

2026 C-BW4H-2505 Valid Test Forum Free PDF | High-quality C-BW4H-2505 New Dumps Book: SAP Certified Associate - Data Engineer - SAP BW/4HANA

UNIVERSITY OF LIMPOPO

FACULTY OF MANAGEMENT AND LAW
SCHOOL OF ACCOUNTANCY
DEPARTMENT OF FINANCIAL MANAGEMENT

TEST 1

03 MARCH 2026

MODULE: CBEN011

(BUSINESS ENGLISH)

TIME: 2½ HOURS

MARKS: 75

LECTURER: Mr T.B SEMONO

MODERATOR: Dr M.R MAMABOLO

SECOND MODERATOR: Mr T.V MESO

THIS PAPER CONSISTS OF ... 6... PAGES INCLUDING COVER PAGE

INSTRUCTIONS:

1. Answer **SECTION A – C (Question 1 - 3)** on the Answer Book sheets and **Section D (Question 4)** on MS Word and submit on Blackboard
2. Answer all questions in the Question Paper
3. Adhere to question-specific instructions
4. Where applicable, the length of your discussion answers must be guided by the allocated mark
5. Write neatly and legibly
6. **Ensure that your MS Word document is successfully uploaded on Blackboard before you leave the Test Venue. Ask for assistance in case of any uploading difficulties**

Using the SAP C-BW4H-2505 updated product of Braindumpsqa will result in cracking the C-BW4H-2505 real test on the first try. The reliability and accuracy of our SAP C-BW4H-2505 practice questions make us one of the trusted brands in the market. Braindumpsqa proudly presents you with an C-BW4H-2505 Exam Dumps that carry actual SAP C-BW4H-2505 questions.

Contrary to the high prices of the other exam materials available online, our C-BW4H-2505 exam questions can be obtained on an affordable price yet their quality and benefits beat all similar products of our competitors. Some of our customer will be surprised to find that the price of our C-BW4H-2505 Study Guide is too low to believe for they had been charged a lot before on the other websites. But after they passed their exams with our C-BW4H-2505 preparation materials. They said that our C-BW4H-2505 simulating exam is proved the best alternative of the time and money.

2026 C-BW4H-2505 Valid Test Forum - The Best SAP SAP Certified Associate - Data Engineer - SAP BW/4HANA - C-BW4H-2505 New Dumps

Book

Successful people are those who never stop advancing. They are interested in new things and making efforts to achieve their goals. If you still have dreams and never give up, you just need our C-BW4H-2505 actual test guide to broaden your horizons and enrich your experience you can enjoy the first-class after sales service. Whenever you have questions about our C-BW4H-2505 Actual Test guide, you will get satisfied answers from our online workers through email. We are responsible for all customers. All of our C-BW4H-2505 question materials are going through strict inspection. The quality completely has no problem. The good chance will slip away if you still hesitate.

SAP C-BW4H-2505 Exam Syllabus Topics:

| Topic | Details |
|---------|---|
| Topic 1 | <ul style="list-style-type: none">• SAP BW• 4HANA Project and the Modeling Process: This section of the exam assesses how Data Engineers guide and contribute to SAP BW• 4HANA projects. It includes knowledge of modeling workflows, project lifecycle stages, and collaboration strategies within project teams. |
| Topic 2 | <ul style="list-style-type: none">• Data Acquisition into SAP BW• 4HANA: This section tests how Data Engineers manage data integration into SAP BW• 4HANA from multiple sources. It covers essential knowledge of tools and processes used for data extraction, transformation, and loading into the SAP environment. |
| Topic 3 | <ul style="list-style-type: none">• SAP BW Query Design: This section of the exam assesses the ability of Data Engineers to create and run queries using SAP BW• 4HANA. It evaluates how well candidates can work with query components to retrieve and structure data effectively for reporting and analysis. |
| Topic 4 | <ul style="list-style-type: none">• Fundamentals: This section of the exam measures the foundational understanding of SAP Consultants and covers essential terms and concepts related to SAP BW• 4HANA and SAP Business Data Cloud. It focuses on the core framework and architecture necessary to navigate and work with these platforms. |
| Topic 5 | <ul style="list-style-type: none">• Native SAP HANA Modeling: This section evaluates the ability of SAP Consultants to describe and apply native modeling options in SAP HANA. It emphasizes understanding how to build optimized data structures directly within the HANA platform. |

SAP Certified Associate - Data Engineer - SAP BW/4HANA Sample Questions (Q58-Q63):

NEW QUESTION # 58

What are prerequisites for S-API Extractors to load data directly into SAP Datasphere core tenant using delta mode? Note: There are 2 correct answers to this question.

- **A. Operational Data Provisioning (ODP) must be enabled**
- B. Real-time access needs to be enabled
- **C. A primary key needs to exist.**
- D. Extractor must be based on a function module

Answer: A,C

Explanation:

To load data directly into SAP Datasphere (formerly known as SAP Data Warehouse Cloud) core tenant using delta mode via S-API Extractors, certain prerequisites must be met. Let's evaluate each option:

* Option A: Real-time access needs to be enabled. Real-time access is not a prerequisite for delta mode loading. Delta mode focuses on incremental data extraction and loading, which does not necessarily require real-time capabilities. Real-time access is more relevant for scenarios where immediate data availability is critical.

* Option B: A primary key needs to exist. A primary key is essential for delta mode loading because it uniquely identifies records in

the source system. Without a primary key, the system cannot determine which records have changed or been added since the last extraction, making delta processing impossible.

* Option C: Extractor must be based on a function module. While many S-API Extractors are based on function modules, this is not a strict requirement for delta mode loading. Extractors can also be based on other mechanisms, such as views or tables, as long as they support delta extraction.

* Option D: Operational Data Provisioning (ODP) must be enabled. ODP is a critical prerequisite for delta mode loading. It provides the infrastructure for managing and extracting data incrementally from SAP source systems. Without ODP, the system cannot track changes or deltas effectively, making delta mode loading infeasible.

References: SAP Datasphere Documentation: Outlines the prerequisites for integrating data from SAP source systems using delta mode.

SAP Help Portal: Provides detailed information on S-API Extractors and their requirements for delta processing.

SAP Best Practices for Data Integration: Highlights the importance of primary keys and ODP in enabling efficient delta extraction.

In conclusion, the two prerequisites for S-API Extractors to load data into SAP Datasphere core tenant using delta mode are the existence of a primary key and the enabling of Operational Data Provisioning (ODP).

NEW QUESTION # 59

Which of the Augmented Analytics Smart Features in SAP Analytics Cloud generates multi-tabbed stories with Overview, Key Influencers, Unexpected Values, and Simulation tabs?

- A. Predictive Forecast
- B. Smart Predict
- C. Smart Discovery
- D. Search to Insight

Answer: C

NEW QUESTION # 60

Why is the start process a special type of process in a process chain? Note: There are 2 correct answers to this question.

- A. It can be left out when the Process Chain is embedded in a meta chain.
- B. It can be a successor of another process.
- C. Only one start process is allowed for each process chain.
- D. It is the only process that can be scheduled without a predecessor.

Answer: C,D

NEW QUESTION # 61

What are benefits of separating master data from transactional data in SAP BW/4HANA? Note: There are 3 correct answers to this question.

- A. Providing language-dependent master data texts
- B. Ensuring referential integrity on your transactional data
- C. Allowing different data load frequency
- D. Reducing the number of database tables
- E. Avoiding generation of SID values

Answer: A,B,C

NEW QUESTION # 62

You want to set up the replication process for the SAP Landscape Transformation Replication Server. Which actions can you define for a specific table? Note: There are 3 correct answers to this question.

- A. Change or enrich the table structure
- B. Convert Unicode to non-Unicode
- C. Set the reading type and portion sizes
- D. Apply customizing settings to the database redo logs
