All these three It-Tests exam question formats contain the real, updated, and error-free ATLASSIAN ACP-620 Exam Practice test.

ATLASSIAN Managing Jira Cloud Projects Sample Questions (Q50-Q55):

NEW QUESTION # 50

One issue type is always included in the same sprint as its parent issue. Identify it.

- A. Bug
- B. Epic
- C. Task
- **D. Sub-task**
- E. Story

Answer: D

Explanation:

A Sub-task is always tied to its parent issue and cannot exist independently in a sprint. It is automatically included in the same sprint as its parent, ensuring the work is tracked together.

NEW QUESTION # 51

Nick is a finance manager for some projects. His Kanban board should only display finance-related issues using Jira components without clicking any buttons on the board. He also needs to ensure the filtered results will not change the result in his Cumulative Flow Diagram report.

Which feature can he use to achieve this?

- A. Hide completed issues
- B. Swimlanes
- C. Board Sub-Filter
- D. Issue Detail View
- E. Quick Filters
- F. Board Filter

Answer: C

NEW QUESTION # 52

The DEV project uses the permission scheme shown.

Permission	Users / Groups / Project Roles
Administer Projects	Project Role (Administrators)
Browse Projects	Project Role (Users)
Schedule Issues	Project Role (Managers)
Create Issues	Project Role (Viewers)
Edit Issues	Project Role (Developers)

Anu needs to create saved filters based on the Due Date field of DEV issues.

Which role does Anu need without receiving too much access?

- A. Project Role (Viewers)
- B. Project Role (Managers]
- C. Project Role (Administrators)
- D. Project Role (Developers]
- E Project Role (Users)

Answer: A

Explanation:

To create saved filters based on fields like Due Date, Anu needs the ability to view issues in the project. The Browse Projects permission, granted to the Users role, is sufficient for this purpose. It avoids unnecessary access while enabling her to search and filter issues.

NEW QUESTION # 53

Users can add content to a paragraph field in a team-managed project, but they cannot @ mention other users.

Identify the cause.

- A. screen settings
- B. notification settings
- C. global permissions
- D. field settings

- E. project permissions
- F. issue-level security settings

Answer: D

Explanation:

In team-managed projects, field settings for paragraph fields include a toggle to allow or prevent @ mentions.

If users can enter text but not @ mention others, it's likely that the mention functionality is disabled in the field configuration.

NEW QUESTION # 54

Dom created an issue in Project A.

Now he wants to move the issue to Project B.

According to the information below, which of the following fields will retain their values after moving the issue to Project B? (Choose two.)

Details

Assignee

Raziman Dom

Reporter

Raziman Dom

Labels

test-move

Custom Field A

AAA

Custom Field B

Components

Java
PHP

Custom Field C

4.0

Fix versions

4.0

Priority

= Medium

Project A custom fields:

Project B custom fields:

- Custom Field A - Text Field (single line)
- Custom Field C - Version picker

- A. Labels
- B. Custom Field A
- C. Custom Field C
- D. Fix Versions
- E. Components
- F. Custom Field B

Answer: A,B

NEW QUESTION # 55

• • • • •

We have three versions for your practice according to your study habit. The pdf version is for you to print the ACP-620 Dump pdf out and you can share your ACP-620 exam dumps with your friends and classmates. The test engine version enables you feeling the atmosphere of formal test because it is a simulation of real test. The soft version is same as the test engine but it allows you to practice your Jira Administrator real dumps in any electronic equipment.
