## MD-102オンライン試験、MD-102真実試験

私たちのウェブサイトから見ると、MD-102学習教材は3つのバージョンがあります。PDF、ソフトウェアとオンライン版です。PDF版は印刷できます。ソフトウェアとオンライン版はコンピュータで使用できます。コンピュータで学ぶことが難しい場合は、MD-102学習教材の印刷資料で勉強できます。また、MD-102学習教材の価格は合理的に設定されています。

## Microsoft Endpoint Administrator 認定 MD-102 試験問題 (Q183-Q188):

### 質問 # 183

You have an Azure AD tenant named contoso.com that contains the users shown in the following table.

☐ You have a computer named Computer1 that runs Windows 10. Computer1 is in a workgroup and has the local users shown in the following table.

☐ UserA joins Computer1 to Azure AD by using user1@contoso.com.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

正解:

解説:

### 質問 # 184

-  
You have a Microsoft 365 subscription that contains the devices shown in the following table.

You need to configure the Microsoft Edge settings for each device.

What should you use? To answer, drag the appropriate Intune features to the correct devices. Each feature may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

正解:

解説:

Explanation:

Windows:

<https://learn.microsoft.com/en-us/deployedge/configure-edge-with-intune#:~:text=You%20can%20configure%20Android:>

<https://developer.android.com/work/managed-configurations> Apple:

<https://developer.apple.com/library/archive/samplecode/sc2279/Introduction/Intro.html>

### 質問 # 185

You have a Windows 10 device named Device1 that is joined to Active Directory and enrolled in Microsoft Intune.

Device 1 is managed by using Group Policy and Intune.

You need to ensure that the Intune settings override the Group Policy settings.

What should you configure?

- A. a Group Policy Object (GPO)
- B. a device compliance policy
- C. a device configuration profile
- D. an MDM Security Baseline profile

正解: C

解説:

Creating the policy

Let's create a new policy in Intune to control the GP vs. MDM winner

1. Navigate to portal.azure.com and locate Intune
2. Select "Device configuration a Profiles a Create profile"
3. Under Platform select Windows 10 and later
4. Under Profile type select "custom" and "add"
5. Name the custom setting with something intuitive
6. For OMA-URI add the policy OMA-URI  
string: ./Device/Vendor/MSFT/Policy/Config/ControlPolicyConflict/MDMWinsOverGP
7. For Data type select Integer and add the number 1

### 質問 # 186

Case Study 1 - Litware inc

General Overview

Litware, Inc. is an international manufacturing company that has 3,000 employees. The company has sales, marketing, research, human resources (HR), development, and IT departments.

Litware has two main offices in New York and Los Angeles. Litware has five branch offices in Asia.

Existing Environment

Current Business Model

The Los Angeles office has 500 developers. The developers work flexible hours ranging from 11 AM to 10 PM.

Litware has a Microsoft Endpoint Configuration Manager deployment.

During discovery, the company discovers a process where users are emailing bank account information of its customers to internal and external recipients.

Current Environment

The network contains an Active Directory domain that is synced to Microsoft Azure Active Directory (Azure AD). The functional level of the forest and the domain is Windows Server 2012 R2. All domain controllers run Windows Server 2012 R2.

Litware has the computers shown in the following table.

The development department uses projects in Azure DevOps to build applications. Most of the employees in the sales department are contractors. Each contractor is assigned a computer that runs Windows 10. At the end of each contract, the computer is assigned to different contractor.

Currently, the computers are re-provisioned manually by the IT department.

Problem Statements

Litware identifies the following issues on the network:

- Employees in the Los Angeles office report slow Internet performance when updates are downloading. The employees also report that the updates frequently consume considerable resources when they are installed. The Update settings are configured as shown in the Updates exhibit. (Click the Updates button.)
- Management suspects that the source code for the proprietary applications in Azure DevOps is being shared externally.
- Re-provisioning the sales department computers is too time consuming.

Requirements

Business Goals

Litware plans to transition to co-management for all the company-owned Windows 10 computers.

Whenever possible, Litware wants to minimize hardware and software costs.

Device Management Requirements

Litware identifies the following device management requirements:

- Prevent the sales department employees from forwarding email that contains bank account information.
- Ensure that Microsoft Edge Favorites are accessible from all computers to which the developers sign in.
- Prevent employees in the research department from copying patented information from trusted applications to untrusted applications.

Technical Requirements

Litware identifies the following technical requirements for the planned deployment:

- Re-provision the sales department computers by using Windows AutoPilot.
- Ensure that the projects in Azure DevOps can be accessed from the corporate network only.
- Ensure that users can sign in to the Azure AD-joined computers by using a PIN. The PIN must expire every 30 days.
- Ensure that the company name and logo appears during the Out of Box Experience (OOBE) when using Windows AutoPilot.

Hotspot Question

You need to meet the technical requirements for Windows AutoPilot.

Which two settings should you configure from the Azure Active Directory blade? To answer, select the appropriate settings in the answer area.

NOTE: Each correct selection is worth one point.

正解:

解説:

Explanation:

- Users (for each user profile, set the location and apply a license)
- Devices | Device settings (select Users may join devices to Azure AD > All) You can confirm this in the walkthrough video on this link:  
<https://docs.microsoft.com/en-us/mem/autopilot/configuration-requirements>

質問 # 187

What should you configure to meet the technical requirements for the Azure AD-joined computers?

- A. Windows Hello for Business from the Microsoft Intune blade in the Azure portal.
- B. The Accounts options in an endpoint protection profile.
- C. A password policy from the Microsoft Office 365 portal.
- D. The Password Policy settings in a Group Policy object (GPO).

正解: A

解説:

Topic 1, Litware inc

This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case

studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. When you are ready to answer a question, click the Question button to return to the question.

Existing Environment

Current Business Model

The Los Angeles office has 500 developers. The developers work flexible hours ranging from 11:00 to 22:00.

Litware has a Microsoft System Center 2012 R2 Configuration Manager deployment. During discovery, the company discovers a process where users are emailing bank account information of its customers to internal and external recipients.

Current Environment

The network contains an Active Directory domain that is synced to Microsoft Azure Active Directory (Azure AD). The functional level of the forest and the domain is Windows Server 2012 R2. All domain controllers run Windows Server 2012 R2.
