IBM C1000-196 practice materials are highly popular in the market compared with other materials from competitors whether on the

volume of sales or content as well. All precise information on the IBM DataPower Gateway v10.x Administrator - Professional C1000-196 Exam Questions and high accurate questions are helpful. To help you have a thorough understanding of our C1000-196 training prep, free demos are provided for your reference.

IBM DataPower Gateway v10.x Administrator - Professional Sample Questions (Q100-Q105):

NEW QUESTION # 100

In the context of DataPower appliances, what is typically the role of the x2 form factor series?

- A. Dedicated to low-traffic environments with no need for external storage
- **B. Designed for high availability and clustering to handle large-scale deployments**
- C. Primarily used for physical testing environments with limited network configurations
- D. Optimized for heavy computational tasks and physical device management

Answer: B

NEW QUESTION # 101

What should be the priority action if DataPower Gateway is experiencing high utilization in a production environment?

- **A. Quiesce the appliance to stop non-essential tasks**
- B. Add more memory and CPU resources to the appliance
- C. Reduce the number of active services to minimize load
- D. Reboot the appliance to clear high utilization

Answer: A

NEW QUESTION # 102

What is the primary function of managing system resources in different form factors of DataPower appliances?

- **A. To provide different levels of power redundancy and network speed options for specific workloads**
- B. To adjust the form factor's power consumption for energy efficiency
- C. To ensure the appliance can handle both high-traffic internal and external communication
- D. To configure the firmware for each appliance model

Answer: A

NEW QUESTION # 103

What is the primary purpose of configuring the DataPower appliance's Access Control List (ACL)?

- **A. To restrict administrative access based on IP address or network**
- B. To configure automated backup schedules for the appliance
- C. To manage and control traffic between internal and external interfaces
- D. To define user roles and permissions for accessing specific appliance features

Answer: A

NEW QUESTION # 104

What is the first step in troubleshooting when a service on the DataPower appliance is not responding?

- A. Reboot the appliance to refresh all settings
- B. Perform a factory reset to clear potential configuration issues
- **C. Check the appliance's resource utilization to ensure no performance bottlenecks**
- D. Disable all user connections to prevent further interference

Answer: C
