- A. Department
- B. Location
- C. User name
- **D. Job code**

Answer: D

Explanation:

Step by Step Explanation with exact Extract from SAP SuccessFactors Learning documents:

* Understanding Permission Groups:

* Permission Groups in SAP SuccessFactors Learning define which users have specific roles, such as Administrators, based on attributes like job code.

* Excluding HR Coordinators (B):

* The job code attribute is used to exclude specific roles (e.g., HR coordinators) from a Permission Group.

* Extract from SAP SuccessFactors Learning Documentation (SAP Help Portal, Admin Guide, Security Management):

"To exclude users from a Permission Group, use attributes like job code to define the target population. For example, exclude users with the HR coordinator job code from the Administrator group in System Administration > Security > Permission Groups."

* This confirms option B, as job code is the most appropriate attribute.

* How to Configure:

* In the Permission Group settings, administrators define exclusion rules using job code to filter out HR coordinators.

* Extract from SAP SuccessFactors Learning Documentation (SAP Help Portal, Admin Guide, Permission Group Configuration):

"In System Administration > Security > Permission Groups, create or edit a group and use the job code attribute to exclude specific roles, such as HR coordinators, from administrative permissions."

* Why Other Options are Incorrect:

* Option A (User name): User name is too specific for group-level exclusions.

"User name is used for individual user management, not group exclusions" (SAP SuccessFactors Learning Admin Guide).

- * Option C (Department): Department may include other roles, not specific enough.
"Department is broader than job code and may not target specific roles" (SAP SuccessFactors Learning Admin Guide).
- * Option D (Location): Location is unrelated to job roles like HR coordinator.
"Location is used for geographic filtering, not role-based exclusions" (SAP SuccessFactors Learning Admin Guide).
- * Conclusion:
* The job code attribute is used to exclude HR coordinators from the Permission Group, as specified in option B.
