Fast2test는 고품질의 IT Microsoft AZ-305시험공부자료를 제공하는 차별화 된 사이트입니다. Fast2test는Microsoft AZ-305응시자들이 처음 시도하는Microsoft AZ-305시험에서의 합격을 도와드립니다. 가장 적은 시간은 투자하여 어려운Microsoft AZ-305시험을 통과하여 자격증을 많이 취득하셔서 IT업계에서 자신만의 가치를 찾으세요.

Microsoft AZ-305 시험은 Azure Solutions Architect로 인증되기를 원하는 개인을 대상으로하는 인증 테스트입니다. 이 시험은 Microsoft Azure에서 실행되는 솔루션 설계 및 구현에 중점을 둡니다. 이 시험은 클라우드 컴퓨팅에 대한 확실한 이해를 가지고 있으며 지식과 전문 지식을 다음 단계로 끌어 올려야하는 개인을 위해 설계되었습니다. 이 시험에는 Azure Virtual Machines, Storage Solutions, Azure Networking 및 Azure Security를 포함한 광범위한 주제가 다릅니다.

최신 Microsoft Azure Solutions Architect Expert AZ-305 무료샘플문제 (Q122-Q127):

질문 # 122

You need to deploy an instance of SQL Server on Azure Virtual Machines. The solution must meet the following requirements:

- * Support 15,000 disk IOPS.
- * Support SR-IOV.
- * Minimize costs.

What should you include in the solution? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Answer Area

Virtual machine series: NC
Disk type: Premium SSD

정답:

설명:

Answer Area

Virtual machine series: NC
Disk type: Premium SSD

Explanation:

질문 # 123

You have an on-premises network and an Azure subscription. The on-premises network has several branch offices. A branch office in Toronto contains a virtual machine named VM1 that is configured as a file server. Users access the shared files on VM1 from all offices.

You need to recommend a solution to ensure that the users can access the shared files as quickly as possible if the Toronto branch office is inaccessible.

What should you include in the recommendation?

- A. Azure blob containers and Azure File Sync
- **B. an Azure file share and Azure File Sync**
- C. a Recovery Services vault and Azure Backup
- D. a Recovery Services vault and Windows Server Backup

정답: B

질문 # 124

Your company plans to publish APIs for its services by using Azure API Management.

You discover that service responses include the AspNet-Version header.

You need to recommend a solution to remove AspNet-Version from the response of the published APIs.

What should you include in the recommendation?

- A. a new product
- B. a modification to the URL scheme
- C. a new revision
- **D. a new policy**

정답: D

설명:

질문 # 125

You have an Azure subscription.

You plan to deploy five storage accounts that will store block blobs and five storage accounts that will host file shares. The file shares will be accessed by using the SMB protocol.

You need to recommend an access authorization solution for the storage accounts. The solution must meet the following requirements:

- * Maximize security.
- * Prevent the use of shared keys.
- * Whenever possible, support time-limited access.

What should you include in the solution? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer Area

For the blobs:

For the file shares:

정답:

For the blobs:

For the file shares:

질문 # 126

Your company has the divisions shown in the following table.

Division	Azure subscription	Azure AD tenant
East	Sub1	Contoso.com
West	Sub2	Fabrikam.com

Sub1 contains an Azure App Service web app named App1. App1 uses Azure AD for single-tenant user authentication. Users from contoso.com can authenticate to App1.

You need to recommend a solution to enable users in the fabrikam.com tenant to authenticate to App1.

What should you recommend?

- A. Configure assignments for the fabrikam.com users by using Azure AD Privileged Identity Management (PIM).
- B. Configure Supported account types in the application registration and update the sign-in endpoint.
- C. Enable Azure AD pass-through authentication and update the sign-in endpoint
- D. Configure the Azure AD provisioning service.

정답: A

질문 # 127
