100% Pass-Rate 3V0-22.25 Vce Torrent Supply you First-Grade Sample Exam for 3V0-22.25: Advanced VMware Cloud Foundation 9.0 Operation to Prepare easily

Passing an exam isn't an easy thing for some candidates, if youchoose the 3V0-22.25 training materials of us, we will make the exam easier for you. 3V0-22.25 training materials include knowledge points, you can remember them through practicing. 3V0-22.25 questions and answers will list the right answer for you, what you need to do is to practice them. In addition, there are experienced

specialists checking the 3V0-22.25 Exam Dumps, they will ensure the timely update for the latest version.

VMware Advanced VMware Cloud Foundation 9.0 Operation Sample Questions (Q27-Q32):

NEW QUESTION # 27
An operator creates a recurring job to "Downsize Oversized VMs" every Sunday at 3:00 AM. The application team is concerned that an automated downsize might reboot a critical service unexpectedly.
How can the operator configure the job to provide a safety gate while still automating the schedule?

- A. Enable the "Email Approval" option in the job configuration. This will generate an email with the recommended actions, and the job will only execute the changes for the specific VMs that the admin approves via the link.
- B. It is not possible; Automation Central is "All or Nothing".
- C. Use the "Simulate" mode, which only writes to a log file.
- D. Set the job priority to "Low".

Answer: A

NEW QUESTION # 28
Which core VMware Cloud Foundation components have native, pre-bundled adapters available in VCF Operations, allowing for immediate configuration without downloading external Management Packs? (Choose 2.)

- A. VMware vCenter Server
- B. VMware Tanzu Kubernetes Grid
- C. VMware Aria Automation Config
- D. VMware HCX
- E. VMware NSX

Answer: A,E

NEW QUESTION # 29
An operator attempts to execute a "Delete VM" action on a Powered Off VM from the VCF Operations Reclaim dashboard. The task initiates but quickly fails with an error message in the "Recent Tasks" pane.
Error
"The object has already been deleted or the user does not have permissions." The operator verifies the VM still exists in vCenter.
What is the mostly likely permission-based root cause?

- A. The operator's VCF Operations user account lacks the "View Dashboard" privilege.
- B. The VM is protected by vSphere HA.
- C. The VCF Operations "Action Adapter" service is stopped on the remote collector.
- D. The Service Account used by the vCenter Adapter Instance in VCF Operations lacks the specific VirtualMachine.Inventory.Delete privilege in vCenter Server.

Answer: D

NEW QUESTION # 30
A Solution Architect is designing a "Multi-Tenant" VCF Operations strategy using Federation. The design involves a "Provider" instance and three "Tenant" instances.
Setup
Provider Instance: Managed by Service Provider
Tenant A, B, C Instances: Managed by respective customers
Federation: Provider Instance is the "Head"; Tenants are "Members".
Security Requirement
The Provider must see high-level health scores of Tenant environments.
The Provider must NOT be able to drill down into the names of specific Tenant VMs or view detailed logs.
Which configuration aspect of the Federation effectively enforces this security boundary?

- A. The Federation is "One-Way" by default; the Head pushes data to the Members, so the Provider naturally cannot see Tenant data.
- B. Configuring "Data masking" on the Cloud Proxies in the Tenant sites to obscure VM names before they are sent to the Provider.
- C. Federation access controls allow the "Member" (Tenant) to strictly limit the depth of data exposed to the "Head" (Provider), often restricting it to summary/badge data only.
- D. The Provider must use a "Read-Only" user account that is manually created in each Tenant's Active Directory.

Answer: C

NEW QUESTION # 31
In the context of VCF Operations, what is the primary function of the "Automation Central" component?

- A. To automatically patch the VCF Operations analytics nodes when a new update is available.
- B. To deploy new ESXi hosts and configure their networking via scripts.
- C. To replace Aria Automation (vRealize Automation) for all tenant blueprint deployments.
- D. To serve as a native task scheduler that automates operational actions, such as reclaiming resources or resizing VMs, based on defined schedules and policies.

Answer: D

NEW QUESTION # 32
.....

To pass the VMware 3V0-22.25 exam on the first try, candidates need Advanced VMware Cloud Foundation 9.0 Operation updated practice material. Preparing with real 3V0-22.25 exam questions is one of the finest strategies for cracking the exam in one go. Students who study with 3V0-22.25 Real Questions are more prepared for the exam, increasing their chances of succeeding. The 3V0-22.25 exam preparation calls for a strong preparation and precise VMware 3V0-22.25 practice material.
