Our career is inextricably linked with your development at least in the C1000-173 practice exam's perspective. So we try to emulate with the best from the start until we are now. So as the most professional company of C1000-173 study dumps in this area, we are dependable and reliable. We maintain the tenet of customer's orientation. If you hold any questions about our C1000-173 Exam Prep, our staff will solve them for you 24/7. It is our duty and honor to offer help.

IBM C1000-173 Exam Syllabus Topics:

| Topic | Details |
|-------|---------|
| | |

| | |
|---------|---|
| Topic 1 | <ul style="list-style-type: none"> • Plan for a Cloud Pak for Data Implementation: This section of the exam measures the skills of an Implementation Consultant and covers determining which Cloud Pak for Data services to deploy based on organizational needs. It involves sizing the Kubernetes • OpenShift cluster appropriately for workload demands and planning backup and restore strategies to ensure data protection. Planning for high availability and disaster recovery is essential to maintain uninterrupted service. Multi-tenancy requirements must be understood to support multiple user groups securely on shared infrastructure. Migration requirements need assessment to transition existing data and workloads smoothly. |
| Topic 2 | <ul style="list-style-type: none"> • Architect with Data Governance Services: This section evaluates skills of a Data Governance Specialist, covering the architecture of knowledge catalogs to enable data discovery and management. Data Privacy architectures ensure compliance with regulatory requirements around data protection. Knowledge Accelerators involve designing solutions that speed up data governance processes through predefined policies and templates. |
| Topic 3 | <ul style="list-style-type: none"> • Security Requirements: This domain targets a Security Architect and focuses on planning security for a Cloud Pak for Data deployment. It includes managing certificates that secure communications, identity management systems, and access and authorization controls to enforce secure and compliant user and service interactions. The auditing features and their integration with enterprise audit systems are crucial to ensure traceability and accountability. Asset interchange security involves safeguarding data movement between services. |

C1000-173 Latest Dumps Pdf & Latest C1000-173 Exam Topics

In today's society, many people are busy every day and they think about changing their status of profession. They want to improve their competitiveness in the labor market, but they are worried that it is not easy to obtain the certification of C1000-173. Our study tool can meet your needs. Our C1000-173 test torrent is of high quality, mainly reflected in the pass rate. As for our C1000-173 Study Tool, we guarantee our learning materials have a higher passing rate than that of other agency. Our C1000-173 test torrent is carefully compiled by industry experts based on the examination questions and industry trends in the past few years.

IBM Cloud Pak for Data v4.7 Architect Sample Questions (Q79-Q84):

NEW QUESTION # 79

Which of the following is a benefit of multi-tenancy in cloud environments?

- A. Decreased operational efficiency
- B. Compromised data security between tenants
- C. Cost reduction by sharing infrastructure
- D. Increased resource consumption per tenant

Answer: C

NEW QUESTION # 80

Which two features are valid only when deploying Cloud Pak for Data on-premises?

- A. Services are automatically updated.
- B. Compute resources are automatically scaled.
- C. The number of OpenShift nodes is configured by the administrator.
- D. Network security is managed by IBM.
- E. Persistent storage is always used.

Answer: C,E

Explanation:

In on-premises deployments of IBM Cloud Pak for Data:

Administrators have full control over the number of OpenShift nodes, unlike cloud-managed environments where node scaling may be automatic or abstracted.

Persistent storage is always required and configured by the infrastructure team to meet service requirements and ensure data availability.

Auto-scaling of compute and automatic updates of services are not handled by IBM in on-prem setups.

Network security responsibilities also lie with the deploying organization, not IBM, in an on-premises model.

NEW QUESTION # 81

What advantage does data replication hold over ETL tools for multi-site data distribution?

- A. Centralized data storage
- **B. Immediate data availability across sites**
- C. Increased data isolation
- D. Slower data dissemination

Answer: B

NEW QUESTION # 82

What is the primary function of IBM Watson Assistant?

- A. To enhance physical robotics with AI capabilities
- B. To manage large data sets efficiently
- **C. To build conversational interfaces for applications**
- D. To provide cloud storage solutions

Answer: C

NEW QUESTION # 83

What is the default schedule for the diagnostics monitor when using the Alerting APIs?

- **A. Every 10 minutes**
- B. Every 15 minutes
- C. Every 30 minutes
- D. Every 5 minutes

Answer: A

Explanation:

You can use the IBM Software Hub monitoring and alerting framework to monitor the state of the platform.

You can set up events to alert when action is needed, based on thresholds that you define.

By default, IBM Software Hub is initialized with one monitor that runs every ten minutes. The diagnostic monitor records the status of deployments, StatefulSets, and persistent volume claims. It also tracks your system usage of virtual processors (vCPUs) and memory. The data that is collected can be used for analysis and to alert customers in a production environment based on set alert rules.

NEW QUESTION # 84

.....

It is time for you to plan your life carefully. After all, you have to make money by yourself. If you want to find a desirable job, you must rely on your ability to get the job. Now, our C1000-173 study materials will help you master the popular skills in the office. Believe it or not, our C1000-173 Study Materials will relieve you from poverty. It is important to make large amounts of money in modern society.
