Desktop and Web-based Cisco Practice Exams - Boost Confidence with Real 350-401 Exam Simulations

The time for 350-401 test certification is approaching. If you do not prepare well for the Cisco certification, please choose our 350-401 exam test engine. You just need to spend 20-30 hours for study and preparation, then confident to attend the actual test. If you have any question about 350-401 study pdf, please contact us at any time. The online chat button is at the right bottom of the Exam4Docs page. Besides, we guarantee money refund policy in case of failure.

The Cisco 350-401 exam consists of 90-110 questions and candidates are given 120 minutes to complete it. The questions are a mix of multiple-choice, drag-and-drop, and simulations. Candidates must achieve a passing score of 825-850 out of 1000 to earn the certification.

To prepare for the Cisco 350-401 ENCOR exam, candidates should have a solid understanding of networking basics, including TCP/IP, routing, and switching. They should also have experience with Cisco networking devices and technologies, such as routers, switches, firewalls, and VPNs. Cisco offers a range of training courses, study materials, and practice exams to help candidates prepare for the exam.

Cisco 350-401 Certification is a valuable credential that can help IT professionals advance their careers in the networking industry. Implementing Cisco Enterprise Network Core Technologies (350-401 ENCOR) certification demonstrates that the individual has the skills and knowledge to work with complex enterprise networks and implement cutting-edge technologies to improve network performance and security. Implementing Cisco Enterprise Network Core Technologies (350-401 ENCOR) certification can lead to better job opportunities, higher salaries, and recognition within the industry.

Cisco Implementing Cisco Enterprise Network Core Technologies (350-401 ENCOR) Sample Questions (Q250-Q255):

NEW QUESTION # 250

Drag and drop the LISP components on the left to the correct description on the right

ETR	network infrastructure component that learns of EID-prefix mapping entries from an ETR
map server	IPv4 or IPv6 address of an endpoint within a LISP site
EID	de-encapsulates LISP packets coming from outside of the LISP site to destinations inside of the site

Answer:

Explanation:

https://www.cisco.com/c/en/us/td/docs/ios-xml/ios/iproute_lisp/configuration/xr-3s/ir-l-xe-3s-book/irloverview.html#GUID-92481C7B-F44D-4D8C-8085-A2E98530CA50

NEW QUESTION # 251

What are two common sources of interference for WI-FI networks? (Choose two.)

- A. fire alarm
- B. radar
- C. conventional oven
- D. LED lights
- E. rogue AP

Answer: B,E

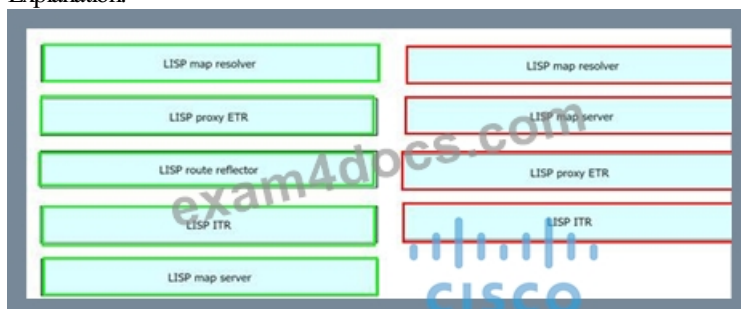

NEW QUESTION # 252

Drag and drop the LISP components from the left onto the function they perform on the right. Not all options are used.

LISP map resolver	accepts LISP encapsulated map requests
LISP proxy ETR	learns of EID prefix mapping entries from an ETR
LISP route reflector	receives traffic from LISP sites and sends it to non-LISP sites
LISP ITR	receives packets from site-facing interfaces
LISP map server	

Answer:

Explanation:

NEW QUESTION # 253

A network engineer is adding an additional 10Gbps link to an exiting 2x10Gbps LACP-based LAG to augment its capacity. Network standards require a bundle interface to be taken out of service if one of its member links goes down, and the new link must be added with minimal impact to the production network. Drag and drop the tasks that the engineer must perform from the left into the sequence on the right. Not all options are used.

Execute the channel-group number mode active command to add the 10Gbps link to the existing bundle.	step 1
Execute the channel-group number mode on command to add the 10Gbps link to the existing bundle.	step 2
Execute the lacp min-bundle 3 command to set the minimum number of ports threshold.	step 3
Validate the network layer of the 10Gbps link.	step 4
Execute the channel-group number mode auto command to add the 10Gbps link to the existing bundle.	
Validate the physical and data link layers of the 10Gbps link.	

Answer:

Explanation:

Execute the channel-group number mode active command to add the 10Gbps link to the existing bundle.	Validate the physical and data link layers of the 10Gbps link.
Execute the channel-group number mode on command to add the 10Gbps link to the existing bundle.	Execute the channel-group number mode active command to add the 10Gbps link to the existing bundle.
Execute the lacp min-bundle 3 command to set the minimum number of ports threshold.	Execute the lacp min-bundle 3 command to set the minimum number of ports threshold.
Validate the network layer of the 10Gbps link.	Validate the network layer of the 10Gbps link.
Execute the channel-group number mode auto command to add the 10Gbps link to the existing bundle.	
Validate the physical and data link layers of the 10Gbps link.	

Explanation:

A picture containing diagram Description automatically generated

Execute the channel-group number mode active command to add the 10Gbps link to the existing bundle.	step 1
Execute the channel-group number mode on command to add the 10Gbps link to the existing bundle.	step 2
Execute the lacp min-bundle 3 command to set the minimum number of ports threshold.	step 3
Validate the network layer of the 10Gbps link.	step 4
Execute the channel-group number mode auto command to add the 10Gbps link to the existing bundle.	
Validate the physical and data link layers of the 10Gbps link.	

NEW QUESTION # 254

Drag and drop the characteristics from the left onto the technology types on the right.

This type of technology provides automation across multiple technologies and domains.	Configuration Management
This type of technology enables consistent configuration of infrastructure resources.	
Puppet is used for this type of technology.	Orchestration
Ansible is used for this type of technology.	

Answer:

Explanation:

This type of technology provides automation across multiple technologies and domains.	Configuration Management
This type of technology enables consistent configuration of infrastructure resources.	
Puppet is used for this type of technology.	Orchestration
Ansible is used for this type of technology.	

NEW QUESTION # 255

.....

We provide three versions of 350-401 study materials to the client and they include PDF version, PC version and APP online version. Different version boosts own advantages and using methods. The content of 350-401 exam torrent is the same but different version is suitable for different client. For example, the PC version of 350-401 study materials supports the computer with Windows system and its advantages includes that it simulates real operation exam environment and it can simulates the exam and you can attend time-limited exam on it. And whatever the version is the users can learn the 350-401 Guide Torrent at their own pleasures. The titles and the answers are the same and you can use the product on the computer or the cellphone or the laptop.
