2026 Latest TroytecDumps Plat-Dev-210 PDF Dumps and Plat-Dev-210 Exam Engine Free Share: [https://drive.google.com/open?id=1FrRPLYDuNrzt7Pe1CGsLVc\\_IPyqzExN7](https://drive.google.com/open?id=1FrRPLYDuNrzt7Pe1CGsLVc_IPyqzExN7)

Our Plat-Dev-210 exam braindumps can lead you the best and the fastest way to reach for the certification and achieve your desired higher salary by getting a more important position in the company. Because we hold the tenet that low quality exam materials may bring discredit on the company. So we only create the best quality of our Plat-Dev-210 Study Materials to help our worthy customers pass the exam by the first attempt. Tens of thousands of our customers have passed their exam. And you will be the next one if you buy our Plat-Dev-210 practice engine.

## Salesforce Plat-Dev-210 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>• <b>Expression Sets &amp; Decision Matrices:</b> This section measures the skills of a Logic Designer and covers the configuration and application of Expression Sets and Decision Matrices within Omnistudio tools. It requires demonstrating an understanding of how Expression Sets evaluate conditions and how Decision Matrices use rule-based logic to determine outcomes. This knowledge is essential for automating decisions and streamlining complex business processes.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>• <b>Omnistudio Data Mappers:</b> This part of the exam measures the skills of a Data Engineer and focuses on the use of Omnistudio Data Mappers for extracting, transforming, and loading data. It includes identifying the appropriate Data Mapper for a given requirement, as well as determining the necessary Extract, Load, Transform, and Turbo Extract functionalities based on specific use cases. This section ensures the candidate can effectively map and manipulate data to support business processes.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• <b>Integration Procedures:</b> This section measures the skills of an Integration Architect and involves designing and configuring Integration Procedures to automate processes and integrate systems. It requires comparing and contrasting different elements and configurations within Integration Procedures to meet specific use cases. Candidates are also tested on selecting the correct elements and properties to satisfy functional requirements, ensuring seamless data flow and process automation.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• <b>Integrated Troubleshooting and Deployment:</b> This final section measures the skills of a Support Engineer and focuses on identifying and resolving issues within Omnistudio tools. It involves diagnosing errors based on given scenarios and determining where breakdowns occur in the data flow for specific customer issues. This ensures the candidate can effectively troubleshoot, debug, and maintain solutions to ensure optimal performance and reliability.</li> </ul>

Topic 5	<ul style="list-style-type: none"> <li>• <b>Omniscritps:</b> This portion of the exam measures the skills of a Business Analyst and focuses on the use of OmniScripts to create dynamic, guided user experiences. It includes comparing and contrasting various OmniScript elements and their configurations to fulfill given use cases. The section also examines the candidate's understanding of the JSON structure that supports OmniScripts, as well as the ability to select appropriate elements and properties to address functional requirements effectively.</li> </ul>

## Plat-Dev-210 Exam Dump | Plat-Dev-210 Latest Dumps Ebook

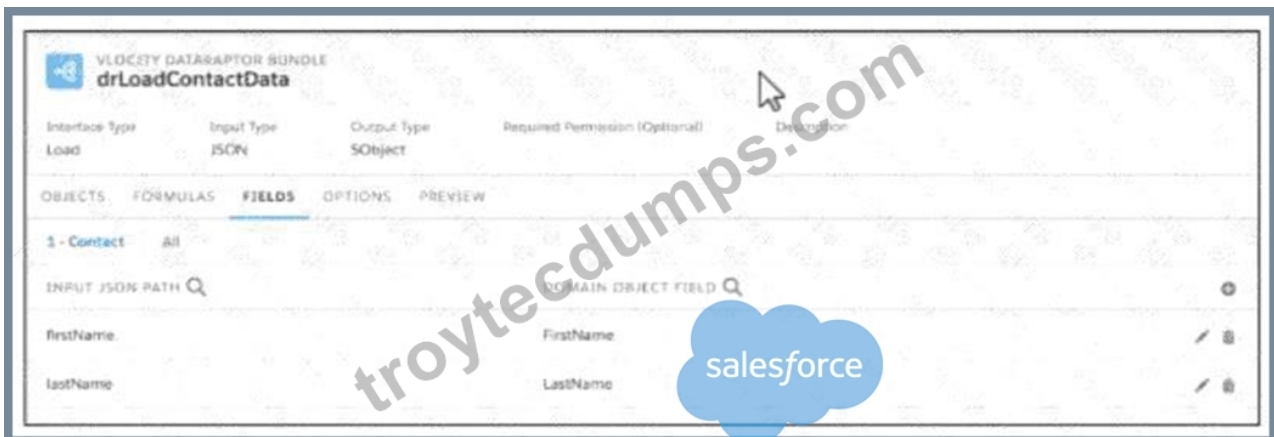

Are you worried about insufficient time to prepare the exam? Do you have a scientific learning plan? Maybe you have set a series of to-do list, but it's hard to put into practice for there are always unexpected changes during the Plat-Dev-210 exam. Here we recommend our Plat-Dev-210 test prep to you. With innovative science and technology, our study materials have grown into a powerful and favorable product that brings great benefits to all customers. We are committed to designing a kind of scientific study material to balance your business and study schedule. With our Plat-Dev-210 Exam Guide, all your learning process includes 20-30 hours.

### Salesforce Certified Omnistudio Developer Sample Questions (Q45-Q50):

#### NEW QUESTION # 45

A developer has an existing DataRaptorLoad that insert Contact records with inputs as LastName and firstName. The DataRaptor works as expected when previewed.

The developer creates an integration Procedure to test the DataRaptor and is using a SetValues element in the Integration Procedure to set the first name and last name for the contact record. The DataRaptor and Integration Procedure are set up as shown in the exhibit below.

When the developer executes the Integration procedure in preview, the following error message displays:

Required fields are missing: [last Name]",

How should the developer address this issue?

- A. **SetValuesContactDetails** should have been added to Additional input of DataRaptor Post Action in Integration Procedure
- B. The DataRaptor Post Action in the integration procedure should have been executed before the Set Values Action
- C. The Set values Action Keys should include the DataRaptor Post Action element name path, e.g LoadContactDetails, lastname
- D. The valid field names should be added in the Domain object field in theDataRaptor

**Answer: A**

Explanation:

According to the Integration Procedure Actions page, "To pass data from a Set Values action to a DataRaptor action, add the Set Values action name to the Additional Input field of the DataRaptor action."

#### NEW QUESTION # 46

Which two in an integration Procedure or DataRaptor can execute a function like CONCAT or DATEDIFF?  
Choose 2 answers

- A. In a Remote Action in an Additional Output value field.
- B. In a DataRaptor Action in an Input Parameters value field.
- C. In a DataRaptor in an Output Tab Output JSON Path.
- D. In a Set Values Action in a Value field.

**Answer: A,D**

Explanation:

A Set Values Action in a Value field and a Remote Action in an Additional Output value field can execute a function like CONCAT or DATEDIFF by using the syntax `{{function(parameters)}}`. For example, `{{CONCAT('Hello', 'World')}}` or `{{DATEDIFF('2021-01-01', '2021-01-31')}}`.

**NEW QUESTION # 47**

An integration procedure contains a Remote Action element that calls a method of an APEX class. The method requires two fields are input: Account id and Product Id. The integration Procedure data JSON contains the following nodes:  
How should the Remote Action element be configured to pass the data correctly to the method?

- A. Add the following to Send JSON Path: `accountId: %Accountd% ProductId% Details Products%`
- B. Set Return Only Additional Output to true, and add the following Key/Value pairs to additional input.
- C. Check the DataRaptor Transform checkbox, and add the following Key/Value pairs to Output JSON Path:
- D. Check the Send Only Additional Input checkbox, and the following/ value pairs to Additional input:

**Answer: D**

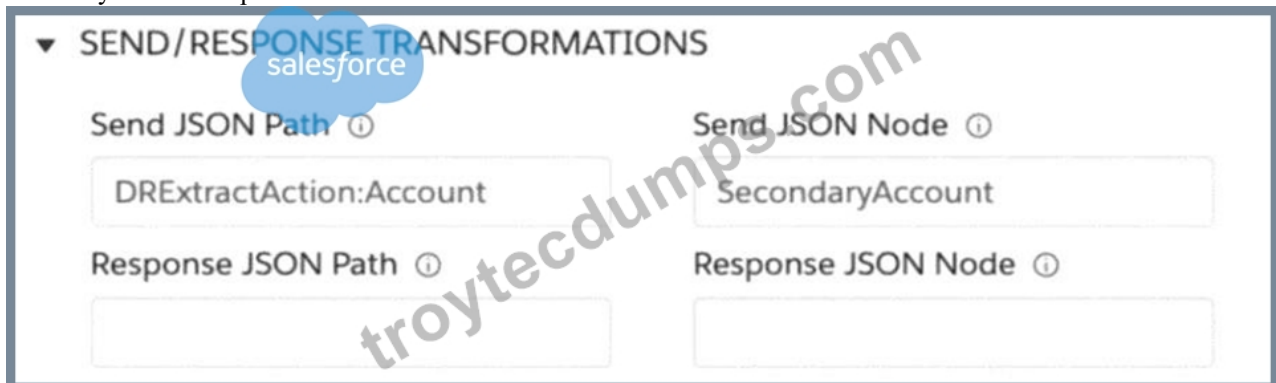

Explanation:

Checking the Send Only Additional Input checkbox allows the Remote Action element to send only the key /value pairs specified in Additional input to the Apex method. The Additional input should have the same keys as the method parameters, and the values should be set to `{{InputData.node}}` for each node. For example, `AccountId: {{InputData.AccountId}}` and `ProductId: {{InputData.Details.Products}}`.

**NEW QUESTION # 48**

Refer to the exhibit below. A developer has configured an Integration Procedure element with SEND /RESPONSE TRANSFORMATIONS as shown.

Alternatively, how could the developer configure Additional Input to send exactly the same data? Assume that the developer checked Send Only Additional Input.

Key	Value
DRExtractAction:Account	SecondaryAccount

- A. 

Key	Value
SecondaryAccount	DRExtractAction:Account
- B. 

Key	Value
DRExtractAction:Account	SecondaryAccount

- C. 

Key	Value
%DBExtractAction:Account%	SecondaryAccount
- D. 

Key	Value
SecondaryAccount	DBExtractAction:Account

**Answer: D**

Explanation:

The Additional Input property allows the developer to specify additional input parameters to be sent to the Integration Procedure element. The input parameters can be specified as a JSON object or as a list of key- value pairs. If the developer checked Send Only Additional Input, then only the input parameters specified in Additional Input are sent, and the SEND/RESPONSE TRANSFORMATIONS are ignored. Therefore, the developer needs to specify the same input parameters as in the SEND/RESPONSE TRANSFORMATIONS in Additional Input. Option C shows how to do this using a JSON object with two properties: "DBExtractAction: Account" and "DBExtractAction:SecondaryAccount". The values of these properties are the same as in the SEND/RESPONSE TRANSFORMATIONS.

### NEW QUESTION # 49

What should a developer's first step be when troubleshooting whether a DataRaptor Extract is retrieving data?

- A. Add a key/value pair in the DataRaptor to test it.
- B. Deactivate the card and layout, and go to the PREVIEW tab for the card to test.
- C. Go to the PREVIEW tab In OmniScript to test.
- D. Go to the Lightning Console and reload the page to test.

**Answer: C**

Explanation:

The PREVIEW tab in OmniScript allows the developer to test the DataRaptor Extract by providing a record ID and viewing the output data. This is a quick and easy way to troubleshoot whether the DataRaptor Extract is retrieving data correctly.

### NEW QUESTION # 50

.....

As the saying goes, time is the most precious wealth of all wealth. If you abandon the time, the time also abandons you. So it is also vital that we should try our best to save our time, including spend less time on preparing for exam. Our Plat-Dev-210 guide torrent will be the best choice for you to save your time.
