Latest SAE-C01 Test Report, SAE-C01 Practice Exam Questions

Here, we provide you with SAE-C01 accurate questions & answers which will be occurred in the actual test. About explanations, the difficult issues will be along with detail explanations, so that you can easy to get the content of our Alibaba SAE-C01 pdf vce and have a basic knowledge of the key points. Besides, you can choose the SAE-C01 Vce Format files for simulation test. It can help you enhance your memory and consolidate the knowledge, thus the successful pass is no longer a difficult thing.

Alibaba Cloud Certified Expert - Solutions Architect (SAE-C01) Sample Questions (Q28-Q33):

NEW QUESTION # 28

A cloud e-commerce platform is going to hold a sales promotion during Christmas. At present, the customer has built an online shopping platform on Alibaba Cloud by using Server Load Balancer (SLB), Elastic Compute Service (ECS), Relational Database Service (RDS), and Object Storage Service (OSS).

When handling a surge of business traffic during the past holiday sales promotions, the customer's platform encountered the following problems: Because of great purchase demands for certain holiday products, the number of access requests for such products was too large, resulting in image loading failures on shopping pages.

Transaction pages of hot-selling products were loading slowly or even could not be opened. To build the cloud architecture in advance to cope with the growth of business traffic during the sales promotion, if you are an Alibaba Cloud architect, which of the following solutions do you think are the most reasonable and effective?

(two correct answers)

Response:

- A. Change the instance type to upgrade the configuration of SLB instances and increase the bandwidth to handle the traffic surge.
- B. Enable Alibaba Cloud Content Delivery Network (CDN) and separate the details pages of hot-selling products from those of general products in the business system. Statically process the details pages of hot-selling products to allow servers to dynamically determine only user clicks for buying products, and cache other static data on CDN.
- C. Configure existing RDS instances as single RDS instances to improve database performance.
- D. Use the data control module of the business system to cache the data of hot-selling products in advance on ApsaraDB for Redis, implementing high concurrency and relieving the RDS access pressure.

Answer: B,D

NEW QUESTION # 29

Which IT Governance principle emphasizes the importance of aligning IT investments with organizational priorities?

Response:

- A. IT transparency
- B. IT agility
- C. IT strategy
- D. IT cost containment

Answer: C

NEW QUESTION # 30

What is the term for the practice of testing a system's resilience to failures by simulating potential failures in a controlled environment?

Response:

- A. Redundancy testing
- B. Disaster recovery testing
- C. Failover testing
- D. Fault tolerance testing

Answer: C

NEW QUESTION # 31

In China Gateway Solutions, what is the primary role of a Content Delivery Network (CDN) with China-specific capabilities?

Response:

- A. To provide cloud resources to Chinese users
- B. To centralize data storage
- C. To bypass local regulations
- D. To accelerate content delivery within China

Answer: D

NEW QUESTION # 32

Which storage type is suitable for storing unstructured data such as media files on Alibaba Cloud?

Response:

- A. Object Storage Service (OSS)
- B. Table Store
- C. Cloud Enterprise Network (CEN)
- D. ApsaraDB for RDS

Answer: A
