- A. Custom
- B. Internal
- C. External
- D. None
- E. All Categories

Answer: A,D,E

NEW QUESTION # 47

The accounting team at Universal Containers is looking to roll out two new custom objects: a parent Invoice object and a child Payment object. Whenever a Payment record is created, the Invoice object should be updated to reflect the current outstanding value of the Invoice.

What should the administrator do to build this functionality?

- A. Create a master-detail relationship on the Payment with a Roll-up Summary field on the Invoice.
- B. Create a lookup-relationship on the Payment with a Roll-up Summary field on the Invoice.
- C. Create a lookup-relationship on the Payment and a workflow cross object field update.
- D. Create a master-detail relationship on the Payment and a workflow cross object field update.

Answer: A

NEW QUESTION # 48

The Sales Manager at Universal Containers would like a dashboard to view each of the sales representative's opportunities, accounts, and related cases. What is a recommended solution?

- A. Create a dynamic dashboard and insure the sales manager has the "View My Team's Dashboard" permission.
- B. Create an individual dashboard for each sales representative with opportunity, account, and case components.
- C. Create a dashboard and add filters for users, opportunities, accounts, and cases.
- D. Create a dynamic dashboard and add filters for opportunities, accounts and cases.

Answer: A

NEW QUESTION # 49

A sales manager at AW Computing has created a contact record but is missing some of the information to complete the record. The organization-wide default for Accounts is set to Public Read Only, and Contacts are controlled by parent.

- A. Users above the sales manager in the role hierarchy
- B. All users in the organization
- C. Sales manager and system administrator
- D. Who will be able to edit this new contact record?
- E. The owner and users below the owner in the role hierarchy

Answer: C

Explanation:

The sales manager and system administrator will be able to edit this new contact record because they are either the owner or have Modify All Data permission respectively. Users above or below the sales manager in the role hierarchy will not be able to edit this contact record because contacts are controlled by parent and accounts are set to Public Read Only. All users in the organization will be able to view but not edit this contact record because accounts are set to Public Read Only. References:
