- **B. 1**
- C. 2
- D. 3

**Answer: B**

Explanation:

Transportation Management Overview and Fundamentals

#### **NEW QUESTION # 15**

To which of the following document types can you assign change controller strategies? Note: There are 2 correct answers to this question.

- A. Service order
- B. Order-based transportation requirement
- **C. Freight order**
- **D. Forwarding order**

**Answer: C,D**

Explanation:

In SAP S/4HANA Transportation Management, change controller strategies define how changes to documents are managed (e.g., reversing or creating new documents). According to the SAP documentation, change controller strategies can be assigned to:

\* Freight order (A): Change controller strategies are used to manage modifications to freight orders, such as adding charges or updating quantities, ensuring proper handling in execution.

\* Forwarding order (B): In LSP scenarios, change controller strategies are applied to forwarding orders to control changes related to customer requirements or subcontracting.

The other options are incorrect:

\* Service order (C) is used for internal services and does not typically support change controller strategies in SAP TM.

\* Order-based transportation requirement (D) is a planning document and does not use change controller strategies, which are relevant to execution documents.
