

# Exam 300-740 Vce, 300-740 Test Labs

P.S. Free 2026 Cisco 300-740 dumps are available on Google Drive shared by PassReview: <https://drive.google.com/open?id=1Jox6e6QTy4evZt7qBgU8jIDzGWhn4R7T>

It is our biggest goal to try to get every candidate through the exam. Although the passing rate of our 300-740 simulating exam is nearly 100%, we can refund money in full if you are still worried that you may not pass the 300-740 exam. You don't need to worry about the complexity of the refund process at all, we've made it quite simple. And if you really want to pass the exam instead of refund, you can wait for our updates for we will update our 300-740 Study Guide for sure to make you pass the exam.

## Cisco 300-740 Exam Syllabus Topics:

| Topic   | Details  |
|---------|--|
| Topic 1 | <ul style="list-style-type: none"><li>Industry Security Frameworks: This section of the exam measures the skills of Cybersecurity Governance Professionals and introduces major industry frameworks such as NIST, CISA, and DISA. These frameworks guide best practices and compliance in designing secure systems and managing cloud environments responsibly.</li></ul>  |
| Topic 2 | <ul style="list-style-type: none"><li>Visibility and Assurance: This section of the exam measures skills of Security Operations Center (SOC) Analysts and focuses on monitoring, diagnostics, and compliance. It explains the Cisco XDR solution, discusses visibility automation, and describes tools for traffic analysis and log management. The section also involves diagnosing application access issues, validating telemetry for behavior analysis, and verifying user access with tools like firewall logs, Duo, and Cisco Secure Workload.</li></ul> |
| Topic 3 | <ul style="list-style-type: none"><li>Application and Data Security: This section of the exam measures skills of Cloud Security Analysts and explores how to defend applications and data from cyber threats. It introduces the MITRE ATT&amp;CK framework, explains cloud attack patterns, and discusses mitigation strategies. Additionally, it covers web application firewall functions, lateral movement prevention, microsegmentation, and creating policies for secure application connectivity in multicloud environments.</li></ul>                   |

|         |  |
|---------|--|
| Topic 4 | <ul style="list-style-type: none"> <li>Threat Response: This section of the exam measures skills of Incident Response Engineers and focuses on responding to threats through automation and data analysis. It covers how to act based on telemetry and audit reports, manage user or application compromises, and implement response steps such as containment, reporting, remediation, and reinstating services securely.</li> </ul>  |
| Topic 5 | <ul style="list-style-type: none"> <li>Cloud Security Architecture: This section of the exam measures the skills of Cloud Security Architects and covers the fundamental components of the Cisco Security Reference Architecture. It introduces the role of threat intelligence in identifying and mitigating risks, the use of security operations tools for monitoring and response, and the mechanisms of user and device protection. It also includes strategies for securing cloud and on-premise networks, as well as safeguarding applications, workloads, and data across environments.</li> </ul> |
| Topic 6 | <ul style="list-style-type: none"> <li>Network and Cloud Security: This section of the exam measures skills of Network Security Engineers and covers policy design for secure access to cloud and SaaS applications. It outlines techniques like URL filtering, app control, blocking specific protocols, and using firewalls and reverse proxies. The section also addresses security controls for remote users, including VPN-based and application-based access methods, as well as policy enforcement at the network edge.</li> </ul>  |

## 300-740 Test Labs, Valid Dumps 300-740 Free

Many exam candidates feel hampered by the shortage of effective 300-740 practice materials, and the thick books and similar materials causing burden for you. Serving as indispensable choices on your way of achieving success especially during this exam, more than 98 percent of candidates pass the exam with our 300-740 practice materials and all of former candidates made measurable advance and improvement. All 300-740 practice materials fall within the scope of this exam for your information.

### Cisco Designing and Implementing Secure Cloud Access for Users and Endpoints Sample Questions (Q119-Q124):

#### NEW QUESTION # 119

Cisco Secure Firewall provides advanced threat defense capabilities through:

- A. Only allowing traffic from trusted IP addresses
- B. Focusing solely on internal traffic and ignoring external threats
- C. Integrating with other security solutions for comprehensive protection
- D. Implementing basic firewall rules that do not adapt over time

**Answer: C**

#### NEW QUESTION # 120

```
Ciscoasa# show vpn-sessiondb detail anyconnect
Username : USER1 Index : 1
Assigned IP : 10.1.2.3 Public IP : 4.5.6.1
Protocol : AnyConnect-Parent SSL-Tunnel DTLS-Tunnel
License : AnyConnect Premium
Bytes Tx : 465106 Bytes Rx : 395293
Pkts Tx : 3310 Pkts Rx : 4115
Group Policy : PolicyAllow Tunnel Group : Employee
Login Time : 01:41:18 CEST Mon Mar 9 2020
Duration : 0h:17m:45s
TCP Dst Port : 433 Auth Mode : userPassword
Idle Time Out : 30 Minutes Idle TO Left : 12 Minutes

tunnel-group Employee webvpn-attributes
[REDACTED]
pre-fill-username ssl-client
secondary-pre-fill-username ssl-client
group-alias Employee enable
```

Refer to the exhibit. An engineer must implement a remote access VPN solution that provides user and device verification. The company uses Active Directory for user authentication and ID certificates for device identity. Users are currently able to connect using only a valid username and password, even if their computer is missing the required certificate. Which command from the Cisco ASA tunnel-group completes the requirement of verifying device identity in addition to user identity?

- A. **authentication aaa certificate**
- B. **webvpn authorize-device**
- C. **authentication mfa**
- D. **ldap-attribute-map PolicyAllow**

**Answer: A**

Explanation:

To enforce both user-based and device-based authentication on Cisco ASA, the tunnel group must include the command: authentication aaa certificate. This configuration requires that both a valid username/password (authenticated via AAA, such as Active Directory) and a trusted certificate (device identity) are present before allowing VPN access. Without this directive, only username/password credentials are validated, which leads to the scenario described in the question.

Reference: Designing and Implementing Secure Cloud Access for Users and Endpoints (SCAZT), Section 2: User and Device Security, Pages 40-44.

### NEW QUESTION # 121

Implementing security policies for SaaS applications such as Office 365 requires:

- A. Ignoring anomalous user behavior as it is expected in cloud environments
- **B. Continuous monitoring and assessment of user activities and data access**
- C. Disabling encryption to improve accessibility
- D. Assuming cloud providers are solely responsible for all aspects of security

**Answer: B**

### NEW QUESTION # 122

In the context of cloud security, NIST framework primarily provides:

- A. Physical security guidelines
- B. Data encryption algorithms
- C. Network performance metrics
- **D. Standards and guidelines for cybersecurity practices**

**Answer: D**

### NEW QUESTION # 123

In the context of threat response, "reinstantiate" primarily means:

- A. Maintaining the compromised state for forensic analysis
- B. Ignoring the incident after containment
- C. Permanently disabling compromised accounts
- **D. Restoring services or applications to their operational state after a security incident**

**Answer: D**

### NEW QUESTION # 124

.....

Practice tests for 300-740 Pdf Dumps are best for self-assessment. This helps improve errors and strengthen preparation. The practice test is among the most beneficial features offered by PassReview to make sure that applicants are successful. It is advised to

attempt the test multiple times. Every time you attempt the test, you'll be provided with a thorough result report which can help you be able to keep track of your work without any difficulty.
