- A. True
- B. False

정답: A

설명:

Explanation/Reference:

Fostering collaboration is one of the most important tasks of a Scrum Master.

질문 # 68

What is one Scrum Master/Team Coach technique for guiding team members toward finding solutions together?

- A. Bringing in new team members to refresh the team dynamic
- B. Pairing team members to grow T-shaped skills
- C. Facilitating a process improvement workshop
- D. Asking powerful questions

정답: D

설명:

An essential coaching technique for Scrum Masters/Team Coaches in SAFe is asking powerful questions. Instead of providing direct solutions, effective Scrum Masters guide the team toward self-discovery and collaborative problem-solving.

Powerful questions are open-ended, thought-provoking inquiries that stimulate deeper reflection and creative thinking. This approach aligns with the servant-leader mindset, enabling team members to take ownership of their challenges and develop collective accountability.

Examples include:

"What options have we not yet considered?"

"What's the smallest next step we could take?"

"What's blocking our progress, and how might we remove it together?"

From SAFe guidance:

"Scrum Masters and Team Coaches enable teams to find their own solutions by asking powerful questions rather than providing answers. This encourages collaboration and fosters a culture of continuous learning." Therefore, the correct answer is A. Asking powerful questions, as it directly supports self-management and team empowerment.
