Salesforce Certified Administrator Sample Questions (Q44-Q49):

NEW QUESTION # 44
An administrator gets a rush request from Human Resources to remove a user's access to Salesforce Immediately. The user is part of a hierarchy field called Direct Manager.
What should the administrator do to fulfil the request?

- A. Change the user's profile to read-only while removing them from being referenced in the Direct Manager Field.
- B. Deactivate the user and delete any records where they are referenced in the Direct Manager field.
- C. Freeze the user to prevent them from logging in while removing them from being referenced in the Direct Manager field.
- D. Delete the user and leave all records where they referenced in the Direct Manager Field without changes.

Answer: C

Explanation:

Explanation

Freezing a user is a way to temporarily prevent them from logging in to Salesforce without deactivating their user record. This is useful when you need to perform some cleanup tasks before deactivating a user, such as removing them from being referenced in a hierarchy field like Direct Manager.

NEW QUESTION # 45

The Support team at Ursa Major Solar prefers using split list views on the case homepage. Occasionally, the team views shipments from another support application.

What should the administrator configure to allow the team to use the split list view?

- A. Include the Shipments tab on the app's navigation bar.
- B. Add the Manage List Views permission for support users.
- C. Split views are only available on standard objects.
- D. Filter by a single shipment record type in the list view.

Answer: C

Explanation:

Explanation

Split views are a feature that allows users to view records as a split list on object home pages in Lightning Experience apps that use console navigation. Split views show records in two panes: a list view pane on the left and a record detail pane on the right. Users can switch between different list views and records without losing context or scrolling. However, split views are only available on standard objects such as accounts, contacts, leads, opportunities, cases, etc., and not on custom objects such as shipments.

NEW QUESTION # 46

Cloud Kicks (CK) is partnering with a used shoe store and second-hand bicycle emporium. CK has an automated business process it wants to run once a week to count the number of open cases related to an account.

How should the administrator recommend automating this business process?

- A. Configure a scheduled flow in flow Builder.
- B. Create a workflow rule with an outbound message.
- C. Use a process to update the account when it is edited
- D. Set up a scheduled process in Process Builder.

Answer: A

Explanation:

Explanation

Flow Builder supports creating a scheduled flow that can run at specified intervals and perform actions on a set of records that meet certain criteria.

NEW QUESTION # 47

Once an opportunity reaches the negotiation stage at cloud kicks, The Amount fields becomes required for sales users. Sales managers need to be able to move opportunities inti this stage without knowing the amount.

How should the administrator require this field during the negotiation stage for sales users but allow their managers to make changes?

- A. Assign the administrator profile to the managers.
- B. Make the field required for all users.
- C. Configure a validation rule to meet the criteria.
- D. Create to formula field to fill in the field for managers.

Answer: C

Explanation:
Explanation
To require the Amount field during the negotiation stage for sales users but allow their managers to make changes, the administrator should configure a validation rule that checks if the user profile is not a sales manager, the stage is negotiation, and the amount is blank. This will prevent sales users from saving the record without entering an amount, but allow sales managers to do so. Making the field required for all users will not meet the requirement. Creating a formula field or assigning the administrator profile to the managers will not affect field requirement. References:
