- A. Error
- B. [1,2,3,[4,5]]
- C. [1,2,3,4,5]

#### NEW QUESTION # 21

An e-commerce site records every product view and purchase.

Which of the following best describes how these logs become marketing insights?

- A. Raw event logs are validated, organized, and compiled into datasets - like timestamped user actions - which then support system debugging.
- B. Raw event logs are stored, archived, and indexed - like by user ID and session - which then facilitate audit trails.
- C. Raw event logs are structured, analyzed, and interpreted into information - like conversion rates by product - which then builds knowledge of customer preferences.
- D. Raw event logs are filtered, aggregated, and formatted into summaries - like total visits per category - which then provide traffic reports.
