

Newest Valid 300-420 Study Guide - 100% Pass 300-420 Exam

BONUS!!! Download part of ActualTestsQuiz 300-420 dumps for free: <https://drive.google.com/open?id=1C4rv27ZNNRXYfXsxx2WTGCR1cI930gVp>

300-420 training materials are famous for instant access to download, and you can receive your download link and password within ten minutes after payment. And if you don't, you don't receive, you can contact with us, we will resolve it for you. Besides, we offer free demo for you, we recommend you to have a try before buying 300-420 Training Materials. You can enjoy free update for 365 days if you choose us, so that you can obtain the latest information timely. And the latest version for 300-420 exam dumps will be sent to your email automatically. You just need to receive them.

Cisco 300-420 (Designing Cisco Enterprise Networks) Certification Exam is a professional-level certification exam that focuses on the design of enterprise-level networks using Cisco technologies. 300-420 exam is intended for enterprise network designers and architects who are responsible for designing and implementing complex network solutions. Successful completion of 300-420 exam will demonstrate your knowledge and understanding of the latest Cisco technologies and best practices for designing enterprise networks.

Cisco 300-420 (Designing Cisco Enterprise Networks) certification exam is a highly sought-after certification program that is designed to test the knowledge and skills of networking professionals in designing and implementing enterprise networks. Designing Cisco Enterprise Networks certification program is aimed at network architects, network engineers, and other IT professionals who are responsible for designing and implementing enterprise networks.

Passing the Cisco 300-420 Exam leads to the Cisco Certified Specialist - Enterprise Design certification. Designing Cisco Enterprise Networks certification demonstrates that the candidate has the knowledge and skills required to design enterprise networks using Cisco technologies. It is a valuable credential for IT professionals who want to advance their careers in network design and architecture.

Reliable Valid 300-420 Study Guide & 100% Pass-rate Cheap 300-420 Dumps: Designing Cisco Enterprise Networks

No one wants to own insipid life. Do you want to at the negligible position and share less wages forever? And do you want to wait to be laid off or waiting for the retirement? This life is too boring. Do not you want to make your life more interesting? It does not matter. Today, I tell you a shortcut to success. It is to pass the Cisco 300-420 exam. With this certification, you can live the life of the high-level white-collar. You can become a power IT professionals, and get the respect from others. ActualTestsQuiz will provide you with excellent Cisco 300-420 Exam Training materials, and allows you to achieve this dream effortlessly. Are you still hesitant? Do not hesitate, Add the ActualTestsQuiz's Cisco 300-420 exam training materials to your shopping cart quickly.

Cisco Designing Cisco Enterprise Networks Sample Questions (Q358-Q363):

NEW QUESTION # 358

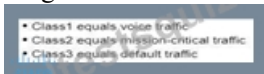

An engineer is designing a QoS solution for a campus. The design must guarantee real-time traffic delivery during congestion, minimize the bandwidth consumption for possible virus or worm attacks, and reduce flooding of excessive traffic during times of congestion. Which two solutions must the engineer select? (Choose two.)

- A. Create a shaping policy to drop excessive traffic and a strict queue for real-time traffic
- B. Apply queuing on the distribution to core links
- C. Apply queuing on the access to distribution links
- D. Create a policing policy to drop excessive traffic and a strict queue for real-time traffic
- E. Create a scavenger queue for excessive traffic and a strict queue for real-time traffic

Answer: C,E

NEW QUESTION # 359

An engineer must design an in-band management solution for a customer with branch sites. The solution must allow remote management of the branch sites using management protocols over an MPLS WAN. Queuing is implemented at the remote sites using these classes:

How must the solution prioritize the management traffic over the WAN?

- A. Mark the traffic with DSCP CS2 and map into Class2 with a minimum bandwidth assigned by reducing the bandwidth available to Class3
- B. Mark the traffic with DSCP CS6 and map into Class1 with a minimum bandwidth assigned by reducing the bandwidth available to Class2
- C. Mark the traffic with DSCP CS1 and map into Class2 with a minimum bandwidth assigned by reducing the bandwidth available to Class3.
- D. Mark the traffic with DSCP EF and map into Class1 with a minimum bandwidth assigned by reducing the bandwidth available to Class2.

Answer: A

NEW QUESTION # 360

An engineer must design a multicast network for a financial application. Most of the multicast sources also receive multicast traffic (many-to-many deployment model). To better scale routing tables, the design must not use source trees. Which multicast protocol satisfies these requirements?

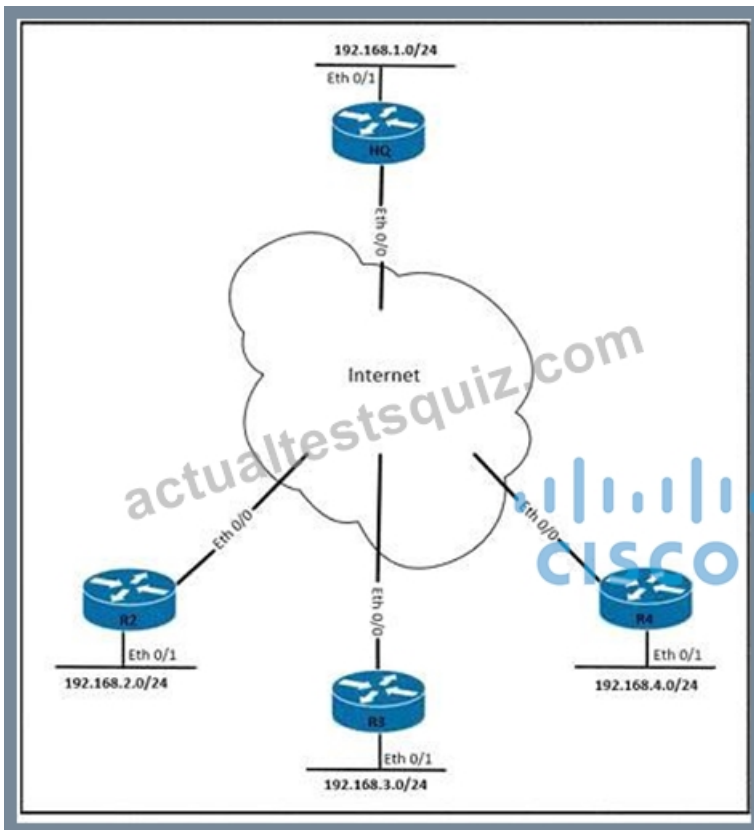

- A. PIM-SSM
- B. PIM-SM
- C. BIDIR-PIM
- D. MSDP

Answer: C

Explanation:

https://www.cisco.com/c/en/us/td/docs/ios-xml/ios/ipmulti_pim/configuration/xr-16/imc-pim-xr-16-book/imc-tech-overview.html Bidir-PIM is designed to be used for many-to-many applications within individual PIM domains. Multicast groups in bidirectional PIM mode can scale to an arbitrary number of sources without incurring overhead due to the number of sources.

NEW QUESTION # 361

Refer to the exhibit A customer wants to adopt a dynamic site-to-site VPN solution to secure communication for VoIP, video, and FTP traffic between the remote branches and the headquarters. The customer also wants the branches to communicate directly, thereby reducing traffic at the headquarters location. The solution must consider that the branch routers are limited in available memory. Which VPN solution meets these requirements?

- A. DMVPN Phase 3 Hierarchical design
- B. DMVPN Phase 1 Hub and Spoke design
- **C. DMVPN Phase 3 Hub and Spoke design**
- D. DMVPN Phase 2 Hub and Spoke design

Answer: C

NEW QUESTION # 362

A network engineer must optimize a campus OSPF deployment. Currently, each time a type 1 or type 2 LSA is generated within an area, the OSPF process must recompute the entire SPT.

Which solution improves the recomputation process?

- A. BFD
- B. SPF
- **C. iSPF**
- D. PRC

Answer: C

NEW QUESTION # 363

.....

If you are determined to enter into Cisco company or some companies who are the product agents of Cisco, a good certification will help you obtain more jobs and high positions. ActualTestsQuiz release high passing-rate 300-420 exam simulations to help you obtain certification in a short time. If you obtain a certification you will get a higher job or satisfying benefits with our 300-420 Exam Simulations. Every day there is someone choosing our exam materials. If this is what you want, why are you still hesitating?
