hard for you to make decisions. You will feel sorry if you give up trying. Also, the good chance will slip away if you keep standing still. Our price is reasonable and inexpensive. You totally can afford for our PK0-005 Preparation engine. And we give some discounts from time to time, so you can buy at a more favorable price.

CompTIA Project+ Certification Exam Sample Questions (Q177-Q182):

NEW QUESTION # 177

During the execution phase of a project, the project team faced an unexpected website downtime The project manager how a brainstorming session and the team identified causes and effects tor the problem Now the project team needs to analyze and determine whether the particular cause and effect are related by using one of the following charts. Which of the following should the team use?

- A. ☐
- B. ☐
- C. ☐
- D. ☐

Answer: D

Explanation:

Option A shows a cause and effect diagram, also known as a fishbone diagram or an Ishikawa diagram1. This is a tool that helps to identify and analyze the root causes of a problem by displaying the possible causes and effects in a graphical format2. A cause and effect diagram can help the project team to determine whether the particular cause and effect are related by using a systematic and logical approach, such as asking "why" questions or using the 5 Whys technique34. A cause and effect diagram is better than the other options because:
* Option B shows a Gantt chart, which is a tool that helps to plan and track the tasks, dependencies, durations, and resources of a project along a timeline5. A Gantt chart does not focus on the causes and effects of a problem, but rather on the sequence and progress of the project activities.
* Option C shows a pie chart, which is a tool that helps to compare and visualize the proportions of different categories or segments of data6. A pie chart does not show the relationships between the causes and effects of a problem, but rather the distribution of the data values.
* Option D shows a scatter plot, which is a tool that helps to examine the correlation or association between two variables or sets of data7. A scatter plot does not show the causes and effects of a problem, but rather the pattern or trend of the data points.

NEW QUESTION # 178

In order to complete a major project deliverable, very specialized resources are required for some tasks. The PM failed to take into consideration during planning that the required resources would be available for fewer hours than required. Which of the following should the PM do first to make schedule changes?

- A. Add a new risk.
- B. Perform an impact analysis.
- C. Escalate to the sponsor.
- D. Raise a change request.

Answer: B

Explanation:

According to A Guide To Schedule Updating in Project Management, one of the best practices for effective schedule updating is to perform an impact analysis before making any changes to the schedule. An impact analysis helps the project manager to assess the effects of the change on the project scope, cost, quality, risk, and stakeholder expectations. It also helps to identify the best options for resolving the issue and minimizing the negative impacts. By performing an impact analysis first, the project manager can make informed decisions and communicate them clearly to the project team and stakeholders.

NEW QUESTION # 179

Which of the following best represents the project impact to a company's brand value?

- A. The project promotes new initiatives to expand its benefit to other communities.
- B. The project is compliant with local and state laws and becomes the standard for new projects.
- C. The project exceeds the sales quota for the third quarter and raises the bar for next periods.
  The project meets the expected milestones and finishes on time and within budget.

Answer: A

Explanation:
the brand of a project should deliver the message about its value and goals, and a proper brand helps the project get the necessary support and increases loyalty. The project that promotes new initiatives to expand its benefit to other communities is the one that best represents the project impact to a company's brand value, as it shows the company's vision, cause, and reputation.

NEW QUESTION # 180
A company needs to have structured cabling installed in one of its buildings. Which of the following would be the best document for the company to use to obtain and compare information on cabling services and costs from various vendors?

- A. RF
- B. RFP
- C. RFB
- D. RFQ

Answer: B

Explanation:
An RFP (request for proposal) is a document that solicits proposals from potential vendors for a specific project or service. An RFP typically describes the project scope, requirements, evaluation criteria, and instructions for submitting proposals. An RFP is the best document for the company to use to obtain and compare information on cabling services and costs from various vendors, as it allows the company to evaluate the vendors' qualifications, experience, approach, and pricing12.

NEW QUESTION # 181
A project team is working remotely from different locations across the country. As part of a lessons-learned exercise, the project manager would like to
identify the level of engagement among project team members. Which of the following would be the best tool for the project manager to use?

- A. Meeting chat
- B. Real-time survey
- C. Email
- D. Whiteboard

Answer: B

Explanation:
A real-time survey is a tool that allows the project manager to collect feedback from the project team members in an interactive and timely manner. A real-time survey can measure the level of engagement, satisfaction, motivation, and performance of the team members, as well as identify any issues, challenges, or opportunities for improvement. A real-time survey can also increase the participation and collaboration of the team members, as they can see the results and comments of their peers instantly. A real-time survey is more effective than a meeting chat, an email, or a whiteboard, as it can reach a larger and more diverse audience, provide more structured and quantitative data, and avoid distractions and interruptions.
