Which onboarding processes are supported by the function automatic hiring in Onboarding?

Note: There are 3 correct answers to this question.

- A. Rehire
- B. Global Assignment
- C. Rehire with New Employment
- D. Concurrent Employment
- E. Regular Hire

**Answer: A,C,E**

Explanation:

The automatic hiring function in SAP SuccessFactors Onboarding enables the system to initiate onboarding processes automatically based on triggers, such as integration with Recruiting Management or external systems. This function supports specific onboarding scenarios.

According to the SAP SuccessFactors Onboarding Implementation Guide:

\* Regular Hire (Option A): Automatic hiring supports the standard onboarding process for new hires, initiated when a candidate is marked as Hired in Recruiting Management or an external ATS.

\* Rehire (Option D): The function supports rehires, where the system identifies returning employees and initiates onboarding with rehire-specific checks and configurations.

\* Rehire with New Employment (Option E): This scenario is supported for rehires who are treated as new employees (e.g., with a new employee ID), allowing automatic initiation of onboarding with distinct employment records.

Option B (Concurrent Employment) is incorrect because concurrent employment is managed in Employee Central and not directly supported by automatic hiring in Onboarding. Option C (Global Assignment) is incorrect because global assignments are configured separately and not part of the automatic hiring function.
