Passing MB-310 Exam is a crucial step for professionals who want to advance their careers in the field of financial management and gain recognition for their expertise in Microsoft Dynamics 365 Finance.

## Microsoft Dynamics 365 Finance Functional Consultant Sample Questions (Q159-Q164):

### NEW QUESTION # 159

A company uses basic budgeting functionality in Dynamics 365 Finance.

A budget manager plans to review and approve budget register entries in the system.

You need to set up approval workflows.

Which four actions should you perform in sequence?

To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

**Actions**

- Activate the workflow.
- Create a workflow for the workflow type Budget account entry workflow.
- Define budget control rules for all financial dimension values.
- Create a workflow for the workflow type Budget register entry workflow.
- Select Budget manager as a type of participant.
- Assign the workflow to a budget code.

**Answer Area**

>
<
^
v

**Answer:**

Explanation:

### **Answer Area**

Create a workflow for the workflow type Budget register entry workflow.

Assign Budget manager as as type of participant.

Select Budget manager as a type of participant.

Activate the workflow.

1 - Create a workflow for the workflow type Budget register entry workflow.

2 - Assign Budget manager as as type of participant.

3 - Select Budget manager as a type of participant.

4 - Activate the workflow.

### **NEW QUESTION # 160**

You are a finance consultant. Your client needs you to configure cash flow forecasting.

The client wants specific percentages of main accounts to contribute to different cash flow forecasts for other main accounts.

You need to configure Dynamics 365 for Finance to meet the needs of the client.

What should you do?

- A. Configure the parent/child relationship for the main account and subaccounts by using appropriate percentages.
- B. On the Cash flow forecasting setup form, configure the primary main account to assign a percentage to the dependent account.
- C. **On the Cash flow forecasting setup form, use the Dependent Accounts setup to specify which account and percentage is associated to the main account.**
- D. Configure the cash flow forecasting setup for Accounts Payable before you configure vendor posting profiles.

### **NEW QUESTION # 161**

A company uses Dynamics 365 Finance to manage fixed assets. The company's fiscal year is set as the calendar year.

The company requires two books for each fixed asset. The company has the following requirements for the books:

Book purpose	Requirements
Accounting	<ul style="list-style-type: none"> <li>Depreciate assets by using the straight-line method.</li> <li>Depreciate assets starting on the date that an asset is placed in service.</li> <li>Run depreciation each fiscal period.</li> </ul>
Tax	<ul style="list-style-type: none"> <li>Depreciate assets by using the 200 percent reducing balance method.</li> <li>Assign half of yearly depreciation for the first and last year and full year depreciation for every other year during the service life of the asset.</li> <li>Run depreciation each fiscal year.</li> </ul>

You need to configure a fixed asset group book setup to meet the requirements.

Which depreciation conventions and depreciation profiles should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer Area**

Book purpose	Depreciation convention	Depreciation profile
Accounting	<input type="checkbox"/> None <input checked="" type="checkbox"/> <b>None</b> <input type="checkbox"/> Full month <input type="checkbox"/> Mid-month (1st of month) <input type="checkbox"/> Mid-month (15th of month)	<input type="checkbox"/> Straight line service life – Fiscal period <input checked="" type="checkbox"/> <b>Straight line service life – Yearly</b> <input type="checkbox"/> Straight line service life – Fiscal period <input type="checkbox"/> Straight line life remaining - Yearly <input type="checkbox"/> Manual – Fiscal period
Tax	<input type="checkbox"/> Half year (start of year) <input checked="" type="checkbox"/> <b>None</b> <input type="checkbox"/> Half year <input type="checkbox"/> Half year (start of year) <input type="checkbox"/> Half year (next year)	<input type="checkbox"/> 200% reducing balance – Yearly <input checked="" type="checkbox"/> <b>200% reducing balance – Yearly</b> <input type="checkbox"/> 200% reducing balance – Fiscal period <input type="checkbox"/> Consumption - Yearly <input type="checkbox"/> Consumption- Fiscal period

#### NEW QUESTION # 163

A company implements Dynamics 365 Finance. The company has six departments for budget planning purposes.

The company is budget planning and requires the following scenarios:

- \* A previous year budgeted scenario will be generated by the finance department.
- \* The baseline scenario will be generated based on the previous year budget scenarios with some increase.
- \* A baseline scenario will be sent to each department to review.
- \* Department requested scenarios will be keyed in by a department manager based on their review of the baseline scenario.
- \* Department requested scenarios will be aggregated back to the finance department, so finance can see the total budget requested.
- \* Finance will approve the final budget in Department approved scenario.

You need to configure allocation schedules to populate a baseline column for each department in the review process. How should you configure budget planning? To answer, select the appropriate options in the answer area, NOTE: Each correct selection is worth one point.
