users across the application, serving as the default navigation flow unless overridden by Role or Group settings.
* B. User: This is incorrect because Oracle Planning does not support navigation flow customization at the individual user level- customizations are broader, targeting roles or groups.
* D. Artifact: This is incorrect because "Artifact" refers to application components (e.g., forms, rules) managed in migration, not a category for navigation flow customization.

The Oracle documentation confirms that Role, Group, and Global are the three levels at which navigation flows can be customized, providing flexibility in how users interact with the Planning application.

NEW QUESTION # 67

Which two permissions are assigned when a model is first created in Strategic Modeling?

- A. Owner permissions
- B. Power User permissions
- C. Default permissions
- D. Viewer permissions

Answer: A,C

NEW QUESTION # 68

Which option describes Intelligent Performance Management (IPM) Insights?

- A. Enables users to keep their work private (from the other non-administrators) as they develop their plans.
- B. Analyzes past data and predicted data, helping you find patterns in data
- C. Displays high-level aggregated information for quick consumptions at a glance
- D. Checks when conditions are met in forms, and generates messages when data violates specified condition

Answer: B

NEW QUESTION # 69
......

One of the advantages of the 1z0-1080-25 training test is that we are able to provide users with free pre-sale experience, the 1z0-1080-25 study materials pages provide sample questions module, is mainly to let customers know our part of the subject, before buying it, users further use our 1z0-1080-25 Exam Prep. At the same time, it is more convenient that the sample users we provide can be downloaded PDF demo for free, so the pre-sale experience is unique. So that you will know how efficiency our 1z0-1080-25 learning materials are and determine to choose without any doubt.
