Many don't find real Microsoft Power Platform Developer exam questions and face loss of money and time. Test4Sure made an absolute gem of study material which carries actual Microsoft Power Platform Developer (PL-400) Exam Questions for the students so that they don't get confused in order to prepare for Microsoft Power Platform Developer (PL-400) exam and pass it with a good score. The PL-400 practice test questions are made by examination after consulting with a lot of professionals and receiving positive feedback from them.

Microsoft PL-400 exam is the perfect certification for individuals who want to establish their proficiency in developing solutions using the Microsoft Power Platform. The PL-400 exam is designed to validate the skills and knowledge required for building applications on the Power Platform, including Power Apps, Power BI, Power Automate, and Power Virtual Agents. Candidates who pass the PL-400 exam will earn the Microsoft Certified: Power Platform Developer Associate certification.

Get to know about the best source for the preparation of the exam:

Students who want to pass the PL-400 exam should consider the use of the Microsoft Official Academic Course (MOAC) that is offered by Microsoft. Remember that, this is an official course that provides a lot of information about this certification test and covers all the required topics and skills one needs to pass this specific exam. Marketing skills, solid knowledge related to the Windows operating system, and data management skills are some of the other skills you will learn from this course.

Aspirants can attend one of the several MOAC sessions in a particular region. Connectors are available with most of the Microsoft training center partners. All these resources have a lot of knowledge, but to read from all these resources is tricky, time taken, needs more focus, and hard work. So for your ease, our knowledgeable expert's team has arranged a set of scenario-based practice exams for the PL-400 Exam, which is the blend of all the resources described above. These practice exams are called **PL-400 Dumps**. Accounting students prefer to take the PL-400 VCE exam dumps for their exam preparation. This tool provides all the knowledge required to pass this exam.

Publish your exam result in the VCE demo, practice exam, and get certified quickly. Integrations of all learning resources and practice exams will help you pass your exam on the first try. The division of the practice test is according to the exam objectives. Plug-ins and a table of contents will help you get familiar with the learning process and material.

2026 Professional PL-400 – 100% Free Pdf Torrent | Microsoft Power Platform Developer PDF Questions

As the old saying goes people change with the times. People must constantly update their stocks of knowledge and improve their practical ability. Passing the test PL-400 certification can help you achieve that and buying our PL-400 test practice dump can help

you pass the test smoothly. Our PL-400 study question is superior to other same kinds of study materials in many aspects. Our products' test bank covers the entire syllabus of the test and all the possible questions which may appear in the test. Each question and answer has been verified by the industry experts. The research and production of our PL-400 Exam Questions are undertaken by our first-tier expert team

Microsoft PL-400 is an exam that measures the skills and abilities of individuals in developing solutions using Microsoft Power Platform. PL-400 exam is designed to validate the knowledge of developers who use Power Platform to create, customize, and extend Microsoft Dynamics 365 and Microsoft Power Apps solutions. PL-400 Exam is also intended for developers who are responsible for designing and implementing custom business workflows and integrating with external systems.

Microsoft Power Platform Developer Sample Questions (Q216-Q221):

NEW QUESTION # 216

A company is preparing to go live with their Dynamics 365 Sales solution, but first they need to migrate data from a legacy system. The company is migrating accounts in batches of 1,000.

When the data is saved to Dynamics 365 Sales, the IDs for the new accounts must be output to a log file.

You have the following code:

☐ For each of the following statements, select Yes if the statement is true. Otherwise, select No.

☐

Answer:

Explanation:

☐ Reference:

<https://docs.microsoft.com/en-us/powerapps/developer/common-data-service/org-service/execute-multiple-requests>

NEW QUESTION # 217

An organization has a custom Assignments entity that guides agent actions. Team leaders for each assignment group must be able to review any changes made to assignment data by their agents.

You have the following JSON segment:

☐ For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

☐

Answer:

Explanation:

☐ Explanation

☐

Box 1: Yes

Delta query lets you query for additions, deletions, or updates to users, by way of a series of delta function calls. Delta query enables you discover changes to users without having to fetch the entire set of users from Microsoft Graph and compare changes.

Box 2: No

Tracking user changes

Tracking user changes is a round of one or more GET requests with the delta function. You make a GET request much like the way you list users, except that you include the following:

The delta function.

A state token (deltaToken or skipToken) from the previous GET delta function call.

Delta tokens are only valid for a specific period before the client application needs to run a full synchronization again. For directory objects (application, administrativeUnit, directoryObject, directoryRole, group, orgContact, oauth2permissiongrant, servicePrincipal, and user), the limit is 7 days.

Box 3: No

There is limited support for \$filter:

The only supported \$filter expression is for tracking changes on a specific object: \$filter=id+eq+{value}.

Box 4: Yes

NEW QUESTION # 218

You need to create an application to deploy to other pharmacies.

What should you do?

- A. Write a Web API to move customizations.
- **B. Export the solution as a managed solution.**
- C. Create a customer connector to connect the pharmacies' systems to the company's systems.
- D. Recreate customizations in a new environment.

Answer: B

Explanation:

When you export a managed solution, it contains all the changes that have been applied for that solution into a file that you can then import into a different Dataverse environment.

Reference:

<https://docs.microsoft.com/en-us/powerapps/developer/data-platform/introduction-solutions>

NEW QUESTION # 219

You plan to create a canvas app to manage large sets of records. Users will filter and sort the data.

You must implement delegation in the canvas app to mitigate potential performance issues.

You need to recommend data sources for the app.

Which two data sources should you recommend? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Azure Table Storage
- B. Azure Data Factory
- **C. SQL Server**
- **D. Common Data Service**

Answer: C,D

Explanation:

Delegation is supported for certain tabular data sources only. If a data source supports delegation, its connector documentation outlines that support. For example, these tabular data sources are the most popular, and they support delegation:

Power Apps delegable functions and operations for Microsoft Dataverse

Power Apps delegable functions and operations for SharePoint

Power Apps delegable functions and operations for SQL Server

Power Apps delegable functions and operations for Salesforce

reason 1--> Azure data factory is not mentioned in MS documentation

reason 2 --> Azure is not an actual data (questions asks for data sources) source but ETL a service for scale-out serverless data integration and data transformation.

<https://docs.microsoft.com/en-gb/powerapps/maker/canvas-apps/delegation-overview>

NEW QUESTION # 220

A company has a canvas app that has a screen with a gallery of contacts.

Users must be able to search the gallery by last name, email address, and country/region. They must also be able to sort by last name, followed by country/region.

You need to define the expression that meets the requirements.

How should you complete the expression? To answer, select the appropriate options from the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:
