

Sure VMware 3V0-24.25 Pass, 3V0-24.25 Latest Exam Notes

Our 3V0-24.25 test braindumps are carefully developed by experts in various fields, and the quality is trustworthy. What's more, after you purchase our products, we will update our 3V0-24.25 exam questions according to the new changes and then send them to you in time to ensure the comprehensiveness of learning materials. We also have data to prove that 99% of those who use our 3V0-24.25 Latest Exam torrent to prepare for the exam can successfully pass the exam and get VMware certification. So if you are preparing to take the test, you can rely on our learning materials. You will also be the next beneficiary. After you get VMware certification, you can get boosted and high salary to enjoy a good life.

The 3V0-24.25 Exam software's user-friendly interface is made to uproot potential problems. Once you will try the demo of 3V0-24.25 exam questions, you will be well- acquainted with the software and its related features. Also 3V0-24.25 exam comes with various self-assessment features like timed exam, randomization questions, and multiple questions types, test history and score etc. Which means it enables you to customize the question type and you may practice random questions in order to enhance your skills and expertise. You may keep attempting the same questions many a time also.

3V0-24.25 Latest Exam Notes & 3V0-24.25 Valid Test Pass4sure

You will gain a clear idea of every VMware 3V0-24.25 exam topic by practicing with Web-based and desktop VMware 3V0-24.25 practice test software. You can take VMware 3V0-24.25 Practice Exam many times to analyze and overcome your weaknesses before the final VMware 3V0-24.25 exam.

VMware Advanced VMware Cloud Foundation 9.0 vSphere Kubernetes Service Sample Questions (Q70-Q75):

NEW QUESTION # 70

What is the standard procedure for upgrading the vSphere Supervisor Cluster to a newer version?

- A. The upgrade is initiated from the vSphere Client by selecting the Supervisor Cluster and choosing a target version, which triggers a rolling update of the Control Plane VMs and the Spherelet agents on the ESXi hosts.
- B. The upgrade is performed exclusively through the NSX Manager interface, as it controls the Supervisor networking.
- C. The upgrade requires a complete re-installation of the Supervisor Cluster; workload data must be backed up and restored manually.
- D. The administrator must download an ISO image, mount it to each Control Plane VM, and run an upgrade script manually.

Answer: A

NEW QUESTION # 71

A VI Administrator needs to configure a Supervisor Cluster to download the latest supported Tanzu Kubernetes releases

automatically from VMware over the internet.

Review the configuration steps:

1. Navigate to vSphere Client > Content Libraries.
2. Click Create New Content Library.
3. Name: Tanzu-Kubernetes-Lib.

Which specific settings must be applied in the subsequent configuration screens to meet the requirement?

- A. Select Subscribed content library and provide the official VMware TKG subscription URL.
- B. Select Local content library and manually upload the OVAs downloaded from Customer Connect.
- C. Select Subscribed content library and choose the option "Enable publishing".
- D. Select Local content library and enable "Optimize for syncing".

Answer: A

NEW QUESTION # 72

A Security Architect is designing a Disconnected (Air-Gapped) vSphere with Tanzu environment for a defense contractor. The environment has NO internet access.

Requirements:

1. Developers must be able to provision TKG clusters.
2. Developers must be able to install standard packages (Contour, Prometheus).
3. All images must be scanned and hosted internally.

Which architectural components and configuration steps are strictly required to support this design?

(Select all that apply.)

- A. Deploy a Private Container Registry (e.g., Harbor) within the air-gapped environment to host the system images (TKR) and package bundles.
- B. Configure the TKG clusters to use a Private Package Repository CR that points to the internal registry URL instead of the default public VMware URL.
- C. Configure the TkgServiceConfiguration (or global Supervisor settings) to trust the Private Registry's CA certificate.
- D. Use an internet-connected machine to download/pull the required TKG images and Package Repository bundles from the public VMware registry, then push them to the internal Private Registry.
- E. Configure the Supervisor to use a HTTP Proxy to bypass the air-gap restrictions.

Answer: A,B,C,D

NEW QUESTION # 73

A Cloud Administrator is troubleshooting connectivity issues for a vSphere Namespace named finance-prod. Workloads within this namespace are unable to connect to an external Oracle database located at 10.50.1.200.

Review the following NSX Logical Router configuration output for the Tier-1 Gateway associated with the namespace:

```
nsx-cli> get logical-router interface
```

```
...
```

```
Interface : 928374-uuid-downlink
```

```
Type : downlink
```

```
IP/Mask : 10.244.0.1/28 (Pod CIDR Gateway)
```

```
...
```

```
nsx-cli> get nat rules
```

```
...
```

```
Rule ID : 1001
```

```
Action : SNAT
```

```
Source : 10.244.0.0/28
```

```
Translated : 192.168.100.5
```

```
Status : Enabled
```

```
...
```

```
# External Firewall Logs (Corporate Firewall)
```

Drop: Src 192.168.100.5 Dst 10.50.1.200 Proto TCP Port 1521 (Rule: Default Deny) Based on the data, what is the root cause of the connectivity failure? (Choose 2.)

- A. The SNAT rule is disabled in NSX.
- B. The destination Oracle database is down.

- C. The Corporate Firewall is blocking traffic based on the translated Source IP (the Egress IP), not the internal Pod IP.
- D. The Pod CIDR 10.244.0.0/28 is exhausted, preventing the workload from acquiring an IP to initiate the connection.
- E. The SNAT IP 192.168.100.5 assigned to the namespace egress traffic is not whitelisted on the external Corporate Firewall.

Answer: C,E

NEW QUESTION # 74

A Cloud Administrator needs to prepare a VKS environment for a "Private Cloud" deployment where all Kubernetes nodes must pull their system images (e.g., kube-proxy, coredns, antrea) from a central Harbor Registry instead of the internet.

Review the configuration snippet for the TkgServiceConfiguration (the global TKG configuration object):

```
apiVersion: run.tanzu.vmware.com/v1alpha1
```

```
kind: TkgServiceConfiguration
```

```
metadata:
```

```
name: tkg-service-configuration
```

```
spec:
```

```
defaultCNI: antrea
```

```
...
```

```
trust:
```

```
additionalTrustedCAs:
```

```
- name: harbor-ca-cert
```

```
data: LS0tLS1... (Base64)
```

```
imageRepository:
```

```
host: harbor.corp.local
```

```
caCertificate: LS0tLS1... (Base64)
```

What is the effect of configuring the imageRepository field in this spec? (Select all that apply.)

- A. It instructs the Supervisor to rewrite the image manifests for system components (like CoreDNS) to point to harbor.corp.local instead of projects.registry.vmware.com.
- B. It forces all user workloads (Pods) to use this registry by default.
- C. It automatically copies/replicates the images from VMware Public Registry to harbor.corp.local.
- D. It overrides the default upstream VMware registry location for all newly created TKG clusters.
- E. It configures the TKG worker nodes to trust the CA certificate of the Harbor registry.

Answer: A,D,E

NEW QUESTION # 75

.....

While all of us enjoy the great convenience offered by 3V0-24.25 information and cyber networks, we also found ourselves more vulnerable in terms of security because of the inter-connected nature of information and cyber networks and multiple sources of potential risks and threats existing in 3V0-24.25 information and cyber space. Taking this into consideration, our company has invested a large amount of money to introduce the advanced operation system which not only can ensure our customers the fastest delivery speed but also can encrypt all of the personal 3V0-24.25 information of our customers automatically. In other words, you can just feel rest assured to buy our 3V0-24.25 exam materials in this website and our advanced operation system will ensure the security of your personal information for all it's worth.

3V0-24.25 Latest Exam Notes: https://www.prep4cram.com/3V0-24.25_exam-questions.html

Our 3V0-24.25 test bank has a 100% hit rate, which guarantees that everyone who has used the MS-200 test bank will pass the exam, What's more, from the feedback of our customer, all most the candidates have passed the actual test with the help of our 3V0-24.25 Latest Exam Notes - Advanced VMware Cloud Foundation 9.0 vSphere Kubernetes Service latest vce, the pass rate of the 3V0-24.25 Latest Exam Notes - Advanced VMware Cloud Foundation 9.0 vSphere Kubernetes Service valid dumps is up to 99%, VMware Sure 3V0-24.25 Pass Do you want to make some achievements in your career?

Really enjoyed all sessions, The buyer squeezed suppliers on prices, Our 3V0-24.25 test bank has a 100% hit rate, which guarantees that everyone who has used the MS-200 test bank will pass the exam.
