## Zscaler ZDTA Exam Cram Questions, ZDTA Latest Examprep

Considering all customers' sincere requirements, ZDTA test question persist in the principle of "Quality First and Clients Supreme" all along and promise to our candidates with plenty of high-quality products, considerate after-sale services as well as progressive management ideas. To be out of the ordinary and seek an ideal life, we must master an extra skill to get high scores and win the match in the workplace. Our ZDTA Exam Question can help make your dream come true. What's more, you can have a visit of our website that provides you more detailed information about the ZDTA guide torrent.

### Zscaler Digital Transformation Administrator Sample Questions (Q78-Q83):

#### NEW QUESTION # 78

What mechanism identifies the ZIA Service Edge node that the Zscaler Client Connector should connect to?

- A. The PAC file used in the Forwarding Profile
- B. The IP ranges included/excluded in the App Profile
- C. The PAC file used in the Application Profile**
- D. The Machine Key used in the Application Profile

#### Answer: C

Explanation:

The PAC file used in the Application Profile is the mechanism that identifies the ZIA Service Edge node that the Zscaler Client Connector should connect to. The PAC (Proxy Auto-Configuration) file contains rules that direct client traffic to the appropriate service edge based on IP ranges, location, or other criteria.

The study guide explains that the Application Profile's PAC file plays a key role in routing client connections to the nearest or optimal ZIA Service Edge node to ensure efficient traffic forwarding and policy enforcement.

#### NEW QUESTION # 79

If you're migrating from an on-premises proxy, you will already have a proxy setting configured within the browser or within the system. With Tunnel Mode, the best practice is to configure what type of proxy configuration?

- A. Execute a GPO update to retrieve the proxy settings from AD.
- B. Enforce no Proxy Configuration.**
- C. Use an automatic configuration script (forwarding PAC file).
- D. Use Web Proxy Auto Discovery (WPAD) to auto-configure the proxy.

#### Answer: B

### NEW QUESTION # 80

An administrator would like users to be able to use the corporate instance of a SaaS application. Which of the following allows an administrator to make that distinction?

- A. URL filtering with SSL inspection
- B. Endpoint DLP
- C. Out-of-band CASB
- D. **Cloud application control**

**Answer: D**

Explanation:

Cloud application control is the feature that allows an administrator to distinguish and enforce policies specifically on the corporate instance of a SaaS application. This enables granular control, allowing users to access the approved corporate SaaS while restricting access to personal or unauthorized instances. Out-of-band CASB generally provides visibility but does not enforce real-time distinctions in this context. URL filtering with SSL inspection and Endpoint DLP serve different purposes, such as content inspection and endpoint data protection, respectively.

The study guide explains that Cloud Application Control policies identify and enforce controls based on SaaS application instances, providing precise policy enforcement aligned with corporate SaaS usage requirements.

### NEW QUESTION # 81

The security exceptions allow list for Advanced Threat Protection apply to which of the following Policies?

- A. IPS Control
- B. URL Filtering
- C. **Sandbox**
- D. File Type Control

**Answer: C**

Explanation:

The ATP "Security Exceptions" allow list is leveraged by both Advanced Threat Protection and the Sandbox policy - URLs or hosts you add here won't be submitted for sandbox analysis.

### NEW QUESTION # 82

Which of the following is an unsupported tunnel type?

- A. **Secure Socket Tunneling Protocol (SSTP)**
- B. HTTP Connect Tunnels
- C. Proprietary Microtunnels
- D. Generic Routing and Encapsulation (GRE)

**Answer: A**

Explanation:

Secure Socket Tunneling Protocol (SSTP) is not supported as a tunnel type by Zscaler. Zscaler supports GRE, HTTP Connect tunnels, and its own proprietary Microtunnels for traffic forwarding and secure connectivity, but SSTP is not among the supported tunnel protocols.

### NEW QUESTION # 83

.....

Our service and Zscaler Digital Transformation Administrator exam questions are offered to exam candidates who are in demand of our products which are marvelous with the passing rate up to 98 percent and so on. So this result invariably makes our ZDTA torrent prep the best in the market. We can assure you our ZDTA test guide will relax the nerves of the exam without charging substantial fees. So we are always very helpful in arranging our Zscaler Digital Transformation Administrator exam questions with both high quality and reasonable price. And you can choose them without hesitation. What is more, we give discounts upon occasions and send you the new version of our ZDTA Test Guide according to the new requirements of the exam for one year from

the time you place your order. One of our many privileges offering for exam candidates is the update. So we have received tremendous compliments which in return encourage us to do better. So please keep faithful to our ZDTA torrent prep and you will prevail in the exam eventually.
