

Desktop JN0-481 Practice Test Software - Get Juniper Actual Exam Environment

P.S. Free & New JN0-481 dumps are available on Google Drive shared by VCEdumps: <https://drive.google.com/open?id=1P5D3RCTJyn8P100fQtiqFbxIdlBTgzjX>

One of the biggest highlights of the JN0-481 exam materials is the availability of three versions: PDF, app/online, and software/pc, each with its own advantages: The PDF version of JN0-481 exam materials has a free demo available for download. You can print exam materials out and read it just like you read a paper. The online version of JN0-481 Exam Materials is based on web browser usage design and can be used by any browser device. At the same time, the first time it is opened on the Internet, it can be used offline next time. You can practice anytime, anywhere.

The VCEdumps is dedicated to providing Building Data Center, Specialist (JNCIS-DC) (JN0-481) exam candidates with the real Juniper Dumps they need to boost their Data Center, Specialist (JNCIS-DC) (JN0-481) preparation in a short time. With our comprehensive Data Center, Specialist (JNCIS-DC) (JN0-481) PDF questions, Data Center, Specialist (JNCIS-DC) (JN0-481) practice exams, and 24/7 support, users can be confident that they are getting the best possible Data Center, Specialist (JNCIS-DC) (JN0-481) preparation material. Buy today and start your journey to success with the actual Data Center, Specialist (JNCIS-DC) (JN0-481) exam dumps.

Quiz 2026 Juniper Newest Reliable JN0-481 Exam Cost

With the unemployment rising, large numbers of people are forced to live their job. It is hard to find a high salary job than before. Many people are immersed in updating their knowledge. So people are keen on taking part in the JN0-481 exam. As you know, the competition between candidates is fierce. If you want to win out, you must master the knowledge excellently. Now our JN0-481 Study Materials are your best choice. With the assistance of our study materials, you will advance quickly.

Juniper Data Center, Specialist (JNCIS-DC) Sample Questions (Q37-Q42):

NEW QUESTION # 37

You are building an IP fabric and have decided to use Junos devices to create an EBGp underlay. You must ensure that traffic is load balanced throughout your fabric.

You must also ensure that regardless of the path used through the fabric that all traffic is handled consistently and load balanced predictably.

According to Juniper Networks, what are three best practices that you should employ to help you achieve the desired behavior? (Choose three.)

- A. All leaf devices should be the same model including linecards and port density.
- B. Each leaf device must use the same link speed for all uplinks to the spine devices.
- C. Leaf devices should use a variety of link speeds for each uplink to the spine devices.

- D. Each leaf device should be a different model including linecards and port density.
- E. All spine devices should be the same model including linecards and port density.

Answer: A,B,E

NEW QUESTION # 38

What does EVPN use to identify which remote leaf device advertised the EVPN route?

- A. a community tag
- B. a route target value
- C. a route distinguisher value
- D. a VRF target value

Answer: C

Explanation:

EVPN uses a route distinguisher (RD) value to identify which remote leaf device advertised the EVPN route. An RD is a 64-bit value that is prepended to the EVPN NLRI to create a unique VPNv4 or VPNv6 prefix. The RD value is usually derived from the IP address of the PE that originates the EVPN route. By comparing the RD values of different EVPN routes, a PE can determine which remote PE advertised the route and which VRF the route belongs to.

NEW QUESTION # 39

Which two statements about ESI values are correct for the server connections to the fabric shown in the exhibit? (Choose two.)

- A. A valid ESI value for Server A is 0x00.10.10.10.10.10.10.10.
- B. A valid ESI value for Server B is 0x00.00.00.00.00.00.00.00.
- C. A valid ESI value for Server A is 0x00.00.00.00.00.00.00.00.
- D. A valid ESI value for Server B is 0x00.20.20.20.20.20.20.20.

Answer: A,B

Explanation:

To answer this question, we need to understand the concept of ESI values in EVPN LAGs. An ESI is a 10-byte value that identifies an Ethernet segment, which is a set of links that connect a multihomed device (such as a server) to one or more PE devices (such as leaf switches) in an EVPN network. The same ESI value must be configured on all the PE devices that connect to the same Ethernet segment. This allows the PE devices to form an EVPN LAG, which supports active-active or active-standby multihoming for the device. The ESI value can be manually configured (type 0) or automatically derived from LACP (type 1) or other methods. In the exhibit, Server A is connected to two leaf switches (QFX 5210) using a LAG with LACP enabled. Server B is connected to three leaf switches (QFX 5120) using a LAG with LACP enabled.

NEW QUESTION # 40

Which two statements are correct about the information shown in the exhibit? (Choose two.)

- A. Four physical interfaces exist in a LAG facing the leaf pair.
- B. The device shown is a generic system.
- C. The physical ports are not part of the LAG.
- D. The system is fully managed by Juniper Apstra.

Answer: A,B

Explanation:

A generic system is a device that is not managed by Juniper Apstra and does not have a specific role or type assigned to it. A generic system can be used to represent a server, a firewall, a load balancer, or any other device that is not part of the fabric. In the exhibit, the device shown is a generic system, as indicated by its role, system type, and management level. Therefore, the correct answer is B. The device shown is a generic system. A LAG is a link aggregation group that bundles multiple physical interfaces into a single logical interface. A LAG can provide increased bandwidth, redundancy, and load balancing for the network traffic. In the exhibit, the device shown has four physical interfaces that are part of a LAG, as indicated by their description and li_type. The LAG is facing the leaf pair, which are the two switches that connect to the device.

NEW QUESTION # 41

Referring to the exhibit, what needs to change in the IP fabric to make it a valid IP fabric?

- A. The connection between the two spine nodes must be increased to 40 Gbps.
- B. The IP fabric must consist of only one device model throughout the fabric.
- C. The IP fabric connections must be increased to a speed greater than 10 Gbps.
- **D. The connection between the two spine nodes must be removed.**

Answer: D

Explanation:

To make the IP fabric a valid IP fabric, the connection between the two spine nodes must be removed. This is because an IP fabric is a network topology that uses a spine-leaf architecture, where the spine devices are only connected to the leaf devices, and the leaf devices are only connected to the spine devices. This creates a non-blocking, high-performance, and scalable network that supports Layer 3 routing protocols such as BGP or OSPF. The connection between the two spine nodes in the exhibit violates the spine-leaf design principle and introduces unnecessary complexity and potential loops in the network.

NEW QUESTION # 42

.....

Don't waste your time with unhelpful study methods. There are plenty of options available, but not all of them are suitable to help you pass the Data Center, Specialist (JNCIS-DC) (JN0-481) exam. Some resources out there may even do more harm than good by leading you astray. Our Juniper JN0-481 Exam Dumps are available with a free demo and up to 1 year of free updates.

Latest JN0-481 Exam Fee: <https://www.vcedumps.com/JN0-481-examcollection.html>

Juniper Reliable JN0-481 Exam Cost But getting a certificate is not so easy for candidates, However, JN0-481 training materials can send the certification to you within the shortest time, As an important test of Juniper, JN0-481 test exam become popular among people, JN0-481 practice exam cram is useful and comprehensive, and the numbers of the questions are controlled according to the summary of large amount of data analysis, Juniper Reliable JN0-481 Exam Cost We have 24/7 customer assisting support you if you have any problems in the course of purchasing or downloading.

I'll break down the key new Vista features and show you JN0-481 Brain Exam which flavor of Vista includes which features, Finally, you can contact the author directly at hall@coreservlets.com with questions or suggestions or to inquire Reliable JN0-481 Exam Cost about customized training courses on Java EE and JavaScript topics to be held onsite at your organization.

Top Reliable JN0-481 Exam Cost | Professional Juniper JN0-481: Data Center, Specialist (JNCIS-DC) 100% Pass

But getting a certificate is not so easy for candidates, However, JN0-481 Training Materials can send the certification to you within the shortest time, As an important test of Juniper, JN0-481 test exam become popular among people.

JN0-481 practice exam cram is useful and comprehensive, and the numbers of the questions are controlled according to the summary of large amount of data analysis.

We have 24/7 customer assisting support JN0-481 you if you have any problems in the course of purchasing or downloading.
