## AD0-E117 Latest Training | New AD0-E117 Exam Practice

Nowadays a lot of people start to attach importance to the demo of the study materials, because many people do not know whether the AD0-E117 study materials they want to buy are useful for them or not, so providing the demo of the study materials for all people is very important for all customers. A lot of can have a good chance to learn more about the AD0-E117 Study Materials that they hope to buy.

Adobe AD0-E117 Exam is a challenging test that requires candidates to have practical experience in AEM. It is not a theoretical exam but rather a practical one, which means that candidates must have hands-on experience in designing and implementing AEM solutions. Candidates must be able to demonstrate their ability to solve complex problems and provide effective solutions using AEM.

## Adobe Experience Manager Architect Master Sample Questions (Q42-Q47):

### NEW QUESTION # 42

A customer with a large volume of assets and site pages needs to upgrade from AEM 6.4 with MongoMK installation to AEM 6.5 MongoMK. The architect recommends reindexing and the customer wants to keep downtime in the production environment minimal during the upgrade process.

Which two options would the architect choose? (Choose two.)

- A. Run the offline indexing process on the MongoDB replica
- B. Use crx2oak jar with -doc-traversal command line parameter
- C. Use oak-run jar with -doc-traversal command line parameter
- D. Run the online indexing process on the MongoDB replica

Answer: A,D

#### NEW QUESTION # 43

A media company surveys the end users of their AEM Sites website. The survey identifies that it is difficult to locate content on the site due to lack of relevancy and slow performance when navigating through the large volume of content. To address both issues, the business team suggests integrating an innovative taxonomy product to the company's AEM implementation. The product is new on the market and the development team has no experience with the technology. Which two steps should an Architect recommend to evaluate this new feature? (Choose two.)

- A. Test usability of the feature with selected business users
- B. Develop the integration as proof of concept with full production content
- C. Test usability of the feature with selected end users
- D. Develop the integration as proof of concept with sample content
- E. Develop the integration and deploy it to 50% of the production AEM instances

**Answer: C,D**

Explanation:

"developing a proof of concept with sample content allows for testing the feasibility and performance of the integration without affecting production data. Testing usability with selected end users allows for validating the relevancy and user satisfaction of the feature".

#### NEW QUESTION # 44

An AEM Sites implementation is migrating from on-premise to AEM as a Cloud Service. Previously, the application was deployed in a single package for both code and access policy nodes. After initial deployment and testing in the new infrastructure, it is reported that user permissions are not working as expected.

What change should the Architect make to address this issue?

- A. Move access policy nodes to a dedicated package and install manually
- B. Document permissions and request the Customer Success Engineer to configure
- C. Update package metadata to use MergePreserve for handling access policy nodes
- D. Refactor access policy nodes to Apache Sling JCR Repoint scripts in the same package

**Answer: D**

Explanation:

Refactor access policy nodes to Apache Sling JCR Repoint scripts in the same package<sup>1</sup>. According to Adobe Experience Manager documentation<sup>23</sup>, access policy nodes are used to control who can access a policy-protected document. However, they are not supported by AEM as a Cloud Service and need to be refactored using Apache Sling JCR Repoint scripts.

#### NEW QUESTION # 45

A company with various departments wants to use tagging to improve search capability. Each department is restricted to use its own tags. How should an Architect organize the tags?

- A. Create a department sub-tag in each tag
- B. Create a namespace for each department
- C. Create tags in "departmentName:tagName" format
- D. Use department ID as a prefix of each tag

**Answer: B**

#### NEW QUESTION # 46

A client designs a new experience for one of their brand sites with the following parameters:

- \* The new experience should behave like a desktop application
  - \* There is a lot of dynamic content in the app
  - \* SEO and initial page load are a top concern for the client
  - \* The client's marketing team needs to be able to author the content with a WYSIWYG editor
- Which approach should the Architect use to meet these requirements?

- A. Create a set of API-driven components
- B. Use AEM as a headless CMS
- C. Use the traditional server side components on the website
- D. Use the SPA Editor SDK with Server Side Rendering

Answer: A

## NEW QUESTION # 47
