

CMMC-CCP Dumps PDF: Certified CMMC Professional (CCP) Exam & CMMC-CCP Test Questions & Certified CMMC Professional (CCP) Exam Dumps Torrent

2026 Latest Free4Dump CMMC-CCP PDF Dumps and CMMC-CCP Exam Engine Free Share: <https://drive.google.com/open?id=1sj1IcKcNj1U8ieMj2KB05jLqsnVs0Y8f>

Free4Dump have made customizable Cyber AB CMMC-CCP practice tests so that users can take unlimited tests and improve Cyber AB CMMC-CCP exam preparation day by day. These CMMC-CCP practice tests are based on the real examination scenario so the students can feel the pressure and learn to deal with it. The customers can access the result of their previous given CMMC-CCP Exam history and try not to make any excessive mistakes in the future.

Cyber AB CMMC-CCP Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> • CMMC Assessment Process (CAP): This section of the exam measures the planning and execution skills of audit and assessment professionals, covering the end-to-end CMMC Assessment Process. This includes planning, executing, documenting, reporting assessments, and managing Plans of Action and Milestones (POA&M) in alignment with DoD and CMMC-AB methodology.

Topic 2	<ul style="list-style-type: none"> • Scoping: This section of the exam measures the analytical skills of cybersecurity practitioners, highlighting their ability to properly define assessment scope. Candidates must demonstrate knowledge of identifying and classifying Controlled Unclassified Information (CUI) assets, recognizing the difference between in-scope, out-of-scope, and specialized assets, and applying logical and physical separation techniques to determine accurate scoping for assessments
Topic 3	<ul style="list-style-type: none"> • CMMC Ecosystem: This section of the exam measures the skills of consultants and compliance professionals and focuses on the different roles and responsibilities across the CMMC ecosystem. Candidates must understand the functions of entities such as the Department of Defense, CMMC-AB, Organizations Seeking Certification, Registered Practitioners, and Certified CMMC Professionals, as well as how the ecosystem supports cybersecurity standards and certification.
Topic 4	<ul style="list-style-type: none"> • CMMC Model Construct and Implementation Evaluation: This section of the exam measures the evaluative skills of cybersecurity assessors, focusing on the application and assessment of the CMMC model. It includes understanding its levels, domains, practices, and implementation criteria, and how to assess whether organizations meet the required cybersecurity practices using evidence-based evaluation.

CMMC-CCP Reliable Dump & CMMC-CCP Upgrade Dumps

Improve your professional ability with our CMMC-CCP certification. Getting qualified by the Cyber AB certification will position you for better job opportunities and higher salary. Now, let's start your preparation with CMMC-CCP training material. The CMMC-CCP practice pdf offered by Free4Dump latest pdf is the latest and valid study material which suitable for all of you. The CMMC-CCP free demo is especially for you to free download for try before you buy. You can get a lot from the CMMC-CCP simulate exam dumps and get your CMMC-CCP certification easily.

Cyber AB Certified CMMC Professional (CCP) Exam Sample Questions (Q211-Q216):

NEW QUESTION # 211

An Assessment Team is conducting a Level 2 Assessment at the request of an OSC. The team has begun to score practices based on the evidence provided. At a MINIMUM what is required of the Assessment Team to determine if a practice is scored as MET?

- A. All three types of evidence are documented for every control.
- **B. Complete two of the following: examine one artifact, either observe a satisfactory demonstration of one control or receive one affirmation from the OSC personnel.**
- C. Complete one of the following: examine two artifacts, either observe a satisfactory demonstration of one control or receive one affirmation from the OSC personnel.
- D. Examine and accept evidence from one of the three evidence types.

Answer: B

NEW QUESTION # 212

When are data and documents with legacy markings from or for the DoD required to be re-marked or redacted?

- A. When under the control of the DoD
- B. When a derivative document's original information is not CUI
- **C. When a document is being shared outside of the organization**
- D. When the document is considered secret

Answer: C

NEW QUESTION # 213

Before submitting the assessment package to the Lead Assessor for final review, a CCP decides to review the Media Protection (MP) Level 1 practice evidence to ensure that all media containing FCI are sanitized or destroyed before disposal or release for reuse. After a thorough review, the CCP tells the Lead Assessor that all supporting documents fully reflect the performance of the practice and should be accepted because the evidence is:

- A. compliant.
- **B. adequate.**
- C. subjective.
- D. official.

Answer: B

Explanation:

CMMC Level 1 includes 17 practices derived from FAR 52.204-21. Among them, the Media Protection (MP) practice requires organizations to ensure that media containing FCI is sanitized or destroyed before disposal or release for reuse to prevent unauthorized access.

* This requirement ensures that any storage devices, hard drives, USBs, or physical documents containing Federal Contract Information (FCI) are properly disposed of or sanitized to prevent data leakage.

* The evidence collected for this practice should demonstrate that an organization has established and followed proper media sanitization or destruction procedures.

Why the Correct Answer is "B. Adequate"? The CMMC Assessment Process (CAP) Guide outlines that for an assessment to be considered complete, all submitted evidence must meet the standard of adequacy before it is accepted by the Lead Assessor.

* Definition of "Adequate" Evidence in CMMC:

* Evidence is adequate when it fully demonstrates that a practice has been performed as required by CMMC guidelines.

* The Lead Assessor evaluates whether the submitted documentation meets the CMMC 2.0 Level 1 requirements.

* If the evidence accurately and completely demonstrates the sanitization or destruction of media containing FCI, then it meets the standard of adequacy.

* Why Not the Other Options?

* A. Official- While the evidence may come from an official source, the CMMC does not require evidence to be "official", only that it be adequate to confirm compliance.

* C. Compliant- Compliance is the final result of an assessment, but before compliance is determined, the evidence must first be adequate for evaluation.

* D. Subjective- CMMC evidence is objective, meaning it should be based on verifiable documents, policies, logs, and procedures- not opinions or interpretations.

* CMMC 2.0 Scoping Guide (Nov 2021)- Specifies that Media Protection (MP) at Level 1 applies only to assets that process, store, or transmit FCI.

* CMMC Assessment Process (CAP) Guide- Defines adequate evidence as documentation that completely and clearly supports the implementation of a required security practice.

* FAR 52.204-21- The source of the Level 1 requirements, which includes sanitization and destruction of media containing FCI.

Relevant CMMC 2.0 References: Final Justification: The CCP's statement that the evidence "fully reflects the performance of the practice" aligns with the definition of adequate evidence under CMMC. Since adequacy is the key standard used before final compliance decisions are made, the correct answer is B. Adequate.

NEW QUESTION # 214

Which code or clause requires that a contractor is meeting the basic safeguarding requirements for FCI during a Level 1 Self-Assessment?

- A. DFARS 252.204-7021
- B. DFARS 252.204-7011
- **C. FAR 52.204-21**
- D. 22CFR 120-130

Answer: C

Explanation:

1. Understanding Basic Safeguarding Requirements for FCI in CMMC Level 1 Federal Contract Information (FCI) is defined as information provided by or generated for the government under a contract that is not intended for public release.

CMMC Level 1 is designed to ensure basic safeguarding of FCI, aligning with 15 security requirements found in FAR 52.204-21 (Basic Safeguarding of Covered Contractor Information Systems).

Contractors handling only FCI must meet CMMC Level 1, which aligns directly with the safeguarding requirements set in FAR 52.204-

21.

2. FAR 52.204-21 and Its Role in CMMC Level 1 Compliance

FAR 52.204-21 establishes the baseline cybersecurity controls that contractors must implement to protect FCI.

The 15 basic safeguarding requirements include:

Limiting information access to authorized users.

Identifying and authenticating users before allowing system access.

Protecting transmitted FCI from unauthorized disclosure.

Monitoring and controlling connections to external systems.

Applying boundary protection and cybersecurity measures.

Sanitizing media before disposal.

Updating security configurations to reduce vulnerabilities.

Providing physical security protections.

Controlling physical access to systems that process FCI.

Enforcing multi-factor authentication (MFA) where applicable.

Patching vulnerabilities in software and hardware.

Limiting the use of removable media.

Creating and retaining system audit logs.

Performing risk-based security assessments.

Developing an incident response plan.

These 15 practices form the foundation of CMMC Level 1 Self-Assessment, ensuring contractors meet minimum cybersecurity expectations for handling FCI.

3. Why the Other Options Are Incorrect

B). 22 CFR 120-130:

This refers to International Traffic in Arms Regulations (ITAR), which controls the export of defense-related articles and services, not FCI safeguarding requirements.

C). DFARS 252.204-7011:

This clause refers to alternative line item structures and does not pertain to cybersecurity or safeguarding FCI.

D). DFARS 252.204-7021:

This clause enforces CMMC requirements but does not define basic safeguarding controls. It requires compliance with CMMC but does not specify the foundational requirements (which come from FAR 52.204-21 for Level 1).

4. Official CMMC 2.0 Reference & Study Guide Alignment

The CMMC 2.0 model documentation confirms that Level 1 is focused on the 15 practices from FAR 52.204-21.

The DoD's official CMMC Assessment Guide for Level 1 explicitly states that meeting FAR 52.204-21 is the requirement for passing a Level 1 Self-Assessment.

The CMMC 2.0 Scoping Guide clarifies that contractors handling only FCI and seeking Level 1 certification must implement only FAR 52.204-21 security controls.

Final Confirmation:

The correct answer is A. FAR 52.204-21, as it directly governs the basic safeguarding of FCI and is the foundational requirement for a Level 1 Self-Assessment in CMMC 2.0.

NEW QUESTION # 215

A C3PAO Assessment Plan document captures the names of the interviewees, the facilities that will be utilized, along with estimated costs and schedule of the assessment. What part of the assessment plan is this?

- A. Identify and manage assessment risks.
- B. Select Assessment Team members.
- C. Select and develop the evidence collection approach.
- **D. Identify resources and schedule.**

Answer: D

NEW QUESTION # 216

.....

Different from the common question bank on the market, CMMC-CCP exam guide is a scientific and efficient learning system that is recognized by many industry experts. In normal times, you may take months or even a year to review a professional exam, but with CMMC-CCP exam guide you only need to spend 20-30 hours to review before the exam. And with CMMC-CCP learning

question, you will no longer need any other review materials, because our study materials already contain all the important test sites. At the same time, CMMC-CCP Test Prep helps you to master the knowledge in the course of the practice. And at the same time, there are many incomprehensible knowledge points and boring descriptions in the book, so that many people feel a headache and sleepy when reading books. But with CMMC-CCP learning question, you will no longer have these troubles.
