

Pass Guaranteed Quiz 2026 SAP C-DBADM-2601: Updated SAP Certified - Database Administrator - SAP HANA Latest Test Format

Free PDF Quiz 2023 SAP C_TS4FI_2020: Pass-Sure SAP Certified Application Associate - SAP S/4HANA for Financial Accounting Associates (SAP S/4HANA 2020) Latest Practice Questions

With C_TS4FI_2020 test training materials of 2Pass4sure, you will own the key to pass C_TS4FI_2020 exam, which will make you develop better in IT. All of this just need you trust us, trust in 2Pass4sure, and trust in C_TS4FI_2020 test training materials. Our training material of C_TS4FI_2020 exam is absolutely real and reliable. What's more, the passing rate of C_TS4FI_2020 test is as high as 100%.

SAP Certified Application Associate - SAP S/4HANA for Financial Accounting Associates (SAP S/4HANA 2020) Sample Questions (Q13-Q18):

NEW QUESTION # 13

Which of the following objects are relevant to the dunning program configuration? Choose the correct answers. 3

- A. Expenses or charges
- B. Minimum amounts
- C. Bank selection
- D. Dunning levels

Answer: A,B,D

NEW QUESTION # 14

On which level are asset classes created?

- A. Company code
- B. Chart of depreciation
- C. Client
- D. Depreciation area

Answer: C

NEW QUESTION # 15

SAP S/4HANA is the digital core of the intelligent enterprise. Which applications from the SAP portfolio are integrated with SAP S/4HANA to help you manage human resources? There are 2 correct answers to this question.

- A. SAP Fieldglass
- B. SAP success factors
- C. APARiba
- D. SAP C/4HANA

There is a succession of anecdotes, and there are specialized courses. Experts call them experts, and they must have their advantages. They are professionals in every particular field. The C-DBADM-2601 test material, in order to enhance the scientific nature of the learning platform, specifically hired a large number of qualification exam experts, composed of product high IQ team, these experts by combining his many years teaching experience of C-DBADM-2601 quiz guide and research achievements in the field of the test, to exam the popularization was very complicated content of SAP Certified - Database Administrator - SAP HANA exam dumps, better meet the needs of users of various kinds of cultural level. Expert team not only provides the high quality for the C-DBADM-2601 Quiz guide consulting, also help users solve problems at the same time, leak fill a vacancy, and finally to deepen the user's impression, to solve the problem of C-DBADM-2601 test material and no longer make the same mistake.

SAP C-DBADM-2601 can ensure your success. So here comes SAP, who provides you with the SAP C-DBADM-2601 exam dumps to get your dream SAP C-DBADM-2601 certification with no hassle. SAP C-DBADM-2601 Certification will add up to your excellence in your field and leave no space for any doubts in the mind of the hiring team

2026 C-DBADM-2601 Latest Test Format | Professional SAP C-DBADM-2601: SAP Certified - Database Administrator - SAP HANA 100% Pass

If you want to do something different and stand out, you should not only work hard but also constantly strive to improve including education qualification and career certificate. C-DBADM-2601 exam simulations files can help you obtain an IT certification. As we all know IT exam cost is very high, most people have to try more than one time so that they can pass exam. If you prepare based on our C-DBADM-2601 Exam Simulations files, you will feel easy to clear exam once certainly.

SAP Certified - Database Administrator - SAP HANA Sample Questions (Q135-Q140):

NEW QUESTION # 135

CHALLENGE 1 - Plant Wave Configuration Evidence Alignment

The rollout coordinator wants to approve the next plant wave because the reporting outputs look consistent at a high level. The administration team has not confirmed whether the upgraded pilot system and newly installed wave database have comparable configuration records. Which decision best supports rollout readiness?

- A. Approve the wave and document configuration differences only if users report data delays.
- B. Approve the wave because output consistency is the strongest evidence of database readiness.
- **C. Confirm comparable configuration records before using the reporting outputs for release approval.**
- D. Use the SAP HANA Cloud provisioning record to complete the missing pilot system evidence.

Answer: C

Explanation:

Feedback:

Comparable configuration records should be confirmed before reporting outputs support release approval. The scenario requires evidence that the systems were evaluated under documented database states.

NEW QUESTION # 136

CHALLENGE 1 - Template Configuration Record Alignment

The remediation coordinator wants to release the template because sales-margin reports return results from both the upgraded central system and the newly installed database. The administration records do not yet confirm that both systems use the intended configuration state. Which decision best supports release readiness?

- A. Use the SAP HANA Cloud provisioning record to complete the missing template evidence.
- B. Release the template because report results confirm the databases are usable.
- C. Release the template and document configuration differences only if users report delays.
- **D. Confirm aligned configuration records before using report results as release evidence.**

Answer: D

Explanation:

Feedback:

Aligned configuration records should be confirmed before report results are used as release evidence. The remediation decision depends on whether the template reflects documented SAP HANA states, not only report availability.

NEW QUESTION # 137

A regional diagnostics provider uses SAP HANA for laboratory operations analytics. The administrator performs a recovery rehearsal in a validation environment. The restore completes, but the validation notes show that the recovery used a backup chain selected from a manually exported catalog snapshot. The live backup catalog contains a newer log entry that was not included in the exported snapshot. The operations manager wants to accept the rehearsal because the database opened successfully.

The constraint is that the administrator must validate recovery using evidence that reflects the current backup catalog. The rehearsal must prove the recoverable state without relying on stale catalog metadata.

What should the administrator do next?

- A. Create a new manual catalog export and attach it to the completed rehearsal without repeating recovery.
- B. Accept the rehearsal because the restored database opened successfully in the validation environment.
- **C. Rerun recovery selection using the current backup catalog, restore to the required point, and validate the recovered state.**
- D. Ignore the newer log entry because the exported catalog snapshot was available when the restore began.

Answer: C

Explanation:

Feedback:

This corrects the recovery selection dependency at the catalog evidence layer. Using the current backup catalog, restoring to the required point, and validating the result aligns catalog metadata, backup-chain selection, recovery execution, and readiness evidence.

NEW QUESTION # 138

CHALLENGE 4 - Receipt-to-Invoice Continuity During Transition Weekend

The finance team proposes a quicker overlap approach: allow local exception handling during the transition weekend so invoices can be settled faster, even if the route differs slightly by plant. The transition office wants a result that remains supportable after go-live. Which action is best aligned with the scenario?

- A. Suspend invoice validation during the weekend and rely on post-go-live cleanup for any unsettled cases
- **B. Retain the stricter receipt-to-invoice sequence and validate whether finance traceability remains intact under overlap-period conditions**
- C. Validate only goods receipt
- D. Accept local exception handling because transition weekends should prioritize speed over continuity

Answer: B

Explanation:

Feedback:

The scenario places finance traceability and overlap-period stability at the center of go-live readiness. Retaining the stricter end-to-end sequence preserves the evidence needed to confirm that invoice handling remains supportable during transition.

NEW QUESTION # 139

A regional subscription meal company runs SAP HANA for delivery forecast analytics. SAP HANA cockpit shows normal database availability, but the operations team sees that a memory consumption graph has a gap during the nightly planning run. The alert log has no critical entry, yet planners reported slower dashboard response during that same interval. A support coordinator suggests lowering the memory alert threshold to catch the next occurrence.

The constraint is that the administrator must restore trustworthy monitoring evidence before changing alert sensitivity. The next planning run must allow the team to correlate workload behavior with memory evidence.

Which action best addresses the monitoring gap?

- **A. Verify and correct the memory metric collection path, monitor the next planning run, and validate that the graph captures the interval.**
- B. Restart the database before the next planning run so the memory graph begins with a clean measurement baseline.
- C. Ignore the graph gap because no critical alert was created and the database remained available.
- D. Lower the memory alert threshold so the next planning run produces a clearer alert.

Answer: A

Explanation:

Feedback:

This acts at the monitoring evidence layer where the artifact is incomplete. Correcting metric collection and validating the next run aligns workload timing, memory evidence, troubleshooting interpretation, and later configuration decisions.

NEW QUESTION # 140

.....

In the past ten years, our company has never stopped improving the quality of our C-DBADM-2601 study materials. For a long time, we have invested much money to perfect our C-DBADM-2601 exam questions. At the same time, we have introduced the most advanced technology and researchers to perfect our C-DBADM-2601 Test Torrent. At present, the overall strength of our company is much stronger than before. We are the leader in the market and master the most advanced technology. With our high quality of C-DBADM-2601 training guide, you will pass the C-DBADM-2601 exam for sure.

Practice C-DBADM-2601 Exams: <https://www.prepawaytest.com/SAP/C-DBADM-2601-practice-exam-dumps.html>

First, you wonder if the C-DBADM-2601 braindumps for C-DBADM-2601 certification exam is accurate and valid, SAP C-DBADM-2601 Latest Test Format The rest of the time, you can use to seize more opportunities, So you can see the quality of the exam materials and we PrepAwayTest Practice C-DBADM-2601 Examsis friendly web interface, And these exam dumps will be your best tools to prepare for SAP C-DBADM-2601 exams and help you save a lot of time.

Don't let moving stop you from succeeding, C-DBADM-2601 His managerial experience is in warehousing, motor carrier operations, and ocean freight terminal operations, First, you wonder if the C-DBADM-2601 Braindumps for C-DBADM-2601 certification exam is accurate and valid.

SAP C-DBADM-2601 Questions Latest C-DBADM-2601 Dumps PDF [2026]

The rest of the time, you can use to seize more C-DBADM-2601 Visual Cert Exam opportunities, So you can see the quality of the exam materials and we PrepAwayTestis friendly web interface, And these exam dumps will be your best tools to prepare for SAP C-DBADM-2601 exams and help you save a lot of time.
