Free PDF Quiz Trustable FCP_FCT_AD-7.4 - FCP - FortiClient EMS 7.4 Administrator Practice Online

You may be also one of them, you may still struggling to find a high quality and high pass rate FCP - FortiClient EMS 7.4 Administrator study question to prepare for your exam. Your search will end here, because our study materials must meet your requirements. Our product is elaborately composed with major questions and answers. Our study materials are choosing the key from past materials to finish our FCP_FCT_AD-7.4 Torrent prep. It only takes you 20 hours to 30 hours to do the practice. After your effective practice, you can master the examination point from the FCP_FCT_AD-7.4 exam torrent. Then, you will have enough confidence to pass it. So start with our FCP_FCT_AD-7.4 torrent prep from now on. We can succeed so long as we make efforts for one thing.

Fortinet FCP - FortiClient EMS 7.4 Administrator Sample Questions (Q12-Q17):

NEW QUESTION # 12
Which statement about the FortiClient enterprise management server is true?

- A. It enforces compliance on the endpoints using tags
- B. It provides centralized management of multiple endpoints running FortiClient software.
- C. It receives the CA certificate from FortiGate to validate client certrficates.
- D. It receives the configuration information of endpoints from ForuGate.

Answer: A

NEW QUESTION # 13
What is the function of the quick scan option on FortiClient?

- A. It scans executable files. DLLs, and drivers that are currently running, for threats.
- B. It allows users to select a specific file folder on their local hard disk drive (HDD), to scan for threats.
- C. It scans programs and drivers that are currently running, for threats
- D. It performs a full system scan including all files, executable files. DLLs, and drivers for throats.

Answer: D

Explanation:
* Understanding Quick Scan Function:
* The quick scan option on FortiClient is designed to scan certain elements of the system quickly for threats.
* Evaluating Scan Scope:
* The quick scan specifically targets executable files, DLLs, and drivers that are currently running, providing a rapid assessment of the active components of the system.
* Conclusion:
* The correct answer is D, as it accurately describes the function of the quick scan option on FortiClient.
References:
FortiClient scanning options documentation from the study guides.

NEW QUESTION # 14
An administrator wants to simplify remote access without asking users to provide user credentials Which access control method provides this solution?

- A. ZTNA IP/MAC littering mode
- B. L2TP
- C. SSL VPN
- D. ZTNA full mode

Answer: D

Explanation:
* Simplifying Remote Access:
* The administrator wants to simplify remote access without asking users to provide user credentials.
* Evaluating Access Control Methods:
* ZTNA full mode can provide seamless access by leveraging device identity and posture, eliminating the need for user credentials for each access request.
* Other methods like SSL VPN and L2TP typically require user credentials.
* Conclusion:
* The correct access control method that provides this solution is ZTNA full mode.
References:
ZTNA section in the FortiGate Infrastructure 7.2 Study Guide.

NEW QUESTION # 15
An administrator has lost web access to the FortiClient EMS console, and the web page to access to the console is timing out.
How can the administrator gather information to investigate the issue? (Choose one answer)

- A. Use the diagnostic logs option from the FortiClient EMS GUI.
- B. Use the CLI diagnostic tool on the EMS server.
- C. Download the log generator from the support site and run it on the EMS server.
- D. Download the webserver logs from the PostgreSQL server.

Answer: B

Explanation:
According to theFortiClient EMS Administrator Study Guideand officialTechnical Tipsfrom Fortinet, when the web console is inaccessible (e.g., timing out), the administrator must use tools available directly on the server's operating system (CLI) to gather diagnostic information.
1. Why the CLI Diagnostic Tool (Answer A) is the Correct Choice:
* Availability during Outage:When the GUI is unreachable, the standard "Generate Diagnostic Logs" option within the EMS interface is also unavailable.
* Windows-based EMS:The administrator can manually run the EMSDiagnosticTool.exe located at C:
\Program Files (x86)\Fortinet\FortiClientEMS\. This tool collects server information, Windows events, and EMS-specific logs into a compressed file for investigation.
* Linux-based EMS (v7.4+):For newer versions running on Linux, the administrator can use the CLI command: sudo /opt/forticlientems/bin/diagnostic_tool -o /tmp/diag to generate a diagnostic package.
* Service Verification:The CLI also allows administrators to verify if critical services (like fcems, apache2, or postgres) are running or if remote access has been disabled using the emscli utility.
2. Why Other Options are Incorrect:
* B. Download webserver logs fromPostgreSQL:PostgreSQL is the database engine for EMS, not the web server. While database logs are useful, they are not the primary method for gathering general
"diagnostic information" and would typically be collected as part of the CLI diagnostic tool output rather than downloaded directly from the DB.
* C. Diagnostic logs option from the GUI:This option is impossible to use if the administrator has lost web access and the page is timing out.
* D. Download log generator from support site:While Fortinet provides various tools on their support site, theEMS Diagnostic Toolis natively installed with the FortiClient EMS software and is the primary, documented method for troubleshooting the EMS server itself.

NEW QUESTION # 16
When multitenancy is enabled on FortiClient EMS, which administrator role can provide access to the global site only? (Choose one answer)

- A. Standard administrator
- B. Global administrator
- C. Tenant administrator
- D. Settings administrator

Answer: D

Explanation:
According to theFortiClient EMS Administration Guide(specifically the sections onMultitenancy), when multitenancy is enabled, the system introduces specific administrator roles to manage the separation between global settings and individual sites.
1. The Settings Administrator Role (Answer B)
* Specific Scope:TheSettings administratoris a specialized role designed to haveaccess to the global site only.
* Permissions:This role can access all configuration options on the global site, with the notable exception ofadministrator configuration(they cannot create or manage other admin accounts).
* Use Case:This is typically used for auditors or system managers who need to oversee global-level configurations without needing access to specific endpoint data within individual sites or the power to modify administrative users.
2. Comparison with Other Multitenancy Roles
* Super administrator:This role hasunlimited accessto the global site andall other siteswithin the EMS instance.
* Site administrator:This role is restricted tospecified sites onlyand hasno access to the global site.
* Standard administrator (Answer C):This is a generic role level within a site or a single-tenant environment but is not the role that

defines "global-only" access in a multitenant setup.
* Tenant administrator / Global administrator:While these terms are common in general IT, FortiClient EMS documentation specifically uses the titlesSuper,Settings, andSiteadministrators for multitenancy management.
3. Curriculum References
* FortiClient EMS 7.2/7.4 Study Guide (Multitenancy Chapter):Explicitly lists "Settings administrator" as the role providing access to the global site only.
* Admin Roles Table:The documentation provides a comparison table where the Settings Administrator's scope is strictly defined as "Global site only".

NEW QUESTION # 17

......

Many customers may be doubtful about our price. The truth is our price is relatively cheap among our peer. The inevitable trend is that knowledge is becoming worthy, and it explains why good FCP_FCT_AD-7.4 resources, services and data worth a good price. We always put our customers in the first place. Helping candidates to pass the FCP_FCT_AD-7.4 Exam has always been a virtue in our company's culture, and you can connect with us through email at the process of purchasing and using, we would reply you as fast as we can.
