Microsoft Dynamics 365: Finance and Operations Apps Solution Architect Sample Questions (Q285-Q290):

NEW QUESTION # 285

An organization is implementing Dynamics 365 Finance.

You need to assign security roles.

Which tools should you use? To answer, drag the appropriate tools to the correct tasks. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

The screenshot shows an exam question interface with a 'Tools' list on the left and a 'Tasks' list on the right. The 'Tools' list includes 'Security Diagnostic Tool', 'Security Configuration Tool', and 'Security Upgrade Advisor Tool'. The 'Tasks' list includes 'Approve ledger transactions', 'Enable collections process', and 'Enable fixed assets process'. A 'Tools' column on the far right has three empty boxes for dragging.

Answer:

Explanation:

The screenshot shows the same exam question interface as above, but with green boxes around the three tools in the 'Tools' list and red boxes around the three tool boxes in the 'Tools' column on the right, indicating the correct answer.

NEW QUESTION # 287

An asset management company is preparing to purchase licenses for Dynamics 365 Finance.

The licenses should be assigned based on the user's job scope. The organization does not want to issue full licenses to all users.

You need to determine a licensing strategy that meets the requirements.

Which license should you recommend? To answer, drag the appropriate license to the correct requirement.

Each license may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation:

NEW QUESTION # 288

A client plans to implement Dynamics 365 Finance. The client is unsure whether to use a cloud-based or on-premises implementation. For which scenario should the client install the on-premises version of the app?

- A. The client has integrations that depend on direct Microsoft SQL access.
- B. The client wants direct access to production environments.
- C. The client needs to comply with data sovereignty rules in a region where Microsoft Azure Data Centers are limited.
- D. The client is concerned about their retail stores losing internet connection and not being able to process offline store transactions.

Answer: A

Explanation:

Section: Design solution components

NEW QUESTION # 289

A company uses Dynamics 365 Supply Chain Management. You are performing regression testing using the Regression suite automation tool (RSAT). You observe that invoice totals for some sales orders are lower than expected.

You need to ensure that the invoice totals are correct.

What should you do? To answer, drag the appropriate actions to the correct scenarios. Each action may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.
