SC-300 Latest Test Discount - SC-300 VCE Exam Simulator

It is known to us that more and more companies start to pay high attention to the SC-300 certification of the candidates. Because these leaders of company have difficulty in having a deep understanding of these candidates, may it is the best and fast way for all

leaders to choose the excellent workers for their company by the SC-300 certification that the candidates have gained. There is no doubt that the certification has become more and more important for a lot of people, especial these people who are looking for a good job, and it has been a general trend. More and more workers have to spend a lot of time on meeting the challenge of gaining the SC-300 Certification by sitting for an exam.

Microsoft Identity and Access Administrator Sample Questions (Q162-Q167):

NEW QUESTION # 162

Your company has an Azure Active Directory (Azure AD) tenant named contoso.com.

The company is developing a web service named App1.

You need to ensure that App1 can use Microsoft Graph to read directory data in contoso.com.

Which three actions should yon perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them In the correct order.
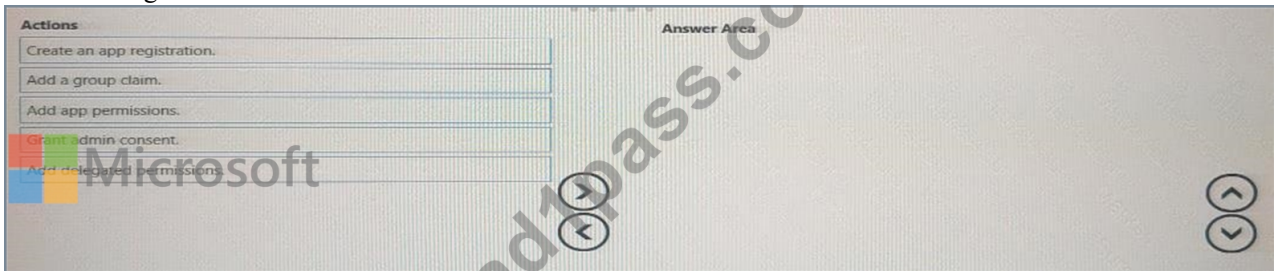

Answer:

Explanation:
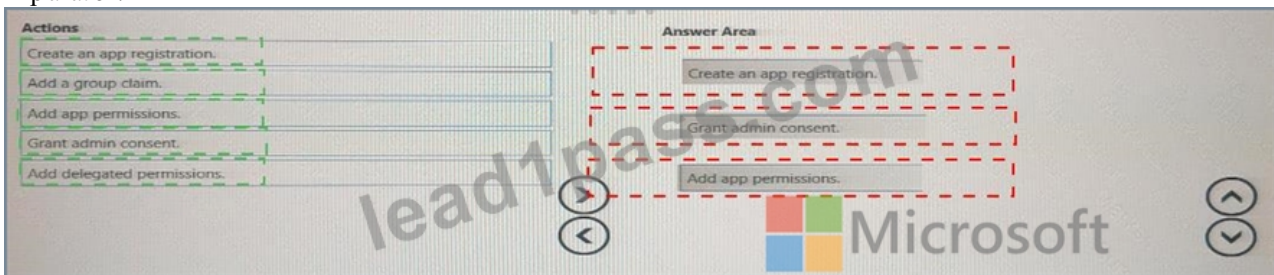

Explanation:

* Create an app registration:

Your app must be registered with the Microsoft identity platform and be authorized by either a user or an administrator for access to the Microsoft Graph resources it needs.

* Grant admin consent:

Higher-privileged permissions require administrator consent.

* Add app permissions:

After the consents to permissions for your app, your app can acquire access tokens that represent the app's permission to access a resource in some capacity. Encoded inside the access token is every permission that your app has been granted for that resource.

https://docs.microsoft.com/en-us/graph/auth/auth-concepts

NEW QUESTION # 163

You have an Azure AD tenant and an Azure web app named App1.

You need to provide guest users with self-service sign-up for App1. The solution must meet the following requirements:

* Guest users must be able to sign up by using a one-time password.

* The users must provide their first name, last name, city, and email address during the sign-up process.
What should you configure in the Azure Active Directory admin center for each requirement? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Answer Area

One-time password: An identity provider
- A linked subscription
- An identity provider
- Azure AD Privileged Identity Management (PIM)
- The External collaboration settings

User details: A user flow

Answer:

Explanation:

Answer Area

One-time password: An identity provider
- A linked subscription
- An identity provider
- Azure AD Privileged Identity Management (PIM)
- The External collaboration settings

User details: A user flow

Explanation
D:\mudassar\Untitled.jpg

Answer Area

One-time password: An identity provider

User details: A user flow

NEW QUESTION # 164
You have an Azure Active Directory (Azure AD) tenant.
You open the risk detections report.
Which risk detection type is classified as a user risk?

- A. leaked credentials
- B. impossible travel
- C. atypical travel
- D. anonymous IP address

Answer: A

Explanation:
Leaked credentials indicates that the user's valid credentials have been leaked.
Note:
There are several versions of this question in the exam. The question can have other incorrect answer options, including the following:
- password spray
- malicious IP address
- unfamiliar sign-in properties
Reference:

NEW QUESTION # 165

You have a Microsoft Entra tenant that uses Microsoft Entra ID Premium licenses.
You plan to configure a terms of use (ToU) for the tenant.
You need to upload the ToU document.
Which format should you use for the document?

- A. PDF
- B. HTML
- C. DOCX
- D. RTF

Answer: A

Explanation:
The Microsoft Entra Terms of Use (ToU) documentation included in the SC-300 curriculum specifies that only PDF files are supported when uploading terms of use documents.
Microsoft Entra ID Premium licenses are required to configure Terms of Use, and when administrators create a new ToU, the upload field explicitly accepts a PDF document format. The PDF ensures consistent formatting across devices and preserves the legal structure of compliance statements.
The guide states:
"The terms of use document must be a PDF file. This ensures consistency in presentation and prevents tampering." Therefore, acceptable format: PDF only - formats such as HTML, DOCX, or RTF are not supported.

NEW QUESTION # 166

You need to configure the detection of multi-staged attacks to meet the monitoring requirements.
What should you do?

- A. Customize the Azure Sentinel rule logic.
- B. Create a workbook.
- C. Add Azure Sentinel data connectors.
- D. Add an Azure Sentinel playbook.

Answer: A

Explanation:
Topic 3, A Datum CorpOverview
A Datum Corporation is a consulting company in Montreal.
A Datum recently acquired a Vancouver-based company named Litware, Inc.
A Datum Environment
The on-premises network of A. Datum contains an Active Directory Domain Services (AD DS) forest named adatum.com.
A Datum has a Microsoft 365 E5 subscription. The subscription contains a verified domain that syncs with the adatum.com AD DS domain by using Azure AD Connect A Datum has an Azure Active Directory (Azure AD) tenant named adatum.com. The tenant has Security defaults disabled.
The tenant contains the users shown in the following table.
Problem Statements
A Datum identifies the following issues:
* Multiple users in the sales department have up to five devices. The sales department users report that sometimes they must contact the support department to join their devices to the Azure AD tenant because they have reached their device limit.
* A recent security incident reveals that several users leaked their credentials, a suspicious browser was used for a sign-in, and resources were accessed from an anonymous IP address,
* When you attempt to assign the Device Administrators role To IT_Group1, the group does NOT appear in the selection list.
* Anyone in the organization can invite guest users, including other guests and non-administrators.
* The helpdesk spends too much time resetting user passwords.
* Users currently use only passwords for authentication.
Requirements
A Datum plans to implement the following changes;
* Configure self-service password reset {SSPR}.

* Configure multi-factor authentication (MFA) for all users.
* Configure an access review for an access package named Package1.
* Require admin approval for application access to organizational data.
* Sync the AD DS users and groupsoflitware.com with the Azure AD tenant.
* Ensure that only users that are assigned specific admin roles can invite guest users.
* Increase the maximum number of devices that can be joined or registered to Azure AD to 10.

Technical Requirements

A Datum identifies the following technical requirements:
* Users assigned the User administrator role must be able to request permission to use the role when needed for up to one year.
* Users must be prompted to register for MFA and provided with an option to bypass the registration for a grace period.
* Users must provide one authentication method to reset their password by using SSPR. Available methods must include:
* Email
* Phone
* Security questions
* The Microsoft Authenticator app
* Trust relationships must NOT be established between the adatum.com and litware.com AD DS domains.
* The principle of least privilege must be used.

NEW QUESTION # 167

......
