

# Chrome-Enterprise-Administrator Dumps Collection & Chrome-Enterprise-Administrator Lead2pass

P.S. Free & New Chrome-Enterprise-Administrator dumps are available on Google Drive shared by VerifiedDumps:  
<https://drive.google.com/open?id=1Iy4m-pmDOue2UWg5V6er4ntLqQErkisY>

With our Chrome-Enterprise-Administrator learning questions, you can enjoy a lot of advantages over the other exam providers'. The most attraction aspect is that our high pass rate as 98% to 100%. I believe every candidate wants to buy Chrome-Enterprise-Administrator exam materials that with a high pass rate, because the data show at least two parts of the Chrome-Enterprise-Administrator Exam Guide, the quality and the validity. Only with high quality and valid information, our candidates can successfully pass their Chrome-Enterprise-Administrator exams.

## Google Chrome-Enterprise-Administrator Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>• <b>Chrome Updates:</b> This section of the exam measures skills of a Chrome IT Policy Analyst and addresses the various update methods available for Chrome. It includes selecting the right update strategy for different business and security needs, managing compliance across platforms, and adapting update methods based on environmental changes or risks.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>• <b>Chrome Extensions:</b> This section of the exam measures skills of an Endpoint Security Manager and involves managing Chrome extension policies. It includes designing extension management strategies, handling extension exemptions, creating approval workflows, and assessing extensions for their risk and compliance with business continuity requirements.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• <b>Analyze Chrome Data:</b> This section of the exam measures skills of a Chrome Data Analyst and focuses on using the Google Admin console to view, analyze, and troubleshoot browser data. It includes reviewing reports, diagnosing browser or update issues, investigating performance problems, and identifying security risks based on log events and Chrome activity.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• <b>Manage Chrome Enterprise in the Cloud:</b> This section of the exam measures skills of a Cloud Systems Administrator and focuses on preparing and configuring environments for Chrome cloud management. Candidates must demonstrate how to verify domains, use admin roles, configure organizational structures, deploy enrollment tokens, enable reporting, and maintain Chrome using the Google Admin console.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• <b>Chrome Enterprise Management Fundamentals:</b> This section of the exam measures skills of a Chrome Device Administrator and covers the foundational elements of managing Chrome in an enterprise. It includes understanding how policies are applied and resolved, differentiating managed browsers from profiles, and describing how policies work. It also covers Chrome's built-in security features, how extensions are used and deployed, and how the release cycle and channels are managed.</li> </ul>

## Here's the Proven and Quick Way to Pass Google Chrome-Enterprise-Administrator Exam

According to the survey, the average pass rate of our candidates has reached 99%. High passing rate must be the key factor for choosing, which is also one of the advantages of our Chrome-Enterprise-Administrator real study dumps. Our Chrome-Enterprise-Administrator exam questions have been widely acclaimed among our customers, and the good reputation in industry prove that choosing our study materials would be the best way for you, and help you gain the Chrome-Enterprise-Administrator Certification successfully. With about ten years' research and development we still keep updating our Chrome-Enterprise-Administrator prep guide, in order to grasp knowledge points in accordance with the exam, thus your study process would targeted and efficient.

### Google Professional Chrome Enterprise Administrator Certification Exam Sample Questions (Q21-Q26):

#### NEW QUESTION # 21

A Chrome administrator is trying to apply a new policy to the Finance organizational unit (OU) in the Google Admin console, but some managed browsers in the Finance OU display an unexpected policy value. What could be causing the discrepancy in policy value for the affected managed browsers'?

- A. Another OU at the same hierarchical level as the Finance OU has the same policy configured with a different value
- **B. A user group has the same policy configured with a different value**
- C. A sub-OU under the Finance OU has Inheritance for the same policy set to 'Finance'
- D. The Finance OU has Inheritance for the policy set to 'Locally applied'

**Answer: B**

Explanation:

Policy conflicts can arise if the same policy is configured at multiple levels with different values. User group policies have a higher precedence than OU policies. Therefore, if a user within the Finance OU is also a member of a group with a conflicting policy setting, the group policy will override the OU policy. Policies at the same hierarchical level do not typically conflict in this way. If the Finance OU has "Locally applied," it would mean it's not inheriting, but it wouldn't explain a \*discrepancy\* within the OU itself unless multiple local settings were applied. A sub-OU inheriting from Finance wouldn't cause a discrepancy at the Finance OU level.

#### NEW QUESTION # 22

What policy and value provides the most protection against malicious websites?

- **A. Set the Safe Browsing policy to Enhanced mode**
- B. Set the site isolation policy to be required for all websites
- C. Enable site isolation for all websites
- D. Allow the user ability to bypass Safe Browsing warnings

**Answer: A**

Explanation:

Setting the **Safe Browsing policy to Enhanced mode** provides the most direct and comprehensive protection against malicious websites by leveraging Google's real-time threat intelligence. Allowing users to bypass warnings (option A) defeats the purpose of Safe Browsing. While site isolation (options C and D) protects against cross-site data leakage, it doesn't directly prevent users from accessing malicious sites in the first place. Enhanced Safe Browsing actively warns and blocks access to dangerous websites.

#### NEW QUESTION # 23

The browser administrators at a company have configured the following extension policies:

Policy Name | Policy Value

----- | -----

```
ExtensionInstallAllowlist | [ "lpbdmiphcndhhacbfegbdmnoffaepiici",  
"gihagpmigkmdpbjkmolikibogeofcm", "enebfjnlbicamdncnfhlaapucdmkj",
```

```
"hpkimhnadcdidjaeagpeeklochd", "bnp111beanipnjdcnkiahniegbcobanno"] ] ExtensionInstallBlocklist | [ ]
ExtensionInstallForceList | [ "gihagpmigkmndpbjkmolikibogeofcm;[https://clients2.google.com/service
/update2/crx](https://clients2.google.com/service/update2/crx)", "ufninibicajhgibfhjcgnimlmdhccodff;
[https://clients2.google.com/service/update2/crx](https://clients2.google.com/service/update2/crx)",
"hpkimhnadcdidjaeagpeeklochd;[https://clients2.google.com/service/update2/crx](https://clients2.google.
com/service/update2/crx)" ]
```

An employee at the company wants to install an extension from the Chrome Web Store called "Grammar Friend" with the extension ID `ufninibicajhgibfhjcgnimlmdhccodff`. What will happen when the user goes to the Grammar Friend page in the Chrome Web Store?

- A. A blue banner that says "This item's installation is required by your organization" will appear, and the "Remove from Chrome" button will be grayed out.
- B. The "Remove from Chrome" button will be available because the extension is already installed.
- C. The "Add to Chrome" button will be available to click, and the user can install the extension.
- D. A red banner that says "Your administrator has blocked this item (ID ufninibicajhgibfhjcgnimlmdhccodff)" will appear, and the "Add to Chrome" button will be grayed out.

**Answer: A**

Explanation:

The extension ID `ufninibicajhgibfhjcgnimlmdhccodff` is present in the `ExtensionInstallForceList`.

Extensions in this list are automatically installed and cannot be removed by the user. Therefore, when the user visits the Chrome Web Store page for "Grammar Friend," they will see a blue banner indicating that the extension is required by their organization, and the "Remove from Chrome" button will be disabled. The "Add to Chrome" button will not be clickable in the standard way because it's already being force-installed.

#### NEW QUESTION # 24

What is the schedule for Chrome stable channel major releases?

- A. Every 28 days (every four weeks)
- B. Once a quarter (every three months)
- C. Whenever new features are added
- D. The second Tuesday of every month

**Answer: A**

Explanation:

The Chrome release cycle for the Stable channel is approximately every four weeks. This consistent schedule allows administrators to anticipate and plan for new feature deployments and potential compatibility testing.

While security updates can occur more frequently and are often released on Tuesdays, major version updates follow this roughly monthly cadence.

#### NEW QUESTION # 25

Company A uses an extension that is critical to business operations. The company currently pins the version of the extension. They received an updated version of the extension that delivers new functionality. The Chrome administrator notices that the new version now requests all available permissions, while the previous version only requested four permissions. Which action should the Chrome administrator recommend to address this security issue?

- A. Continue using version pinning until the company contacts the developer for more information on the code change.
- B. Customize permissions for the extension to match the permissions of the previous version.
- C. Use the extension's blocked hosts list to block access to risky websites.
- D. Block the extension until a new version is available that requires fewer permissions.

**Answer: D**

Explanation:

A significant increase in requested permissions in a new version of a critical extension poses a security risk.

The most prudent action is to block the updated extension until the administrator can verify the necessity of the new permissions or until a less permissive version is released. Version pinning (option D) only delays the issue and doesn't address the potential risk in

the new version. Blocking specific hosts (option A) doesn't limit the extension's overall capabilities. Customizing permissions (option C) is generally not possible for Chrome extensions managed through the Google Admin console.

## NEW QUESTION # 26

.....

No matter where you are, we will ensure that you can use our Chrome-Enterprise-Administrator guide quiz at any time. We have provided you with three versions for your choice: the PDF, Software and APP online. At home, you can use the Software. Outside, you can use the APP version of our Chrome-Enterprise-Administrator Study Materials. If you like the aroma of paper, you can choose the PDF version. You can carry the printed material with you and write your own notes on it. If you want to know more about them, just free download the demos of our Chrome-Enterprise-Administrator exam questions.
