www.NWExam.com
Get complete detail on FCP_FWB_AD-7.4 exam guide to crack Fortinet FCP - FortiWeb 7.4 Administrator. You can collect all information on FCP_FWB_AD-7.4 tutorial, practice test, books, study material, exam questions, and syllabus. Firm your knowledge on Fortinet FCP - FortiWeb 7.4 Administrator and get ready to crack FCP_FWB_AD-7.4 certification. Explore all information on FCP_FWB_AD-7.4 exam with number of questions, passing percentage and time duration to complete test.

P.S. Free & New FCP_FWB_AD-7.4 dumps are available on Google Drive shared by VCE4Dumps:
<https://drive.google.com/open?id=1Pr-nZ7Y2udsXcSiGeLFmhScYQe9EKQE2>

With the help of our FCP_FWB_AD-7.4 study guide, you can adjust yourself to the exam speed and stay alert according to the time-keeper that we set on our FCP_FWB_AD-7.4 training materials. Therefore, you can trust on our FCP_FWB_AD-7.4 exam materials for this effective simulation function will eventually improve your efficiency and assist you to succeed in the FCP_FWB_AD-7.4 Exam. And we believe you will pass the FCP_FWB_AD-7.4 exam just like the other people!

We are so proud that we own the high pass rate of our FCP_FWB_AD-7.4 exam braindumps to 99%. This data depend on the real number of our worthy customers who bought our FCP_FWB_AD-7.4 exam guide and took part in the real exam. Obviously, their performance is wonderful with the help of our outstanding FCP_FWB_AD-7.4 Exam Materials. We have the definite superiority over the other FCP_FWB_AD-7.4 exam dumps in the market. If you choose to study with our FCP_FWB_AD-7.4 exam guide, your success is 100 guaranteed.

Latest FCP_FWB_AD-7.4 Exam Torrent - FCP_FWB_AD-7.4 Test Prep & FCP_FWB_AD-7.4 Quiz Guides

The happiness from success is huge, so we hope that you can get the happiness after you pass FCP_FWB_AD-7.4 exam

certification with our developed software. Your success is the success of our VCE4Dumps, and therefore, we will try our best to help you obtain FCP_FWB_AD-7.4 Exam Certification. We will not only spare no efforts to design FCP_FWB_AD-7.4 exam materials, but also try our best to be better in all after-sale service.

Fortinet FCP_FWB_AD-7.4 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> Machine Learning (ML): This section tests the skills of Application Security Engineers in leveraging machine learning to enhance web application security. Candidates will configure machine learning algorithms to detect anomalies, mitigate bot-based threats, and secure APIs through AI-driven analysis. Understanding how to fine-tune these ML-based security measures is crucial for ensuring robust application protection against evolving cyber threats.
Topic 2	<ul style="list-style-type: none"> Encryption, Authentication, and Compliance: This section of the exam assesses the expertise of Security Analysts in mitigating web application vulnerabilities through encryption and authentication mechanisms. Candidates must configure various access control methods, track user authentication, and prevent attacks targeting authentication systems. They must also implement SSL inspection and offloading techniques to enhance security and troubleshoot encryption or authentication-related issues effectively.
Topic 3	<ul style="list-style-type: none"> Deployment and Configuration: This section of the exam measures the skills of Network Security Engineers and covers the ability to identify FortiWeb deployment requirements and configure essential system settings. Candidates are expected to set up server pools, security policies, and protected hostnames to ensure seamless deployment. To maintain operational efficiency, they must also configure FortiWeb high availability (HA) for fault tolerance and troubleshoot deployment or system-related issues.
Topic 4	<ul style="list-style-type: none"> Web Application Security: This domain evaluates the ability of Cybersecurity Specialists to implement advanced threat mitigation strategies using FortiWeb. Candidates must configure the system to block known attacks, ensure comprehensive web application protection, and troubleshoot threat detection or mitigation-related issues. Additionally, they are expected to set up API protection mechanisms to secure web-based interactions from potential threats.

Fortinet FCP - FortiWeb 7.4 Administrator Sample Questions (Q95-Q100):

NEW QUESTION # 95

Which of the following is a common threat mitigation technique to protect against SQL injection attacks?

- A. Data encryption at rest
- **B. Input validation and sanitization**
- C. Server load balancing
- D. Cross-site scripting (XSS) prevention

Answer: B

NEW QUESTION # 96

The FortiWeb machine learning (ML) feature is a two-phase analysis mechanism.

Which two functions does the first layer perform? (Choose two.)

- A. Determines whether an anomaly is a real attack or just a benign anomaly that should be ignored
- **B. Builds a threat model behind every parameter and HTTP method**
- C. Determines if a detected threat is a false-positive or not
- **D. Determines whether traffic is an anomaly, based on observed application traffic over time**

Answer: B,D

NEW QUESTION # 97

When configuring threat mitigation features for a web application, what is the primary purpose of rate limiting?

- A. Identifying malicious IP addresses
- B. Encrypting sensitive data
- C. Optimizing web server performance
- D. Preventing brute force attacks

Answer: D

NEW QUESTION # 98

Refer to the exhibit.

Which statement is true?

- A. FortiWeb is decrypting and re-encrypting the traffic.
- B. The server is not performing any cryptography on the traffic.
- C. The server is encrypting traffic being sent to the client.
- D. FortiWeb cannot perform content inspection on the traffic because it is encrypted.

Answer: A

Explanation:

In the diagram, FortiWeb is positioned between the client and the server, handling encrypted HTTPS traffic from the client and sending unencrypted HTTP traffic to the server. This indicates that FortiWeb is performing SSL offloading, which means it is decrypting the HTTPS traffic from the client, inspecting it, and then re-encrypting the traffic before forwarding it to the server.

NEW QUESTION # 99

Review the following configuration:

```
config waf machine-learning-policy
  edit 1
    set sample-limit-by-ip 0
  next
end
```

Which result would you expect from this configuration setting?

- A. When machine learning (ML) is in its running phase, FortiWeb will accept a set number of samples from the same source IP address.
- B. When ML is in its collecting phase, FortiWeb will accept an unlimited number of samples from the same source IP address.

- C. When ML is in its running phase, FortiWeb will accept an unlimited number of samples from the same source IP address.
- D. When ML is in its collecting phase, FortiWeb will not accept any samples from any IP addresses.

Answer: C

Explanation:

In the configuration, the command `set sample-limit-by-ip 0` disables the sample limit for any specific IP address. This means that during the machine learning (ML) running phase, FortiWeb will not limit the number of samples it accepts from the same IP address. Setting this to 0 effectively removes any restrictions on the number of samples from a given IP address.

NEW QUESTION # 100

.....

Are you ready to take your career to the next level with the FCP - FortiWeb 7.4 Administrator (FCP_FWB_AD-7.4)? Look no further than VCE4Dumps for all of your FCP_FWB_AD-7.4 exam needs. Our comprehensive and cost-effective solution includes regularly updated Fortinet FCP_FWB_AD-7.4 Exam Questions, available in a convenient PDF format that can be downloaded on any device, including PC, laptop, mac, tablet, and smartphone.
