

# 100% Pass Quiz 2026 Efficient Splunk Free SPLK-3002 Study Material

BONUS!!! Download part of Itcertmaster SPLK-3002 dumps for free: [https://drive.google.com/open?id=11CrG\\_oqbQDb7DS1I-wp5a7ivsijkQfOW](https://drive.google.com/open?id=11CrG_oqbQDb7DS1I-wp5a7ivsijkQfOW)

We truly treat our customers with the best quality service and the most comprehensive SPLK-3002 exam pdf, that's why we enjoy great popularity among most IT workers. When you want to learn something about the SPLK-3002 Online Training, our customer assisting will be available for you. We will offer you the best preparation materials regarding SPLK-3002 practice exam. You can totally trust our dumps and service.

You can also become part of this skilled and qualified community. To do this just enroll in the Splunk IT Service Intelligence Certified Admin Exam and start preparation with real and valid SPLK-3002 practice test questions right now. The Splunk IT Service Intelligence Certified Admin practice test questions are checked and verified by experienced and qualified SPLK-3002 Exam trainers. So you can trust Itcertmaster Splunk IT Service Intelligence Certified Admin practice test questions and start preparation with confidence.

## Top Free SPLK-3002 Study Material - How to Prepare for Splunk SPLK-3002 In Short Time

Itcertmaster dumps has high hit rate that will help you to pass Splunk SPLK-3002 test at the first attempt, which is a proven fact. So, the quality of Itcertmaster practice test is 100% guarantee and Itcertmaster dumps torrent is the most trusted exam materials. If you won't believe us, you can visit our Itcertmaster to experience it. And then, I am sure you must choose Itcertmaster exam dumps.

## Splunk IT Service Intelligence Certified Admin Sample Questions (Q75-Q80):

### NEW QUESTION # 75

Which index will contain useful error messages when troubleshooting ITSI issues?

- A. \_introspection
- B. **\_internal**
- C. itsi\_notable\_audit
- D. itsi\_summary

**Answer: B**

Explanation:

Reference:

The index that will contain useful error messages when troubleshooting ITSI issues is:

B) `_internal`. This is true because the `_internal` index contains logs and metrics generated by Splunk processes, such as `splunkd` and `metrics.log`. These logs can help you diagnose problems with your Splunk environment, including ITSI components and features. The other indexes will not contain useful error messages because:

A) `_introspection`. This is not true because the `_introspection` index contains data about Splunk resource usage, such as CPU, memory, disk space, and so on. These data can help you monitor the performance and health of your Splunk environment, but not the error messages.

C) `itsi_summary`. This is not true because the `itsi_summary` index contains summarized data for your KPIs and services, such as health scores, severity levels, threshold values, and so on. These data can help you analyze the trends and anomalies of your IT services, but not the error messages.

D) `itsi_notable_audit`. This is not true because the `itsi_notable_audit` index contains audit data for your notable events and episodes, such as creation time, owner

#### NEW QUESTION # 76

Which of the following is a good use case for a Multi-KPI alert?

- A. Alerting when the values of two or more KPIs go into maintenance mode.
- B. Alerting when the trend of two or more KPIs indicates service failure is imminent.
- C. Alerting when two or more KPIs are deviating from their typical pattern.
- D. Alerting when comparing the values of two or more KPIs indicates an unusual condition is occurring.

**Answer: D**

Explanation:

A Multi-KPI alert in Splunk IT Service Intelligence (ITSI) is designed to trigger based on the conditions of multiple Key Performance Indicators (KPIs). This type of alert is particularly useful when a single KPI's state is not sufficient to indicate an issue, but the correlation between multiple KPIs can provide a clearer picture of an emerging problem. The best use case for a Multi-KPI alert is therefore when comparing the values of two or more KPIs indicates an unusual condition is occurring. This allows for more nuanced and context-rich alerting mechanisms that can identify complex issues not detectable by monitoring individual KPIs. This approach is beneficial in complex environments where the interplay between different performance metrics needs to be considered to accurately detect and diagnose issues.

#### NEW QUESTION # 77

Which of the following items describe ITSI Backup and Restore functionality? (Choose all that apply.)

- A. ITSI backups are stored as a collection of JSON formatted files.
- B. `kvstore_to_json.py` can be used in scripts or command line to backup ITSI for full or partial backups.
- C. ITSI backup is inclusive of KV Store, ITSI Configurations, and index dependencies.
- D. A pre-configured default ITSI backup job is provided that can be modified, but not deleted.

**Answer: A,B**

Explanation:

ITSI provides a `kvstore_to_json.py` script that lets you backup/restore ITSI configuration data, perform bulk service KPI operations, apply time zone offsets for ITSI objects, and regenerate KPI search schedules.

When you run a backup job, ITSI saves your data to a set of JSON files compressed into a single ZIP file.

Reference:

<https://docs.splunk.com/Documentation/ITSI/4.10.2/Configure/kvstorejson>

<https://docs.splunk.com/Documentation/ITSI/4.10.2/Configure/BackupandRestoreITSIconfig> C and D are correct answers because ITSI backup and restore functionality uses `kvstore_to_json.py` as a command line script or as part of custom scripts to backup ITSI data for full or partial backups. ITSI backups are also stored as a collection of JSON formatted files that contain KV store objects such as services, KPIs, glass tables, etc. A is not a correct answer because there is no pre-configured default ITSI backup job provided. You can create your own backup jobs or use the command line script or custom scripts to backup ITSI data. B is not a correct answer because ITSI backup is not inclusive of index dependencies. ITSI backup only includes KV store objects and optionally some `.conf` files. You need to use other methods to backup index data. References: [Overview of backing up and restoring ITSI KV store data], [Create a full backup of ITSI], [Create a partial backup of ITSI]

#### NEW QUESTION # 78

Which of the following accurately describes base searches used for KPIs in a service?

- A. All the KPIs in a service use the same base search.
- **B. Base searches can be used for multiple services.**
- C. All the metrics in a base search are used by one service.
- D. A base search can only be used by its service and all dependent services.

**Answer: B**

Explanation:

Explanation

KPI base searches let you share a search definition across multiple KPIs in IT Service Intelligence (ITSI).

Create base searches to consolidate multiple similar KPIs, reduce search load, and improve search performance.

#### **NEW QUESTION # 79**

What is the minimum number of entities a KPI must be split by in order to use Entity Cohesion anomaly detection?

- A. 0
- B. 1
- **C. 2**
- D. 3

**Answer: C**

Explanation:

For Entity Cohesion anomaly detection in Splunk IT Service Intelligence (ITSI), the minimum number of entities a KPI must be split by is 2. Entity Cohesion as a method of anomaly detection focuses on identifying anomalies based on the deviation of an entity's behavior in comparison to other entities within the same group or cohort. By requiring a minimum of only two entities, ITSI allows for the comparison of entities to detect significant deviations in one entity's performance or behavior, which could indicate potential issues. This method leverages the idea that entities performing similar functions or within the same service should exhibit similar patterns of behavior, and significant deviations could be indicative of anomalies. The low minimum requirement of two entities ensures that this powerful anomaly detection feature can be utilized even in smaller environments.

#### **NEW QUESTION # 80**

.....

Our SPLK-3002 exam guide are not only rich and varied in test questions, but also of high quality. A very high hit rate gives you a good chance of passing the final SPLK-3002 exam. According to past statistics, 98 % - 99 % of the users who have used our SPLK-3002 Study Materials can pass the exam successfully. So without doubt, you will be our next passer as well as long as you buy our SPLK-3002practice braindumps.
