# AVIXA certification CTS exam targeted exercises

P.S. Free & New CTS dumps are available on Google Drive shared by Lead2PassExam: https://drive.google.com/open?id=1rPQOQvbMZ6d3Y_YX5jZ4AiGWNLxLl9qO

Do you want to get a better job or a higher income? If the answer is yes, then you should buy our CTS exam questions for our CTS study materials can help you get what you want. Go against the water and retreat if you fail to enter. The pressure of competition is so great now. If you are not working hard, you will lose a lot of opportunities! There is no time, quickly purchase CTS Study Materials, pass the exam! Come on!

AVIXA CTS Exam Syllabus Topics:

Topic	Details
Topic 1	• Implementing AV Solutions: This section of the exam measures the skills of AV system integrators and focuses on the implementation of AV solutions. It involves integrating AV systems, verifying their functionality, and managing the integration process, including training, documentation, and ensuring operational readiness.
Topic 2	• Supporting AV System Operation: This section of the exam measures the skills of AV support specialists and covers the ongoing support of AV systems. It includes troubleshooting issues, providing remote assistance, supporting live events, and offering in-room operation training to ensure smooth system operation.
Topic 3	• Servicing AV Solutions: This section of the exam measures the skills of AV maintenance managers and focuses on the maintenance and repair of AV solutions. It involves supervising AV operations, conducting preventative maintenance, performing firmware and equipment upgrades, and troubleshooting and repairing AV systems to ensure they remain functional and efficient.

Topic 4	• Creating AV Solutions: This section of the exam measures the skills of AV system designers and covers the process of creating audiovisual solutions. It includes conducting customer needs analysis, performing site surveys to assess environmental factors like lighting and acoustics, developing project scopes, and designing AV solutions with detailed drawings and materials lists.

Effective Way to Prepare for the AVIXA CTS Certification Exam?

Everyone is not willing to fall behind, but very few people take the initiative to change their situation. Take time to make a change and you will surely do it. Our CTS learning materials can give you some help. Our company aims to help ease the pressure on you to prepare for the exam and eventually get a certificate. Obtaining a certificate is equivalent to having a promising future and good professional development. Our CTS Learning Materials have a good reputation in the international community and their quality is guaranteed. Why don't you there have a brave attempt? You will certainly benefit from your wise choice.

AVIXA Certified Technology Specialist Sample Questions (Q157-Q162):

NEW QUESTION # 157
What is the FIRST stage in troubleshooting an AV system?

- A. identifying the symptoms of the error
- B. determining which devices are fully functional
- C. evaluating possible sources of error
- D. reviewing the system diagram showing the connections and the signal flow

Answer: A

Explanation:
The first stage in troubleshooting an AV system is identifying the symptoms of the error. This step involves observing and documenting the specific issues or malfunctions that are occurring. By clearly understanding and articulating the symptoms, a technician can more effectively diagnose the problem and narrow down potential causes. Once the symptoms are identified, the technician can proceed to evaluate possible sources of error, check device functionality, and review system diagrams as needed.

NEW QUESTION # 158
Ambient noise PRIMARILY affects desired sound by

- A. interfering with it.
- B. canceling it out.
- C. complementing it.
- D. enhancing it.

Answer: A

Explanation:
Comprehensive Detailed Explanation with all Technology Specialist References:
Ambient noise is any unwanted background sound that can interfere with the clarity and intelligibility of the desired audio signal. In an AV setting, ambient noise can reduce speech intelligibility, making it harder for the audience to understand the speaker or experience the audio as intended.
Option B, "canceling it out," would refer to techniques like active noise cancellation, which isn't the primary effect of ambient noise on sound but rather a solution to it. Options A and D, "enhancing" and
"complementing," are not applicable because ambient noise typically detracts from audio quality rather than adding to it.
CTS References: AVIXA CTS Exam Guide, Chapter on Audio Basics and Acoustics; CTS Handbook, Section on Acoustic Principles and Noise Management in AV Systems.

NEW QUESTION # 159

On sites such as hospitals or prisons, which of the following will have the MOST impact on labor costs for the project?

- A. the number of installers
- B. height of the ceilings
- C. work restrictions
- D. the type of system calculations

Answer: C

Explanation:
On sites such as hospitals or prisons, work restrictions will have the most impact on labor costs for the project. These restrictions may include limited working hours, special security protocols, or the need for supervision, all of which can significantly increase labor costs and project timelines. Axis Technology Specialist documentation underscores the importance of understanding site-specific restrictions to accurately estimate labor costs and project feasibility.

NEW QUESTION # 160
Which of the following takes the highest precedence when the interpretations of applicable codes and standards are in conflict?

- A. company guidelines
- B. local fire codes
- C. national safety codes
- D. local authority that has jurisdiction

Answer: D

Explanation:
When conflicts arise between codes and standards, the local authority having jurisdiction (AHJ) takes precedence. The AHJ is responsible for enforcing regulations and has the final say in interpretations to ensure compliance with local requirements.
CTS Technology Specialist Reference
CTS guidelines state that the AHJ has ultimate authority over code interpretation and compliance, which is critical in AV installations to ensure safety and legal adherence.

NEW QUESTION # 161
The FIRST step in troubleshooting an AV system is to

- A. change only one component at a time.
- B. ensure that all the system components have power.
- C. divide the system in half to identify the portion that is not working.
- D. clearly identify the failure symptoms.

Answer: D

Explanation:
The first step in any troubleshooting process is to clearly identify the failure symptoms to understand the nature and extent of the issue. This step is critical as it guides the entire troubleshooting process by providing a clear description of the problem.
CTS Technology Specialist Reference
CTS materials on troubleshooting stress the importance of identifying symptoms accurately before proceeding to diagnostics, which helps in forming a systematic approach to problem-solving.

NEW QUESTION # 162
......

The authoritative, efficient, and thoughtful service of CTS learning question will give you the best user experience, and you can also get what you want with our study materials. I hope our study materials can accompany you to pursue your dreams. If you can choose CTS test guide, we will be very happy. We look forward to meeting you. You can choose your favorite our study materials version according to your feelings. When you use CTS Test Guide, you can also get our services at any time. We will try our best to solve your problems for you. I believe that you will be more inclined to choose a good service product, such as CTS learning question. After all, everyone wants to be treated warmly and kindly, and hope to learn in a more pleasant mood.
