100% Pass Quiz WGU - Authoritative Test Information-Technology-Management Dates

The passing rate of our Information-Technology-Management study materials is the issue the client mostly care about and we can promise to the client that the passing rate of our product is 99% and the hit rate is also high. Our Information-Technology-

WGU Information Technology Management QGC1 Sample Questions (Q116-Q121):

NEW QUESTION # 116
When should a product management team utilize a prototype?

- A. While creating a way to show how the various features in a new application will work together.
- B. When a preliminary model is needed to seek user feedback
- C. While creating training on a new application for IT Technicians
- D. When testing various user interface designs for a new application

Answer: B

Explanation:
* Purpose of Prototypes in Product Management:
* Prototypes provide a working model of the product to collect user feedback.
* This helps the product management team refine the application and address usability issues.
* Why Other Options Are Incorrect:
* Option A:Showing feature interaction is a secondary purpose but not the primary reason for using a prototype.
* Option C:Testing user interfaces may involve prototypes, but the main purpose is feedback collection.
* Option D:Prototypes are not typically used for creating training materials.
References:
* "Role of Prototyping in Product Development" - Product Management Institute
* Agile Prototyping Guidelines - Scrum Alliance

NEW QUESTION # 117
Which information system facilitates the sharing of data between the human resources and purchasing department in the same corporation?

- A. Customer relationship management (CRM)
- B. Executive support (ES)
- C. Geographic information system (GIS)
- D. Enterprise resource planning (ERP)

Answer: D

Explanation:
Definition of ERP Systems:
ERP systems facilitate data sharing and process integration across multiple departments within an organization, such as HR and purchasing.
These systems improve coordination and decision-making by maintaining a single source of truth.
Example of ERP Usage:
If the HR department needs to coordinate with the purchasing team for new employee resources, ERP ensures both have access to relevant information like budgets and procurement requirements.
Incorrect Options Analysis:
A . Executive Support (ES): Caters to strategic decision-making, not operational collaboration.
B . Geographic Information System (GIS): Deals with spatial and geographical data, not departmental coordination.
D . Customer Relationship Management (CRM): Manages customer interactions, not internal department processes.
and Documents of Information Technology Management:
"ERP for Organizational Efficiency" (Forrester Research).
ITIL 4 Foundation: Enterprise Systems Overview (Axelos).

NEW QUESTION # 118
Which two benefits does RFID tagging offer for supply chain management? Choose 2 answers.

- A. Serves as a unique product identifier
- B. Tracks a product's journey from manufacturing facility to store
- C. Discards inconsistent, incorrect, or incomplete information
- D. Automates the different activities of the supply chain

Answer: A,B

Explanation:
RFID Tagging Benefits in Supply Chain Management:
Unique Product Identifier: RFID tags provide a unique identifier for each product, enabling precise tracking and inventory management.
Product Tracking: RFID tags allow continuous tracking of products throughout their journey in the supply chain, from manufacturing to delivery.
Why Other Options Are Incorrect:
Option A: While RFID can streamline certain activities, it does not automate the entire supply chain.
Option D: RFID is not designed to discard incorrect or incomplete information but rather to provide accurate tracking.

RFID in Supply Chain Management - IEEE
"Enhancing Supply Chain Visibility with RFID" - Gartner

NEW QUESTION # 119
How might global population growth impact IT leaders?

- A. By supporting the rapid expansion of digital infrastructures
- B. By delaying upgrades until population trends stabilize
- C. By focusing on routine system upkeep instead of expanding
- D. By restricting access to conserve existing resources

Answer: A

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
Global population growth increases the number of people who need access to technology, communication, data, and digital services.
For IT leaders, this trend translates into a need to expand digital infrastructures quickly and strategically to support more users, more devices, and more data.
Key implications of population growth for IT leadership include:
Planning for greater capacity in networks, storage, and computing power.
Scaling systems to support increased internet usage, online services, and applications.
Extending digital access to new regions, communities, and markets.
Ensuring infrastructure can handle greater demand, traffic, and load while maintaining performance and reliability.
Why the other options are not aligned with typical IT leadership responses:
B . By restricting access to conserve existing resources - Limiting access conflicts with organizational and societal goals to expand connectivity and inclusion.
C . By delaying upgrades until population trends stabilize - Waiting would create capacity shortfalls and service issues; IT leaders typically plan ahead of demand.
D . By focusing on routine system upkeep instead of expanding - Routine maintenance remains important, but population growth pushes leaders to prioritize expansion and scalability, not just upkeep.
Therefore, global population growth most directly impacts IT leaders by supporting and driving the rapid expansion of digital infrastructures, making A the correct answer.

NEW QUESTION # 120
Which three primary elements of information infrastructure support ongoing operations? Choose 3 answers.

- A. Business continuity plans
- B. Disaster recovery plans
- C. Authentication plans
- D. Backup and recovery plans
- E. Augmentation plans

Answer: A,B,D

NEW QUESTION # 121

......

Nowadays in this information-based world the definition of the talents mean that the personnel boost both the knowledge in Information-Technology-Management area and the practical abilities now. So if you want to be the talent the society actually needs you must apply your knowledge into the practical working and passing the test Information-Technology-Management Certification can make you become the talent the society needs. If you buy our Information-Technology-Management study materials you will pass the exam successfully and realize your goal to be the talent.

Information-Technology-Management Valid Exam Notes: https://www.actualtorrent.com/Information-Technology-Management-questions-answers.html

WGU Test Information-Technology-Management Dates Also it contains all functions of the software version, If you want to get the best valid WGU Information-Technology-Management Valid Exam Notes training material, congratulations, you find the right place, We are ready to show you the most reliable Information-Technology-Management pdf vce and the current exam information for your preparation of the test, WGU Test Information-Technology-Management Dates If you want to become a certified professional, then you will have to seize the opportunities you have.

Our Information-Technology-Management pdf dumps will offer an answer to this question and stretch out a helpful hand to them, Exchanging Complex Data, Also it contains all functions of the software version.

If you want to get the best valid WGU training material, congratulations, you find the right place, We are ready to show you the most reliable Information-Technology-Management PDF VCE and the current exam information for your preparation of the test.
