AICP EXAM #1

To pass you need to answer 75% of the questions correctly on the 170-question exam, with 150 of those questions being scored. In this exam all questions will be scored. You need to get 128 questions correct to pass. Take note of the areas where you're weakest across the 9 topics and dedicate more time to studying those. Candidates have **3.5 hours** to complete the exam. It is offered **twice a year** (May & November) and can be taken at **Prometric test centers or remotely online**.

If you do not know the answer to a question you can go back to it. If you leave the exam you can come back later and responses are autosaved. Only when ready hit the submit button. But note responses can be changed after being submitted. You can take the exam multiple times in order to practice. Just like in the real exam, you will immediately know your score. You will be able to see which questions were answered incorrectly. You will receive a copy of your answers and scores to your email.

APA AICP Exam covers a wide range of topics related to the planning profession, such as urban design, transportation planning, environmental planning, and land use policy. AICP exam is divided into two parts: a 170-question multiple-choice test, and a 60-question scenario-based test that challenges candidates to respond to real-world planning situations.

APA American Institute of Certified Planners Exam Sample Questions (Q72-Q77):

NEW QUESTION # 72
Design guidelines for an urban district should:

- A. Establish structure for later project reviews.
- B. Avoid performance criteria in favor of specific standards.
- C. Apply only to public actions.
- D. Apply only to private actions.

Answer: A

Explanation:
Design guidelines for an urban district provide a framework to ensure consistent, high-quality development that aligns with the community's vision. Option C (establish structure for later project reviews) is the primary purpose, as guidelines set clear criteria for evaluating future projects, ensuring they meet aesthetic, functional, and community goals. The APA'sAICP Certification Exam

Content Outline(2022), under "Plan and Policy Development," states, "Design guidelines should establish a structured framework for reviewing projects to ensure consistency with urban design objectives." Option A (private actions only) and B (public actions only) are incorrect, as guidelines typically apply to both. Option D (avoiding performance criteria) is incorrect, as guidelines often include both performance and specific standards to balance flexibility and clarity. TheCPC Study Manual(2024) confirms, "Design guidelines provide a structured basis for project reviews, ensuring alignment with district goals," supporting option C.

NEW QUESTION # 73
In what year did Yellowstone become the first National Park?

- A. 0
- B. 1
- C. 2
- D. 3

Answer: B

NEW QUESTION # 74
Which of the following cases was found to violate the first amendment's freedom of speech?

- A. Metromedia v City of San Diego
- B. Young v. American Mini Theaters
- C. Mugler v Kansas
- D. City of Renton v Playtime

Answer: A

NEW QUESTION # 75
Local residents are concerned about the increased consumption of energy. The city council has directed the planning staff to make recommendations to limit or reduce energy use by the city and its residents. For this study, the best statement of the city council's goals would center on the:

- A. Need to improve ridership on the bus system.
- B. Residents' concerns about rising energy usage and prices.
- C. Need to reduce energy use throughout the city.
- D. Need to reduce municipal energy expenditures.

Answer: C

Explanation:
The city council's directive to "limit or reduce energy use by the city and its residents" focuses on a broad goal of energy reduction across the entire community. Option D (need to reduce energy use throughout the city) best reflects this comprehensive objective. The APA'sAICP Certification Exam Content Outline(2022), under "Plan and Policy Development," states, "When addressing energy concerns, the goal should encompass reducing energy use citywide, covering both municipal and resident consumption." Option A (residents' concerns) is a motivation, not the goal. Option B (bus ridership) is a specific strategy, not the goal. Option C (municipal expenditures) is too narrow, as the directive includes residents. TheCPC Study Manual(2024) confirms, "The goal of reducing energy use should address both city and resident consumption, focusing on the entire community," supporting option D.

NEW QUESTION # 76
Which of the following may be a basis for goals in a comprehensive plan?

- A. Values of the stakeholders of the jurisdiction
- B. Involvement of out-of-state corporations

- C. Prioritizing the opinions of special interest groups
- D. Consensus among the various governmental agencies

Answer: A

Explanation:
A comprehensive plan reflects the community's vision and goals, which should be based on the values of its stakeholders-residents, businesses, and other local entities. Option A (values of the stakeholders of the jurisdiction) ensures that the plan is grounded in the community's priorities, a core principle of planning. The APA'sAICP Certification Exam Content Outline(2022), under "Plan and Policy Development," states,
"Comprehensive plan goals should reflect the values and priorities of the community's stakeholders to ensure relevance and support." Option B (prioritizing special interest groups) risks excluding broader community input. Option C (out-of-state corporations) is irrelevant to local values. Option D (consensus among governmental agencies) is important for implementation but not the basis for setting goals. TheCPC Study Manual(2024) notes, "Goals in a comprehensive plan must be derived from the values and vision of the jurisdiction's stakeholders," supporting option A.
