NEW QUESTION # 60

What is the most common basis for the concept of race?

- A. genotype
- B. ethnicity
- C. phenotype

Answer: C

Explanation:

The most common basis for the concept of race is phenotype, which refers to observable physical characteristics such as skin color, hair texture, and facial features. While genotype (genetic makeup) and ethnicity (cultural identity) are important, race has historically and socially been categorized primarily by outward physical traits. This understanding is foundational in multicultural counseling, as it helps counselors recognize how clients might be perceived and treated in society.

Which of the following is ethical behavior for a professional counselor?

- B. advertising discount group counseling services
- C. deidentifying research data to ensure client anonymity

Answer: C

NEW QUESTION # 64

What career guidance theory has been in use for the longest period of time?

- A. sociocultural
- B. psychoanalytic
- C. trait and factor

Answer: C

Explanation:

The trait and factor theory is the oldest and most established career guidance theory, developed in the early 20th century by Frank Parsons. Effective career guidance matches personal traits to job factors, making it the foundation for many subsequent career theories.
