

JN0-481 Latest Exam Price 100% Pass | Efficient Latest JN0-481 Exam Pass4sure: Data Center, Specialist (JNCIS-DC)

What's more, part of that GetValidTest JN0-481 dumps now are free: https://drive.google.com/open?id=1xVLP8Z0S9vwR1X4cNbyzblGnYu_vjSp

Nowadays, we live so busy every day. Especially for some businessmen who want to pass the JN0-481 exam and get related certification, time is vital importance for them, they may don't have enough time to prepare for their exam. Some of them may give it up. After so many years' development, our JN0-481 exam torrent is absolutely the most excellent than other competitors, the content of it is more complete, the language of it is more simply. Believing in our JN0-481 Guide tests will help you get the certificate and embrace a bright future. Time and tide wait for no man. Come to buy our test engine.

You buy our GetValidTest Juniper JN0-481 Certification which is 100% risk free. Before you decide to use GetValidTest Juniper JN0-481 dumps, you can try our free demo and pdf. Click GetValidTest, download it now! Affordable, and good service – free update for a year. Quality first. Welcomes your order. Thank you.

Latest JN0-481 Exam Pass4sure, New JN0-481 Test Sims

The second format is a web-based format that can be accessed from browsers like Firefox, Microsoft Edge, Chrome, and Safari. It means you don't need to download or install any software or plugins to take the Data Center, Specialist (JNCIS-DC) practice test. The web-based format of the Juniper JN0-481 Certification Exams practice test supports all operating systems. The third and last format is desktop software format which can be accessed after installing the software on your Data Center, Specialist (JNCIS-DC) (JN0-481) Windows Pc or Laptop. These formats are built especially for the students so they don't stop preparing for the Data Center, Specialist (JNCIS-DC) (JN0-481) certification.

Juniper Data Center, Specialist (JNCIS-DC) Sample Questions (Q68-Q73):

NEW QUESTION # 68

In Juniper Apstra, what are three valid deploy modes when assigning systems to your blueprint? (Choose three.)

- A. Standby
- B. Drain
- C. Deploy
- D. Ready
- E. OOS-Ready

Answer: B,C,D

NEW QUESTION # 69

Which three statements describe intent-based analytics? (Choose three.)

- A. It is used to establish network performance baselines.
- B. It collects information from vendor websites.
- C. It indicates when device operating versions require updating.
- D. It alerts the network operator when network performance moves away from the baseline.
- E. It is a real-time information processing pipeline.

Answer: A,D,E

Explanation:

Intent-based analytics (IBA) is a feature of Juniper Apstra that allows you to combine intent from the network design with current and historic data from devices to reason about the network at- large.

IBA has the following characteristics:

It is a real-time information processing pipeline. This means that IBA can ingest, process, and analyze large amounts of data from devices in real time, using agents and probes.

Agents are software components that collect data from devices and send them to the Apstra server.

Probes are user-defined queries that aggregate data across devices and generate advanced data that can be more easily reasoned about.

It is used to establish network performance baselines. This means that IBA can use the advanced data to measure and monitor the network performance against the expected outcomes and service levels.

IBA can also use the historic data to create baselines that represent the normal behavior and state of the network.

It alerts the network operator when network performance moves away from the baseline. This means that IBA can detect and report any anomalies or deviations from the baseline or the intent in the network.

IBA can also provide insights and recommendations for troubleshooting and resolving the issues.

NEW QUESTION # 70

Referring to the exhibit, which statement is correct?

□

- A. The red-striped primitives indicate that further configuration is required.
- B. The gray-solid primitives indicate that they are incompatible with the connectivity template design.
- C. The gray-solid primitives indicate further configuration is required.
- D. The red-striped primitives indicate that they are incompatible with the connectivity template design.

Answer: A

Explanation:

A connectivity template is a set of configuration parameters that can be applied to a device or a group of devices in a blueprint. A blueprint is a logical representation of the network design and intent. A primitive is a basic unit of configuration that can be added to a connectivity template. A primitive can be a link, a peering, a policy, or a service. In the exhibit, the red-striped primitives indicate that further configuration is required for them to be compatible with the connectivity template design. The red stripes mean that the primitive is incomplete or invalid, and it needs to be edited or deleted. For example, the IP Link primitive needs to have the interface name and IP address specified for each end of the link.

NEW QUESTION # 71

What are two formats that the cabling map can be exported as? (Choose two.)

- A. XML
- B. CSV
- C. JSON
- D. HTML

Answer: B,C

NEW QUESTION # 72

Referring to the exhibit, what is the minimum information you must add to create a new routing zone?

- A. VRF Name, VLAN ID, VNI, Routing Policies
- **B. VRF Name, VLAN ID. And VNI**
- C. VRF Name only
- D. VRF Name and Routing policies

Answer: B

Explanation:

To create a new routing zone, you must specify the VRF Name, VLAN ID, and VNI for the routing zone. These are the mandatory fields in the user interface shown in the exhibit. The VRF Name is the name of the L3 domain that isolates the IP traffic of the routing zone from other routing zones.

The VLAN ID is the identifier for the VLAN tagged Layer 3 links on external connections. The VNI is the VxLAN Network Identifier associated with the routing zone. The Routing Policies are optional fields that allow you to configure import and export route targets for the routing zone.

These are only applicable for EVPN routing zones, which use MP-EBGP as the overlay control protocol.

NEW QUESTION # 73

.....

The Juniper JN0-481 PDF is the collection of real, valid, and updated Juniper JN0-481 practice questions. The JN0-481 PDF dumps file works with all smart devices. You can use the Data Center, Specialist (JNCIS-DC) PDF questions on your tablet, smartphone, or laptop and start JN0-481 Exam Preparation anytime and anywhere. The JN0-481 dumps PDF provides you with everything that you must need in Juniper JN0-481 exam preparation and enable you to crack the final Juniper JN0-481 exam quickly.

Latest JN0-481 Exam Pass4sure: <https://www.getvalidtest.com/JN0-481-exam.html>

The certified experts make sure that the Juniper JN0-481 exam cram is updated on a regular basis with JN0-481 real exam so every customer can prepare JN0-481 pass guide smoothly. In order to remain competitive in the market, our company has been keeping researching and developing of the new JN0-481 exam questions, Juniper JN0-481 Latest Exam Price That is the expression of our efficiency.

Many people find training Faces to be addictive, so you may wish to set JN0-481 aside some time to do it when you don't have anything more important to do, Do not assume that decentralized management means decentralized IT.

Free PDF Quiz 2026 Efficient Juniper JN0-481 Latest Exam Price

The certified experts make sure that the Juniper JN0-481 Exam Cram is updated on a regular basis with JN0-481 real exam so every customer can prepare JN0-481 pass guide smoothly.

In order to remain competitive in the market, our company has been keeping researching and developing of the new JN0-481 exam questions, That is the expression of our efficiency.

Our Data Center, Specialist (JNCIS-DC) (JN0-481) questions product is getting updated regularly as per the original Data Center, Specialist (JNCIS-DC) (JN0-481) practice test's content, You will remain updated with our JN0-481 BrainDumps, as we regularly upgrade the material.
