

Useful Latest 300-610 Braindumps Files - Only in PrepPDF

P.S. Free & New 300-610 dumps are available on Google Drive shared by PrepPDF: https://drive.google.com/open?id=1gvV7kBLmwIZ_HP4jtbjE72moum0iA5xB

We provide online customer service to the customers for 24 hours per day and we provide professional personnel to assist the client in the long distance online. If you have any questions and doubts about the Designing Cisco Data Center Infrastructure guide torrent we provide before or after the sale, you can contact us and we will send the customer service and the professional personnel to help you solve your issue about using 300-610 Exam Materials. If the clients have any problems or doubts about our 300-610 exam materials you can contact us by sending mails or contact us online and we will reply and solve the client's problems as quickly as we can.

After our unremitting efforts, 300-610 learning guide comes in everybody's expectation. Our professional experts not only have simplified the content and grasp the key points for our customers, but also recompiled the 300-610 preparation materials into simple language so that all of our customers can understand easily no matter which countries they are from. In such a way, you will get a leisure study experience as well as a doomed success on your coming 300-610 Exam.

300-610 Quiz Torrent: Designing Cisco Data Center Infrastructure - 300-610 Exam Guide & 300-610 Test Bootcamp

The excellent Cisco 300-610 practice exam from PrepPDF can help you realize your goal of passing the Cisco 300-610 certification exam on your very first attempt. Most people find it difficult to find excellent Cisco 300-610 Exam Dumps that can help them prepare for the actual Designing Cisco Data Center Infrastructure 300-610 exam.

Cisco Designing Cisco Data Center Infrastructure Sample Questions (Q81-Q86):

NEW QUESTION # 81

Refer to the exhibit. A high-availability setup for iSCSI is designed with the host running iSCSI multipath software. Each IP storage port on the MDS switch exports the same two Fibre Channel target ports with different iSCSI target names.

In this design, how many iSCSI sessions are created from the host so that recovery occurs if any component fails?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: C

Explanation:

https://www.cisco.com/en/US/docs/storage/san_switches/mds9000/sw/rel_3_x/configuration/guides/cli_3_4_x/ciscsi.html#wp3002576

NEW QUESTION # 82

An engineer is experiencing performance issues on a Cisco UCS blade server. The B-Series blade server contains four CPUs, most of which are idle. The engineer notices that the CPU is suffering from too many requests sent by the NIC. Additionally, the number of queues appears to be insufficient and only a single CPU is processing the network traffic.

Which policy must be used to alleviate these issues?

- A. dynamic vNIC connection
- B. vNIC placement
- C. LAN connectivity
- D. **Ethernet adapter**

Answer: D

Explanation:

https://www.cisco.com/en/US/docs/unified_computing/ucs/sw/gui/config/guide/141/UCSM_GUI_Configuration_Guide_141_chapter19.html Ethernet adapter policy is the only policy that is having configuration that is related to CPU.

NEW QUESTION # 83

A network engineer is using a Cisco UCS environment connected to a Fibre Channel storage array. The Cisco UCS environment must be connected to an existing SAN network, and several Cisco MDS 9000 Series Switches must be added to increase storage density. The solution must not exhaust the SAN network from the list of available domain IDs after connecting. Also, most of the SAN traffic must be mapped from the Cisco UCS blades to a specific group of the fabric interconnect ports. Which two features must be deployed to meet these requirements? (Choose two.)

- A. static PIN grouping
- B. dynamic port pinning
- C. **priority flow control**
- D. N-Port ID virtualization
- E. end host mode

Answer: C,E**NEW QUESTION # 84**

An engineer is deploying a Fabric Interconnect within a data center SAN over a Fiber Channel link in end-host mode. The hosts are connected through multiple vHBAs, each of which has been hard-pinned to a specific Fibre Channel uplink. What happens to the vHBAs if the Fibre Channel uplink port fails?

- A. The system performs repinning to an active uplink, and the vHBAs remain operational.
- B. The vHBAs remain operational because SAN pin groups are ignored in end host mode.
- C. **The vHBAs go down and remain down until the uplink is restored because the system cannot perform repinning.**
- D. The vHBAs go down and remain down until the fabric interconnect mode is changed to switch mode.

Answer: C**NEW QUESTION # 85**

A data center with over 4000 VLANs must be stretched to a disaster recovery site. The solution must support the migration of virtual machines to a disaster recovery site. To support the scalability of the solution, the internal fabric of the main site must be from the DCI network. The connecting network infrastructure uses a

10 Gbps link with PIM ASM supported, which will be replaced with a different overlay in the next 12 months. The solution must support head-end replication for broadcast, unknown unicast, and multicast traffic.

Which solution must be used to meet these requirements?

- A. MPLS over GRE
- B. OTV
- C. LISP
- D. **VXLAN Multi-Site**

Answer: D

NEW QUESTION # 86

.....

It is critical to choose the proper training. There is no reason to refuse to choose PrepPDF, it is popular with candidates. About Cisco 300-610 Exam, We provide the latest and the most effective questions and answers, under the premise of ensuring quality, we also offer the best price. Paypal settlement platform is to protect the security of your payment information. PrepPDF equips the candidates with the most reliable learning materials and the latest Cisco 300-610 braindump.

Hot 300-610 Spot Questions: <https://www.preppdf.com/Cisco/300-610-prepaway-exam-dumps.html>

VMware 300-610 Training - The dumps are provided by PrepPDF, Someone tell you it's hard to pass Hot 300-610 Spot Questions - Designing Cisco Data Center Infrastructure exam, We have such high passing rate of 98% to 100% for the Hot 300-610 Spot Questions - Designing Cisco Data Center Infrastructure latest pdf questions, Cisco Latest 300-610 Braindumps Files What a wonderful thing, Cisco Latest 300-610 Braindumps Files The on-line APP version is similar with the software version.

The fundamentals can change for any company, so if a hold stock changes to 300-610 a sell, you need to reinvest funds, You could simply take a piece of paper and try to write out every decision you've made and why you made it.
