You will get the latest version of C-S4PM2-2507 Training Materials.

SAP Certified Associate - Managing SAP S/4HANA Cloud Private Edition Projects Sample Questions (Q45-Q50):

NEW QUESTION # 45

What is the purpose of the Migration Server in an SAP S/4HANA Cloud Private Edition migration project?

- A. To replicate the HANA database in real-time.
- B. To host the target SAP S/4HANA application server.
- C. To store the backup files of the source system.
- **D. To provide a temporary environment for executing migration tools like Software Provisioning Manager.**

Answer: D

NEW QUESTION # 46

Which items are provided by the clean core quality gate report? Note: There are 2 correct answers to this question.

- A. Project management quality gates
- B. Policies and procedures governing the project
- **C. Recommended Action Plans**
- **D. Integration, Extensibility, Data, Cross Topics, Process, and Operation topics**

Answer: C,D

NEW QUESTION # 47

How should an implementation consultant customize SAP Best Practices business processes?

- A. Use SAP Signavio Process Manager to edit the process
- **B. Make a copy of the original process and edit the copy**
- C. Make edits to the original process
- D. Use SAP Cloud ALM to edit the process

Answer: B

Explanation:

Step 1 - Understanding the question

This question asks how an implementation consultant should customize SAP Best Practices business processes in SAP S/4HANA Cloud, Private Edition.

SAP Best Practices are pre-delivered standard processes that provide ready-to-run configurations.

To maintain a clean core, SAP discourages editing the original process directly.

Step 2 - Evaluate each option

Option A: Make a copy of the original process and edit the copy

This is correct.

The correct approach is to copy the original Best Practice process into a customer workspace (for example, within SAP Signavio or SAP Solution Manager) and make necessary adjustments there.

This preserves the original SAP content and ensures that future updates or upgrades remain compatible.

Example 1:

A company copies the "Standard Order-to-Cash" process, modifies one approval step, and saves it as a new variant under its own namespace.

Example 2:

A finance consultant copies the "Journal Entry Posting" process to adjust document approval rules without touching the original Best Practice template.

Option B: Use SAP Cloud ALM to edit the process

This is incorrect.

SAP Cloud ALM is used to manage and monitor project tasks and test execution, not to directly edit Best Practice process content.

Option C: Use SAP Signavio Process Manager to edit the process

This is partially true in concept but not correct in this question's context.

While SAP Signavio can model and document processes, editing SAP Best Practice processes directly in Signavio is not the recommended or typical customization method for implementation consultants.

Option D: Make edits to the original process

This is incorrect.

Editing the original Best Practice process would violate clean-core principles and risk losing SAP-provided updates.

NEW QUESTION # 48

How should an implementation consultant customize SAP Best Practices business processes?

- A. Use SAP Signavio Process Manager to edit the process
- **B. Make a copy of the original process and edit the copy**
- C. Make edits to the original process
- D. Use SAP Cloud ALM to edit the process

Answer: B

NEW QUESTION # 49

Which organizational change management activity is usually performed in which SAP Activate phase? Note:

There are 2 correct answers to this question.

- A. The business readiness assessment is usually conducted in the discover phase.
- B. The change assessment is usually conducted in the prepare phase.
- **C. The user adoption analysis is usually conducted in the run phase.**
- **D. The change plan is usually developed in the explore phase.**

Answer: C,D

NEW QUESTION # 50
