

Proven and Recommended Way to Pass Cisco 350-401 Certification Exam

**How to Make
Sure Your
Success in
Cisco 350-401
ENCOR Exam?**

P.S. Free 2026 Cisco 350-401 dumps are available on Google Drive shared by PracticeTorrent: <https://drive.google.com/open?id=1edb3DgWoUwSJ6sDRvrML1dbKZf7P9fx>

Passing the 350-401 exam is your best career opportunity. The rich experience with relevant certificates is important for enterprises to open up a series of professional vacancies for your choices. Our website's 350-401 learning quiz bank and learning materials look up the Latest 350-401 Questions and answers based on the topics you choose. This choice will serve as a breakthrough of your entire career, so prepared to be amazed by high quality and accuracy rate of our 350-401 study guide.

PracticeTorrent provides accurate and up-to-date Cisco 350-401 Exam Questions that ensure exam success. With these Cisco 350-401 practice questions, you can pass the 350-401 exam on the first try. PracticeTorrent understands the stress and anxiety that exam candidates experience while studying. As a result, they provide personalized Cisco 350-401 Practice Exam material to assist you in efficiently preparing for the exam.

Reliable 350-401 Braindumps Book, Study 350-401 Test

All these three Cisco 350-401 exam questions formats contain the real, valid, and error-free Implementing Cisco Enterprise Network Core Technologies (350-401 ENCOR) (350-401) exam practice test questions that are ideal study material for quick Cisco 350-401 Exam Preparation. Just choose the right PracticeTorrent Implementing Cisco Enterprise Network Core Technologies (350-401 ENCOR) Questions formats and download quickly and start Implementing Cisco Enterprise Network Core Technologies (350-401 ENCOR) (350-401) exam preparation without wasting further time.

The Cisco 350-401 Exam Topics of Cisco 350-401 cover a wide range of industry-standard technologies, including Virtual LANs (VLANs), routing protocols (OSPF, BGP, and EIGRP), Quality of Service (QoS), Network Applications and Infrastructure Services, and Network Security. Moreover, the exam also tests candidates' knowledge and understanding of network automation, network programmability, and virtualization technologies such as virtual switching, virtual routing, and overlay networks.

Cisco Implementing Cisco Enterprise Network Core Technologies (350-401 ENCOR) Sample Questions (Q96-Q101):

NEW QUESTION # 96

Drag and drop the characteristics from the left onto the technology types on the right.

This type of technology provides automation across multiple technologies and domains.

This type of technology enables consistent configuration of infrastructure resources.

Puppet is used for this type of technology.

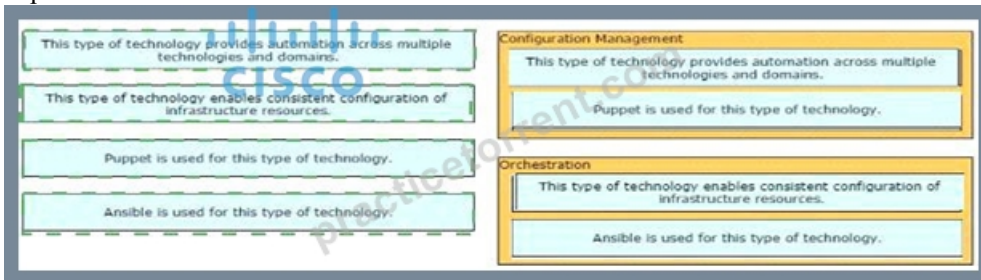

Ansible is used for this type of technology.

Configuration Management

Orchestration

Answer:

Explanation:

Explanation:

Orchestration

Orchestration means arranging or coordinating multiple systems. It's also used to mean "running the same tasks on a bunch of servers at once, but not necessarily all of them." Configuration Management Config Management is part of provisioning. Basically, that's using a tool like Chef, Puppet or Ansible to configure our server. "Provisioning" often implies it's the first time we do it. Config management usually happens repeatedly.

Configuration management (CM) is a systems engineering process for establishing and maintaining consistency of a product's performance, functional, and physical attributes with its requirements, design, and operational information throughout its life. Configuration management is all about bringing consistency in the infrastructure.

Configuration Orchestration vs Configuration Management

The first thing that should be clarified is the difference between "configuration orchestration" and "configuration management" tools, both of which are considered IaC tools and are included on this list.

Configuration orchestration tools, which include Terraform and AWS CloudFormation, are designed to automate the deployment of servers and other infrastructure. Configuration management tools like Chef, Puppet, and the others on this list help configure the software and systems on this infrastructure that has already been provisioned.

NEW QUESTION # 97

Refer to the exhibit. An engineer must deny HTTP traffic from host A to host V while allowing all other communication between the hosts, drag and drop the commands into the configuration to achieve these results. Some commands may be used more than once. Not all commands are used.

```

SW1(config)# ip access-list extended DENY-HTTP
SW1(config-ext-nacl)# [ ] tcp host 10.1.1.10 host 10.1.1.20 eq www

SW1(config)# ip access-list extended MATCH_ALL
SW1(config-ext-nacl)# [ ] ip any any

SW1(config)# vlan access-map HOST-A-B 10
SW1(config-access-map)# match ip address DENY-HTTP
SW1(config-access-map)# [ ]

SW1(config)# vlan access-map HOST-A-B 20
SW1(config-access-map)# match ip address MATCH_ALL
SW1(config-access-map)# [ ]

SW1(config)# vlan filter HOST-A-B vlan 10

```

action drop action forward filter permit deny match

Answer:

- Explanation:
- Explanation
- Deny
- Permit
- Action drop
- Action forward

NEW QUESTION # 98

Which two statements about EIGRP load balancing are true? (Choose two)

- A. EIGRP supports unequal-cost paths by default
- **B. EIGRP supports 6 unequal-cost paths**
- C. Cisco Express Forwarding is required to load-balance across interfaces
- **D. A path can be used for load balancing only if it is a feasible successor**
- E. Any path in the EIGRP topology table can be used for unequal-cost load balancing

Answer: B,D

Explanation:

EIGRP provides a mechanism to load balance over unequal cost paths (or called unequal cost load balancing) through the "variance" command. In other words, EIGRP will install all paths with metric < variance * best metric into the local routing table, provided that it meets the feasibility condition to prevent routing loop. The path that meets this requirement is called a feasible successor. If a path is not a feasible successor, it is not used in load balancing.

Note: The feasibility condition states that, the Advertised Distance (AD) of a route must be lower than the feasible distance of the current successor route.

NEW QUESTION # 99

What are two reasons a company would choose a cloud deployment over an on-prem deployment? (Choose Two)

- **A. Cloud costs adjust up or down depending on the amount of resources consumed. On-Prem costs for hardware, power, and space are ongoing regardless of usage**

- B. In a cloud environment, the company is in full control of access to their data. On-prem risks access to data due to service provider outages
- C. Cloud resources scale automatically to an increase in demand. On-prem requires additional capital expenditure.
- D. In a cloud environment, the company controls technical issues. On-prem environments rely on the service provider to resolve technical issue.
- E. Cloud deployments require long implementation times due to capital expenditure processes. On-Prem deployments can be accomplished quickly using operational expenditure processes.

Answer: A,C

Explanation:

AWS Auto Scaling monitors your applications and automatically adjusts capacity to maintain steady, predictable performance at the lowest possible cost. Using AWS Auto Scaling, it's easy to setup application scaling for

NEW QUESTION # 100

Drag and drop the solutions that comprise Cisco Cyber Threat Defense from the left onto the objectives they accomplish on the right.

StealthWatch	detects suspicious web activity
Identity Services Engine	analyzes network behavior and detects anomalies
Web Security Appliance	uses pxGrid to remediate security threats

Answer:

Explanation:

StealthWatch	Web Security Appliance
Identity Services Engine	StealthWatch
Web Security Appliance	Identity Services Engine

NEW QUESTION # 101

.....

The online 350-401 practice exam has all specifications of the desktop software. It is compatible with Chrome, Firefox, MS Edge, Safari, Opera, etc. The Implementing Cisco Enterprise Network Core Technologies (350-401 ENCOR) (350-401) practice exam will save your progress and give you an overview of your mistakes, which will benefit your overall preparation. All operating systems support this Implementing Cisco Enterprise Network Core Technologies (350-401 ENCOR) (350-401) practice test.
