Books 1z0-1080-25 PDF - Reliable 1z0-1080-25 Real Test

2026 Latest PassCollection 1z0-1080-25 PDF Dumps and 1z0-1080-25 Exam Engine Free Share: https://drive.google.com/open?id=1kURp0sSmf21z_aoOt3_jXT6GCll2gzPB

Before purchasing 1z0-1080-25 prep torrent, you can log in to our website for free download. During your installation, 1z0-1080-25 exam torrent hired dedicated experts to provide you with free online guidance. During your studies, 1z0-1080-25 exam torrent also provides you with free online services for 24 hours, regardless of where and when you are, as long as an email, we will solve all the problems for you. At the same time, if you fail to pass the exam after you have purchased 1z0-1080-25 prep torrent, you just need to submit your transcript to our customer service staff and you will receive a full refund.

There are three different Oracle 1z0-1080-25 questions format that is being provided to applicants from PassCollection. Anyone can download a free 1z0-1080-25 exam dumps demo to evaluate this product before shopping. These Oracle Planning 2025 Implementation Professional (1z0-1080-25) latest questions formats are Oracle 1z0-1080-25 PDF dumps format, web-based Oracle Planning 2025 Implementation Professional (1z0-1080-25) practice tests, and desktop-based Oracle 1z0-1080-25 practice test software is provided to customers.

Reliable 1z0-1080-25 Real Test & Valid 1z0-1080-25 Test Pdf

Our PassCollection have a lot of IT professionals and the exam practice questions and answers we provide have been certified by many IT elites. Besides, the exam practice questions and answers have wide coverage of the content of the examination and the correct rate is up to 100%. Although there are many similar websites, perhaps they can provide you study guide and online services, our PassCollection is leading these many websites. The reason of making the PassCollection stand out in so many peers is that we

have a lot of timely updated practice questions and answers which accurately and correctly hit the exam. So we can well improve the exam pass rate and make the people ready to participate in Oracle Certification 1z0-1080-25 Exam safely use practice questions and answers provided by PassCollection to pass the exam. PassCollection 100% guarantee you to pass Oracle certification 1z0-1080-25 exam.

Oracle 1z0-1080-25 Exam Syllabus Topics:

Topic	Details
Topic 1	• Set up Planning and FreeForm Applications: This section of the exam measures the skills of a Planning Administrator and involves setting up Planning applications, including FreeForm apps, to support flexible planning and modeling needs.
Topic 2	• Manage Forms, Dashboards, and Navigation Flows: This section of the exam measures the skills of an EPM Consultant and includes creating interactive forms and dashboards and setting up navigation flows for a better user experience.
Topic 3	• Create and run data integrations: This section of the exam measures the skills of an EPM Consultant and involves building data integration flows between different data sources and Planning.
Topic 4	• Import and export metadata into Planning: This section of the exam measures the skills of a Planning Administrator and involves understanding how to bring metadata in and out of Planning applications.
Topic 5	• Describe Planning modules: This section of the exam measures the skills of an EPM Consultant and includes identifying different modules like Financials, Workforce, Projects, and Capital.
Topic 6	• Set Up Planning Security: This section of the exam measures the skills of a Planning Administrator and includes provisioning user roles and assigning appropriate access rights across Planning artifacts and data.
Topic 7	• Design forms and dashboards: This section of the exam measures the skills of an EPM Consultant and covers designing planning input forms and visual dashboards to support decision-making.
Topic 8	• Report on Planning Data: This section of the exam measures the skills of a Planning Administrator and focuses on generating reports to analyze and present Planning data effectively.
Topic 9	• Manage Rules: This section of the exam measures the skills of an EPM Consultant and covers designing and managing business logic using rules and rulesets to automate calculations.
Topic 10	• Set up valid and invalid intersections and cell-level security: This section of the exam measures the skills of an EPM Consultant and focuses on defining valid data intersections and applying security controls to limit data access at the cell level.
Topic 11	• Import and export data into Planning: This section of the exam measures the skills of a Planning Administrator and covers the process of moving planning data into and out of the system.
Topic 12	• Provision users and groups. This section of the exam measures the skills of a Planning Administrator and covers how to manage user access by assigning them to appropriate roles and groups.
Topic 13	• Introduction to Planning Modules: This section of the exam measures the skills of an EPM Consultant and introduces the available Planning modules, their integration, and use cases.
Topic 14	• Report on EPM data: This section of the exam measures the skills of a Planning Administrator and covers using reporting tools to analyze data stored in EPM applications.
Topic 15	• Build validation rules: This section of the exam measures the skills of an EPM Consultant and includes creating rules that validate data entry in forms.
Topic 16	• Map data across applications: This section of the exam measures the skills of an EPM Consultant and includes how to map and align data structures between Planning and other connected applications.

Oracle Planning 2025 Implementation Professional Sample Questions (Q73-Q78):

NEW QUESTION # 73
When importing data into Planning using a scheduled job, which option allows you to load data from the server?

- A. You select data load files from the inbox
- B. You select the data locally
- C. You select the Include Metadata option
- D. You refresh the database after importing data

Answer: C

NEW QUESTION # 74
With Machine Learning, which type of prediction would you define to predict revenue using several input variables such as price, promotions, industry market size, and climate?

- A. Forecast Prediction
- B. Source Prediction
- C. Multivariate Prediction
- D. Dimension Prediction

Answer: C

Explanation:
In Oracle Planning 2024's Machine Learning capabilities, particularly with the "Bring Your Own ML" feature, predictions can be defined based on the type of analysis required. To predict revenue using multiple input variables such as price, promotions, industry market size, and climate, the appropriate prediction type is:
* A. Dimension Prediction: Incorrect. This type is not a standard term in Oracle's ML framework for Planning; it suggests predicting across dimensions, which isn't specific to multi-variable revenue prediction.
* B. Source Prediction: Incorrect. This is not a defined prediction type in Oracle Planning's ML documentation; it might imply source data analysis, but it's not applicable here.
* C. Forecast Prediction: Incorrect. While forecasting involves predicting future values, "Forecast Prediction" is not a specific ML type in Oracle, and it doesn't emphasize the use of multiple variables.
* D. Multivariate Prediction: Correct. Multivariate prediction involves using multiple input variables (e.
g., price, promotions, market size, climate) to predict an outcome (e.g., revenue). Oracle's ML integration supports importing PMML models that handle multivariate analysis, aligning with this scenario.
The Oracle documentation confirms that Multivariate Prediction is the type suited for complex predictions with several input variables, making D the correct answer.

NEW QUESTION # 75
Which three options can you enable for Manage Existing Assets in Capital?

- A. Improvements/Impairments
- B. Transfers
- C. Retirements
- D. Leased Assets
- E. Named Assets

Answer: A,B,C

NEW QUESTION # 76

Which two can be used to push data between cubes?

- A. Data Integration
- B. Data Maps
- C. Import Data
- D. Copy Data

Answer: B,D

Explanation:

In Oracle Planning 2024, pushing data between cubes (e.g., from one cube to another within the same application) can be accomplished using specific tools. The two methods that facilitate this are:

* A. Data Integration: Incorrect. Data Integration is used to import data from external sources (e.g., files, other systems) into Planning, not to push data between cubes within the same application.
* B. Data Maps: Correct. Data Maps allow you to define mappings and push data between cubes (or applications) using Smart Push or manual execution. This is a primary method for intra-application data movement.
* C. Copy Data: Correct. The Copy Data feature enables administrators to copy data from one cube to another within the same Planning application, specifying dimensions and members to transfer.
* D. Import Data: Incorrect. Import Data is designed to bring external data into a cube from a file, not to push data between existing cubes.

Both Data Maps (with Smart Push for real-time updates) and Copy Data (for batch-style transfers) are explicitly supported for moving data between cubes, as per Oracle's documentation, making B and C the correct answers.

NEW QUESTION # 77

Which three sources of data can you use in Dashboards 2.0?

- A. Cubes
- B. Ad hoc grids
- C. Forms
- D. Spreadsheets
- E. Reports

Answer: B,C
