And you will find that the subject is well compiled to the content of the AZ-500 training guide in our three different versions. They are the PDF, Software and APP online. The content of these versions is the same, but the displays of our AZ-500 learning questions are all different. You can choose the favorite one.

## Microsoft Azure Security Technologies Sample Questions (Q45-Q50):

### NEW QUESTION # 45

You have an Azure Active Directory (Azure AD) tenant that contains the users shown in the following table.

From Azure AD Privileged Identity Management (PIM), you configure the settings for the Security Administrator role as shown in the following exhibit.

From PIM, you assign the Security Administrator role to the following groups:

- \* Group1: Active assignment type, permanently assigned
- \* Group2: Eligible assignment type, permanently eligible

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

Explanation:

Box 1: Yes

Eligible Type: A role assignment that requires a user to perform one or more actions to use the role. If a user has been made eligible for a role, that means they can activate the role when they need to perform privileged tasks. There's no difference in the access given to someone with a permanent versus an eligible role assignment. The only difference is that some people don't need that access all the time.

You can choose from two assignment duration options for each assignment type (eligible and active) when you configure settings for a role. These options become the default maximum duration when a user is assigned to the role in Privileged Identity Management. Use the Activation maximum duration slider to set the maximum time, in hours, that a role stays active before it expires. This value can be from one to 24 hours.

Box 2: Yes

Active Type: A role assignment that doesn't require a user to perform any action to use the role. Users assigned as active have the privileges assigned to the role Box 3: Yes User3 is member of Group2.

<https://docs.microsoft.com/bs-cyrl-ba/azure/active-directory/privileged-identity-management/pim-resource-roles>

#### NEW QUESTION # 46

You have an Azure subscription that contains the resources shown in the following table.

□ You need to ensure that ServerAdmins can perform the following tasks:

\* Create virtual machines in RG1 only.

\* Connect the virtual machines to the existing virtual networks in RG2 only.

The solution must use the principle of least privilege.

Which two role-based access control (RBAC) roles should you assign to ServerAdmins? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. a custom RBAC role for the subscription
- B. the Contributor role for the subscription
- C. the Network Contributor role for RG1
- **D. a custom RBAC role for RG2**
- **E. the Virtual Machine Contributor role for RG1**
- F. the Network Contributor role for RG2

**Answer: D,E**

Explanation:

Reference:

#### NEW QUESTION # 47

You have an Azure subscription that contains several Azure SQL databases and an Azure Sentinel workspace.

You need to create a saved query in the workspace to find events reported by Azure Defender for SQL.

What should you do?

- A. From Azure CLI run the Get-AzOperationalInsightsWorkspacecmdlet.
- B. From the Azure SQL Database query editor, create a Transact-SQL query.
- **C. From the Azure Sentinel workspace, create a Kusto Query Language query.**
- D. From Microsoft SQL Server Management Studio (SSMS), create a Transact-SQL query.

**Answer: C**

Explanation:

Section: [none]

#### NEW QUESTION # 48

You have an Azure subscription that contains the resources shown in the following table.

□ Transparent Data Encryption (TDE) is disabled on SQL1.

You assign policies to the resource groups as shown in the following table.

□ You plan to deploy Azure SQL databases by using an Azure Resource Manager (ARM) template. The databases will be configured as shown in the following table.

NOTE: Each correct selection is worth one point.

□

**Answer:**

Explanation:

□ Explanation

Graphical user interface, text, application Description automatically generated

□

**NEW QUESTION # 49**

You have an Azure subscription that contains the alerts shown in the following exhibit.

□ Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

□

**Answer:**

Explanation:
