Pass Guaranteed Quiz 2026 ECCouncil Reliable 312-85 Real Dump

Success in the ECCouncil 312-85 Exam paves the way toward high-paying jobs, promotions, and skills verification. Hundreds of ECCouncil 312-85 test takers don't get success because of using ECCouncil outdated dumps. Due to failure, they lose money, time, and confidence. All these losses can be prevented by using updated and real ECCouncil Dumps of ExamPrepAway.

The CTIA certification exam (312-85) consists of 100 multiple-choice questions that must be completed in a time frame of three hours. 312-85 exam covers four domains: Introduction to Threat Intelligence, Requirements Gathering for Threat Intelligence, Threat Intelligence Analysis Techniques, and Threat Intelligence Application. 312-85 Exam is designed to test candidates' knowledge and skills in threat intelligence analysis, including the ability to identify and analyze threats, develop intelligence reports, and implement threat intelligence programs effectively.

ECCouncil Certified Threat Intelligence Analyst Sample Questions (Q53-Q58):

NEW QUESTION # 53

Jame, a professional hacker, is trying to hack the confidential information of a target organization. He identified the vulnerabilities in the target system and created a tailored deliverable malicious payload using an exploit and a backdoor to send it to the victim. Which of the following phases of cyber kill chain methodology is Jame executing?

- A. Reconnaissance
- B. Installation
- C. Exploitation
- **D. Weaponization**

Answer: D

Explanation:

In the cyber kill chain methodology, the phase where Jane is creating a tailored malicious deliverable that includes an exploit and a backdoor is known as 'Weaponization'. During this phase, the attacker prepares by coupling a payload, such as a virus or worm, with an exploit into a deliverable format, intending to compromise the target's system. This step follows the initial 'Reconnaissance' phase, where the attacker gathers information on the target, and precedes the 'Delivery' phase, where the weaponized bundle is transmitted to the target. Weaponization involves the preparation of the malware to exploit the identified vulnerabilities in the target system.

NEW QUESTION # 54

In which of the following forms of bulk data collection are large amounts of data first collected from multiple sources in multiple formats and then processed to achieve threat intelligence?

- A. Structured form
- B. Hybrid form
- C. Production form
- **D. Unstructured form**

Answer: D

NEW QUESTION # 55

Lizzy, an analyst, wants to recognize the level of risks to the organization so as to plan countermeasures against cyber attacks. She used a threat modelling methodology where she performed the following stages:

Stage 1: Build asset-based threat profiles

Stage 2: Identify infrastructure vulnerabilities

Stage 3: Develop security strategy and plans

Which of the following threat modelling methodologies was used by Lizzy in the aforementioned scenario?

- **A. OCTAVE**
- B. DREAD
- C. TRIKE
- D. VAST

Answer: A

Explanation:

The threat modeling methodology employed by Lizzy, which involves building asset-based threat profiles, identifying infrastructure vulnerabilities, and developing security strategies and plans, aligns with the OCTAVE (Operationally Critical Threat, Asset, and Vulnerability Evaluation) methodology. OCTAVE focuses on organizational risk and security practices, emphasizing self-directed risk assessments to identify and prioritize threats to organizational assets and develop appropriate security strategies and plans. This methodology is asset-driven and revolves around understanding critical assets, identifying threats to those assets, and assessing vulnerabilities, leading to the development of a comprehensive security strategy.

NEW QUESTION # 56

A network administrator working in an ABC organization collected log files generated by a traffic monitoring system, which may not seem to have useful information, but after performing proper analysis by him, the same information can be used to detect an attack in the network.

Which of the following categories of threat information has he collected?

- A. Detection indicators
- B. Strategic reports
- C. Advisories
- D. Low-level data

Answer: A

NEW QUESTION # 57

What is the correct sequence of steps involved in scheduling a threat intelligence program?

1. Review the project charter
2. Identify all deliverables
3. Identify the sequence of activities
4. Identify task dependencies
5. Develop the final schedule
6. Estimate duration of each activity
7. Identify and estimate resources for all activities
8. Define all activities
9. Build a work breakdown structure (WBS)

- A. 1-->2-->3-->4-->5-->6-->9-->8-->7
- B. 1-->9-->2-->8-->3-->7-->4-->6-->5
- C. 1-->2-->3-->4-->5-->6-->7-->8-->9
- D. 3-->4-->5-->2-->1-->9-->8-->7-->6

Answer: B

NEW QUESTION # 58

.....

You can avail all the above-mentioned characteristics of the desktop software in this web-based ECCouncil 312-85 practice test. While you appear in the ECCouncil 312-85 real examination, you will feel the same environment you faced during our ECCouncil 312-85 practice test.
