Just imagine that if you get the 300-425 certification, then getting high salary and promotion will completely have no problem. At the same time, you will have more income to lead a better life and develop your life quality. Who will refuse such a wonderful dream? So you must struggle for a better future. Life is a long journey. It is never too late to learn new things. Our 300-425 Study Materials will never disappoint you. And you will get all you desire with our 300-425 exam questions.

Introduction of Cisco 300-425 Certification Exam

The Cisco 300-425 certification is primarily for individuals who want to work as network support staff. The exam design is split up into two sections, the router, and the switch section. The purpose of the Cisco 300-425 exam is to test your knowledge of network technologies. The courseware covers topics that are related to switch installation and configuration, router setup and configuration, WAN protocols and connection types, and network security fundamentals. The Cisco 300-425 exam is one of the few exams that are associated with the CCENT certification.

The CCENT certification is usually the first step in becoming a Cisco-certified individual. The exam consists of questions that are related to routing and switching fundamentals, basic security, and network troubleshooting. Every question on the exam has a single correct answer while some may add an alternative answer or explanation if there is more than one possible way to solve a problem. The exam is closed book. This means that the Cisco 300-425 certification candidates are not allowed to have any outside sources of reference materials while answering the questions. **Cisco 300-425 Dumps** cover all questions of Cisco 300-425. They are only allowed to reference data stored in their brain.

The Cisco 300-425 Certification exam has a passing score of 250 out of 500 points. It is one of the most popular professional certifications in the IT industry and over 50,000 people pass it every year. The passing rate for this exam is approximately 54%.

The exam is known to be a challenge for most of the individuals who take it. It consists of distinctive content that is difficult to master and an even harder quiz. The questions have a variety of topics, including networking fundamentals and security topics.

There are many options available for those who want to obtain their CCENT certification. However, the two most popular options available are attending a classroom or online training course and preparing through self-study programs such as books, online study guides, and practice exams.

To prepare for the Cisco 300-425 Certification Exam, candidates are advised to take a training course that covers the exam material in detail. There are many training courses available, both online and in-person, that can help candidates to prepare for the exam. Additionally, candidates can also take advantage of study guides, practice exams, and other resources to help them prepare for the exam.

What are the Benefits of the Cisco 300-425 Certification Exam

The individuals who have obtained their CCENT certification will have an edge over their counterparts in IT jobs. Employers will consider the CCENT certification as a filter for potential candidates. One of the advantages of earning a Cisco Certified Entry

Network Technician (CCENT) certification is that it is recognized by many companies including Cisco and Microsoft. As a result, the certification can boost your career opportunities in IT since it is one of the most sought-after certifications by employers. The exam has been designed to evaluate your ability to perform all the tasks associated with being a network engineer. As a result, the certification is as valuable as the Cisco CCNA R&S certification. Individuals who have obtained the CCENT certification are also qualified to pursue more advanced certifications such as the Network

Designing Cisco Enterprise Wireless Networks Exam Training Guide Improve Your Efficiency - Lead1Pass

To keep with the fast-pace social life, we make commitment to all of our customers that we provide the fastest delivery services on our 300-425 study guide for your time consideration. As most of the people tend to use express delivery to save time, our 300-425 Preparation exam will be sent out within 5-10 minutes after purchasing. As long as you pay at our platform, we will deliver the relevant 300-425 exam materials to your mailbox within the given time.

Cisco Designing Cisco Enterprise Wireless Networks Sample Questions (Q168-Q173):

NEW QUESTION # 168
An engineer must decide the cell overlap for a wireless voice deployment. Which Cisco measurement recommendation should be considered?

- A. The edge of the cell should be below 35 RSSI.
- B. The edge of the cell should be -67 dBm.
- C. One AP should be deployed per 3000 square feet.
- D. The measurement should be done on the 2.4-GHz band.

Answer: B

Explanation:

NEW QUESTION # 169
An engineer must deploy a wireless network in an open-plan environment that has three SSIDs using the 5 GHz band set to 40 MHz. Co-channel interference must be reduced. Which two actions must be taken?
(Choose two.)

- A. Reduce the power of the AP.
- B. Increase the number of SSIDs.
- C. Disable band steering.
- D. Increase channel bonding in the 2.4 GHz band to 40 MHz.
- E. Decrease channel bonding in the 5 GHz band to 20 MHz.

Answer: A,E

Explanation:
To reduce co-channel interference, it's beneficial to decrease channel bonding, which will increase the number of non-overlapping channels available. Reducing the power of the APs can also help minimize interference by reducing the range of each AP's signal, thereby reducing the chance of overlap.

NEW QUESTION # 170
A wireless engineer must design a backhaul link. The engineer has a mesh access point that has a wired connection back to the infrastructure. What must be changed in the AP role before a change is made in the AP mode?

- A. bridge
- B. RAP

- C. monitor
- D. local

Answer: A

Explanation:
When designing a backhaul link, the mesh AP role should be set to `bridge' to enable it to connect separate network segments or extend coverage to remote areas.

NEW QUESTION # 171
An engineer working for an enterprise deployed multiple Cisco WLCs. A controller that sits in the R&D division is connected through a firewall and is part of the same mobility group. The engineer must ensure that the mobility tunneling is available through the firewall and test it as R&D engineers roam the production floor within their department. How is this requirement met?

- A. mping on UDP port 16666 and eping on Protocol 96 between management ports
- B. mping on UDP port 16667 and eping on Protocol 96 between management ports
- C. mping on UDP port 16666 and eping on Protocol 97 between management ports
- D. mping on UDP port 16667 and eping on Protocol 97 between management ports

Answer: C

Explanation:
For mobility tunneling through a firewall in a Cisco wireless network environment, UDP port
16666 must be open along with IP Protocol number `97', which is used for Encapsulating Security Payload (ESP) traffic typically found in IPsec tunnels. By ensuring these ports are mapped correctly through the firewall, R&D engineers can roam within their department while maintaining a secure mobility tunnel.

NEW QUESTION # 172
A university wants to deploy a high density of APs in an area where a high number of users congregate.
Which functionality allows the university to optimize the RF settings tor APs that operate In different environments or coverage zones?

- A. RF groups
- B. AP profiles
- C. RF profiles
- D. AP groups

Answer: C

NEW QUESTION # 173
......

The Cisco 300-425 certification exam is a valuable credential that often comes with certain personal and professional benefits. For many Cisco professionals, the Designing Cisco Enterprise Wireless Networks (300-425) certification exam is not just a valuable way to boost their skills but also Designing Cisco Enterprise Wireless Networks certification exam gives them an edge in the job market or the corporate ladder. There are other several advantages that successful Cisco 300-425 Exam candidates can gain after passing the Cisco 300-425 exam.
