## 準確的220-1102最新試題 | 第一次嘗試易於學習和通過考試和權威220-1102: CompTIA A+ Certification Exam: Core 2

你對NewDumps瞭解多少呢？你有沒有用過NewDumps的CompTIA考試考古題，或者你有沒有聽到周圍的人提到過NewDumps的考試資料呢？作為CompTIA認證考試的相關資料的專業提供者，NewDumps肯定是你見過的最好的網站。為什麼可以這麼肯定呢？因為再沒有像NewDumps這樣的網站，既可以提供給你最好的資料保證你通過220-1102考試，又可以提供給你最優質的服務，讓你100%地滿意。

### 最新的 A+ 220-1102 免費考試真題 (Q440-Q445):

#### 問題 #440

A PC is taking a long time to boot Which of the following operations would be best to do to resolve the issue at a minimal expense? (Select two).

- A. Installing a faster SSD
- B. Installing additional RAM
- C. Defragmenting the hard drive
- D. Ending the processes in the Task Manager
- E. Running the Disk Cleanup utility
- F. Removing the applications from startup

答案：E,F

解題說明：

The best operations to do to resolve the issue of a long boot time at a minimal expense are B. Removing the applications from startup and D. Running the Disk Cleanup utility. These are two simple and effective ways to speed up your PC's boot time without spending any money on hardware upgrades.

Removing the applications from startup means preventing unnecessary programs from launching automatically when you turn on your computer. This can reduce the load on your system resources and make the boot process faster. You can do this in Windows 10 by pressing Ctrl + Alt + Esc to open the Task Manager, and going to the Startup tab. There, you can see a list of programs that start with your computer, and their impact on the startup performance. You can disable any program that you don't need by right-clicking on it and choosing Disable<sup>12</sup>.

Running the Disk Cleanup utility means deleting temporary files, system files, and other unnecessary data that may be taking up space and slowing down your computer. This can free up some disk space and improve the performance of your system. You can do this in Windows 10 by typing disk cleanup in the search box and selecting the Disk Cleanup app. There, you can choose which files you want to delete, such as Recycle Bin, Temporary Internet Files, Thumbnails, etc. You can also click on Clean up system files to delete more files, such as Windows Update Cleanup, Previous Windows installation(s), etc<sup>34</sup>.

#### 問題 #441

A user's smartphone data usage is well above average. The user suspects an installed application is transmitting data in the background. The user would like to be alerted when an application attempts to communicate with the internet. Which of the following BEST addresses the user's concern?

- A. Antivirus
- B. Operating system updates
- C. Firewall
- D. Remote wipe

答案： A

#### 問題 #442

An Internet cafe has several computers available for public use. Recently, users have reported the computers are much slower than they were the previous week. A technician finds the CPU is at 100% utilization, and antivirus scans report no current infection. Which of the following is MOST likely causing the issue?

- A. A cryptominer is verifying transactions.
- B. Files were damaged from a cleaned virus infection.
- C. Spyware is redirecting browser searches.
- D. A keylogger is capturing user passwords.

答案： A

解題說明：

A cryptominer is a malicious program that uses the CPU resources of a computer to generate cryptocurrency, such as Bitcoin or Ethereum. This can cause the CPU to run at 100% utilization and slow down the system.

Spyware, virus and keylogger are other types of malware, but they do not necessarily cause high CPU usage.

#### 問題 #443

Which of the following script types is used with the Python language by default?

- A. .py
- B. .bat
- C. .vbs
- D. .ps1

答案： A

解題說明：

The script type that is used with the Python language by default is .py. .py is a file extension that indicates a Python script file that contains Python code that can be executed by a Python interpreter or compiler. Python is a high-level, general-purpose and

interpreted programming language that can be used for various applications, such as web development, data analysis, machine learning and automation. .ps1 is a file extension that indicates a PowerShell script file that contains PowerShell code that can be executed by a PowerShell interpreter or compiler. PowerShell is a task-based, command-line and scripting language that can be used for system administration and automation on Windows systems. .vbs is a file extension that indicates a VBScript file that contains VBScript code that can be executed by a VBScript interpreter or compiler. VBScript is an Active Scripting language that can be used for web development and automation on Windows systems. .bat is a file extension that indicates a batch file that contains a series of commands that can be executed by a command-line interpreter or shell on Windows systems. Batch files can be used for system administration and automation on Windows systems. Reference: CompTIA A+ Core 2 (220-1102) Certification Exam Objectives Version 4.0, Domain 4.3

#### 問題 #444

An employee lost a smartphone and reported the loss to the help desk. The employee is concerned about the possibility of a breach of private data. Which of the following is the best way for a technician to protect the data on the phone?

- A. Remote wipe
- B. Remote access
- C. Remote encrypt
- D. Remote lock

答案： A

解題說明：

When a smartphone is lost, especially one that might contain sensitive or private data, the primary concern is to ensure that any data on the device cannot be accessed by unauthorized persons. Among the options provided:

Remote lock: This option will lock the device remotely, preventing access. However, it does not remove the data and might not be effective if the device is powered off or reset.

Remote wipe: This is the best option as it allows the technician to erase all data from the device remotely, ensuring that sensitive information is not accessible to anyone who finds or steals the device.

Remote access: This option would allow a technician to access the device remotely, but it would not directly prevent unauthorized access or data breaches.

Remote encrypt: Encrypting the device remotely might not be possible if the device is not accessible or turned on, and it does not remove existing data which could be at risk.
