

100% Pass Quiz 2026 Marvelous JN0-232: Test Security, Associate (JNCIA-SEC) Pdf

Pass Juniper JN0-232 Exam | Latest JN0-232 Dumps & Practice Exams - Cert007

1. Which two traffic types are considered exception traffic and require some form of special handling by the PFE? (Choose two.)

- A. SSH sessions
- B. ICMP reply messages
- C. HTTP sessions
- D. traceroute packets

Answer: B, D

2. What is the correct order in which interface names should be identified?

- A. system slot number → interface media type → port number → line card slot number
- B. system slot number → port number → interface media type → line card slot number
- C. interface media type → system slot number → line card slot number → port number
- D. interface media type → port number → system slot number → line card slot number

Answer: C

3. What are two characteristics of a null zone? (Choose two.)

- A. The null zone is configured by the super user.
- B. By default, all unassigned interfaces are placed in the null zone.
- C. All ingress and egress traffic on an interface in a null zone is permitted.
- D. When an interface is deleted from a zone, it is assigned back to the null zone.

Answer: B, D

4. Which two statements are correct about screens? (Choose two.)

- A. Screens process inbound packets.
- B. Screens are processed on the routing engine.
- C. Screens process outbound packets.
- D. Screens are processed on the flow module.

Answer: A, D

5. Which statement about NAT is correct?

- A. Destination NAT takes precedence over static NAT.
- B. Source NAT is processed before security policy lookup.
- C. Static NAT is processed after forwarding lookup.
- D. Static NAT takes precedence over destination NAT.

Answer: D

6. Which statement is correct about global security policies on SRX Series devices?

- A. The to-zone any command configures a global policy.
- B. The from-zone any command configures a global policy.
- C. Global policies are always evaluated first.
- D. Global policies can include zone context.

Answer: D

7. What information does the show chassis routing-engine command provide?

Juniper JN0-232 practice questions are based on recently released Juniper JN0-232 exam objectives. Includes a user-friendly interface allowing you to take the Security, Associate (JNCIA-SEC) practice exam on your computers, like downloading the PDF, Web-Based JN0-232 Practice Test TestPassed, and Desktop Juniper JN0-232 practice exam TestPassed.

As we all, having a general review of what you have learnt is quite important, it will help you master the knowledge well. JN0-232 Online test engine has testing history and performance review, and you can have a review through this version. In addition, JN0-232 Online test engine supports all web browsers and Android and iOS etc. JN0-232 Exam Materials of us offer you free demo to have a try before buying JN0-232 training materials, so that you can have a deeper understanding of what you are going to buy. You can receive your downloading link and password within ten minutes, so that you can begin your study right away.

Free PDF Juniper - Authoritative Test JN0-232 Pdf

If people buy and use the JN0-232 study tool with bad quality to prepare for their exams, it must do more harm than good for their exams, thus it can be seen that the good and suitable JN0-232 guide question is so important for people's exam that people have to

pay more attention to the study materials. In order to help people pass the exam and gain the certification, we are glad to the JN0-232 Study Tool from our company for you. We can promise that our study materials will be very useful and helpful for you to prepare for your exam

Juniper Security, Associate (JNCIA-SEC) Sample Questions (Q58-Q63):

NEW QUESTION # 58

Which two criteria would be used for matching in security policies? (Choose two.)

- A. MAC address
- B. applications
- C. source address
- D. interface name

Answer: B,C

Explanation:

Security policies in Junos OS match traffic based on specific criteria:

* Source and destination addresses(Option B).

* Application(Option D), which may be defined as services (e.g., tcp/80) or recognized through AppID.

Other options:

* MAC addresses(Option A) are not used in policy matching; policies operate at Layer 3/4.

* Interface name(Option C) is used in firewall filters, not in security policy definitions.

Correct Criteria:Source address and Applications

Reference:Juniper Networks -Security Policy Match Conditions, Junos OS Security Fundamentals.

NEW QUESTION # 59

Click the Exhibit button.

Referring to the exhibit, which two statements are correct? (Choose two.)

- A. The URL matches a predefined Web filtering category.
- B. The NextGen Web Filtering type is being used.
- C. The SRX firewall does not have an SSL proxy configuration.
- D. This is a custom Web filtering block message.

Answer: A,B

Explanation:

From the exhibit:

* The user attempted to access https://www.wikipedia.org.

* The block page indicates:

* CATEGORY: NG_Reference

* REASON: BY_PRE_DEFINED

- * The header states: "Juniper Web Filtering has been set to block this site." Analysis of options:
 - * Option A: Correct. The log shows "REASON: BY_PRE_DEFINED," which means the site was blocked because it matched a predefined category in the Web filtering database.
 - * Option B: Correct. The category "NG_Reference" indicates that the NextGen (Enhanced/Cloud-based) Web Filtering type is being used.
 - * Option C: Incorrect. The exhibit does not provide any information about SSL proxy configuration; it only shows that the HTTPS site was blocked.
 - * Option D: Incorrect. The block page shown is the standard Juniper default block page, not a custom message.
- Correct Statements: The URL matches a predefined Web filtering category, and the NextGen Web Filtering type is being used.
Reference: Juniper Networks - Web Filtering (SurfControl, Enhanced, and NextGen Web Filtering), Junos OS Security Fundamentals.

NEW QUESTION # 60

Which two characteristics of destination NAT and static NAT are correct? (Choose two.)

- A. Destination NAT requires address range sizes that match the devices being translated.
- **B. Static NAT automatically creates a matching rule for the opposite direction.**
- C. Static NAT uses Port Address Translation.
- **D. Destination NAT supports port forwarding.**

Answer: B,D

Explanation:

* Static NAT: Provides a one-to-one bidirectional mapping between internal and external IP addresses.

When configured, the translation automatically applies in both directions (Option A is correct). It does not use Port Address Translation (Option C is incorrect).

* Destination NAT: Allows external clients to access internal resources by translating the destination address. It supports port forwarding so specific services (e.g., HTTP on port 80) can be forwarded to an internal host (Option D is correct). It does not require equal-sized address ranges (Option B is incorrect).

Correct Characteristics: Static NAT is bidirectional, and Destination NAT supports port forwarding.

Reference: Juniper Networks - NAT Types and Characteristics, Junos OS Security Fundamentals.

NEW QUESTION # 61

What is the purpose of rate-limiting exception traffic in the Junos OS?

- A. to enhance the performance of the forwarding plane
- B. to simplify the configuration of network interfaces
- C. to manage routing protocols and updates
- **D. to prevent denial-of-service attacks on the Routing Engine**

Answer: D

Explanation:

Rate-limiting exception traffic protects the Routing Engine (RE) from being overwhelmed by excessive control-plane traffic. By limiting the rate of packets sent from the Packet Forwarding Engine (PFE) to the RE, Junos OS helps prevent denial-of-service (DoS) attacks that could disrupt management or routing processes.

NEW QUESTION # 62

Which two statements are correct about security policies in SRX Series Firewalls? (Choose two.)

- **A. A security policy can control both intra-zone traffic and inter-zone traffic.**
- **B. A security policy can only control transit traffic.**
- C. A security policy can control both transit traffic and self-traffic.
- D. A security policy can only control inter-zone traffic.

Answer: A,B

Explanation:

Security policies on SRX Firewalls can control both intra-zone traffic (traffic within the same zone) and inter-zone traffic (traffic between different zones).

Security policies are designed to control transit traffic, meaning traffic passing through the firewall, not traffic destined to the device itself.

NEW QUESTION # 63

.....

We have always taken care to provide the best Juniper JN0-232 exam dumps to our customers. That's why we offer many other benefits with our product. We provide a demo version of the real product to our customers to clear their doubts about the truthfulness and accuracy of Security, Associate (JNCIA-SEC) (JN0-232) preparation material. You can try the product before you buy it.

JN0-232 Testdump: <https://www.testpassed.com/JN0-232-still-valid-exam.html>

Juniper Test JN0-232 Pdf There are three different versions about our products, including the PDF version, the software version and the online version, Our Juniper JN0-232 practice questions are designed and verified by prominent and qualified Security, Associate (JNCIA-SEC) (JN0-232) exam dumps preparation experts, We are clearly concentrated on the international high-end market, thereby committing our resources to the specific product requirements of this key market sector, as long as cater to all the users who wants to get the test Juniper JN0-232 Testdump certification.

If you only have a few hours per week to spend, then you might not be cut out Latest JN0-232 Test Testking to be a high-volume seller, As more developers develop native applications for Glass, an incredible piece of hardware, the possibilities are limitless.

Top Test JN0-232 Pdf | Valid JN0-232 Testdump: Security, Associate (JNCIA-SEC)

There are three different versions about our products, JN0-232 Testdump including the PDF version, the software version and the online version, Our Juniper JN0-232 Practice Questions are designed and verified by prominent and qualified Security, Associate (JNCIA-SEC) (JN0-232) exam dumps preparation experts.
