## Valid Brindumps ITFAS-Level-1 Ebook, Latest ITFAS-Level-1 Demo

In spite of the high-quality of our ITFAS-Level-1 study brindumps, our after-sales service can be the most attractive project in our ITFAS-Level-1 guide questions. We have free online service which means that if you have any trouble using our ITFAS-Level-1 learning materials or operate different versions on the platform mistakenly, we can provide help for you remotely in the shortest time. And we know more on the ITFAS-Level-1 Exam Dumps, so we can give better suggestions according to your situation.

## NICET Inspection and Testing of Fire Alarm Systems Level I Exam Sample Questions (Q17-Q22):

### NEW QUESTION # 17

How should the documentation cabinet be labeled?

- A. Fire alarm record documents
- B. Fire alarm documents
- **C. System record documents**
- D. System records

**Answer: C**

Explanation:

NFPA 72 mandates that fire alarm system documentation be stored in a dedicated cabinet, and that cabinet must be clearly labeled.

The exact phrase required is:

NFPA 72 (2022), Section 7.7.2:

"The cabinet shall be prominently labeled 'SYSTEM RECORD DOCUMENTS.'"

This ensures that anyone - including inspectors, AHJs, or technicians - can easily identify where critical system information is stored.

Correct answer: D. System record documents

### NEW QUESTION # 18

How often should a monitored fire alarm system be inspected for trouble signals?

- A. Semiannually
- B. Annually
- **C. Weekly**
- D. Monthly

**Answer: C**

Explanation:

NFPA 72 requires that trouble signals be inspected weekly on monitored fire alarm systems to ensure the system can detect and report problems in a timely manner.

NFPA 72 (2022), Table 14.3.1 - Inspection Frequencies:

"Supervising station systems - Trouble signals" # Weekly

This ensures any open circuits, ground faults, or system issues are discovered promptly.

Correct answer: A. Weekly

### NEW QUESTION # 19

Smoke alarms in one- and two-family dwellings shall be replaced when they fail to operate or they have been in place a maximum of how many years?

- **A. 0**
- B. 1
- C. 2
- D. 3

**Answer: A**

Explanation:

NFPA 72 requires smoke alarms in residential settings to be replaced every 10 years, even if they have not shown any signs of failure.

NFPA 72 (2022), Section 29.8.1.4:

"Unless otherwise recommended by the manufacturer, smoke alarms shall be replaced when they fail to respond to operability tests or have been in service for 10 years." Correct answer: C. 10

### NEW QUESTION # 20

When testing a room temperature switch, below what temperature does the off-normal signal occur?

- A. 32 °F (0.0 °C)
- B. 50 °F (10.0 °C)
- C. 45 °F (7.2 °C)
- **D. 40 °F (4.4 °C)**

**Answer: D**

Explanation:

Room temperature switches are used to detect freezing conditions in environments such as sprinkler valve rooms. An off-normal (supervisory) condition is triggered if the temperature drops below 40 °F (4.4 °C).

NFPA 72 (2022), Section A.17.16.1.1:

"Low-temperature supervisory signals shall be initiated when the temperature falls below 40 °F (4.4 °C) unless otherwise specified."

This signal helps prevent system damage or failure due to freezing.

Correct answer: B. 40 °F (4.4 °C)

#### **NEW QUESTION # 21**

In addition to 10% of devices not affected, what else must be tested when site-specific software is changed?

- **A. 100% of devices affected**
- B. 10% of devices affected
- C. 25% of devices affected
- D. 50% of devices affected

**Answer: A**

Explanation:

When site-specific software (such as logic for fire alarm control panels) is changed, 100% of the devices affected by that change must be tested to confirm correct operation. Also, 10% of unaffected devices must be tested as a safeguard.

NFPA 72 (2022), Section 14.4.2.2.4:

"When system software is modified, 100% of the affected devices or functions and 10% of the nonaffected devices or functions shall be tested." This ensures that updates don't unintentionally compromise unrelated areas of the system.

Correct answer: D. 100% of devices affected

#### **NEW QUESTION # 22**

.....

People who appear in the test of the Inspection and Testing of Fire Alarm Systems Level I Exam (ITFAS-Level-1) certification face the issue of not finding up-to-date and real exam questions. BraindumpQuiz is here to resolve all of your problems with its actual and latest NICET ITFAS-Level-1 Questions. You can successfully get prepared for the ITFAS-Level-1 examination in a short time with the aid of these Inspection and Testing of Fire Alarm Systems Level I Exam (ITFAS-Level-1) exam questions.
